

Guide to downloading Facebook videos to your computer super fast.

Downloading Facebook videos is very simple; you can use online tools to download Facebook videos or download them directly through your browser.

You can quickly download videos from Facebook using online tools like SnapSave, SaveFrom, FDownloader, FDown, X2Download, or manually without software (replace 'www' with 'm' in the URL). Additionally, browsers like Chrome, Firefox, IE, or Edge also support downloading videos if they are public or uploaded by you.

1. Why should you use Facebook video download tools?

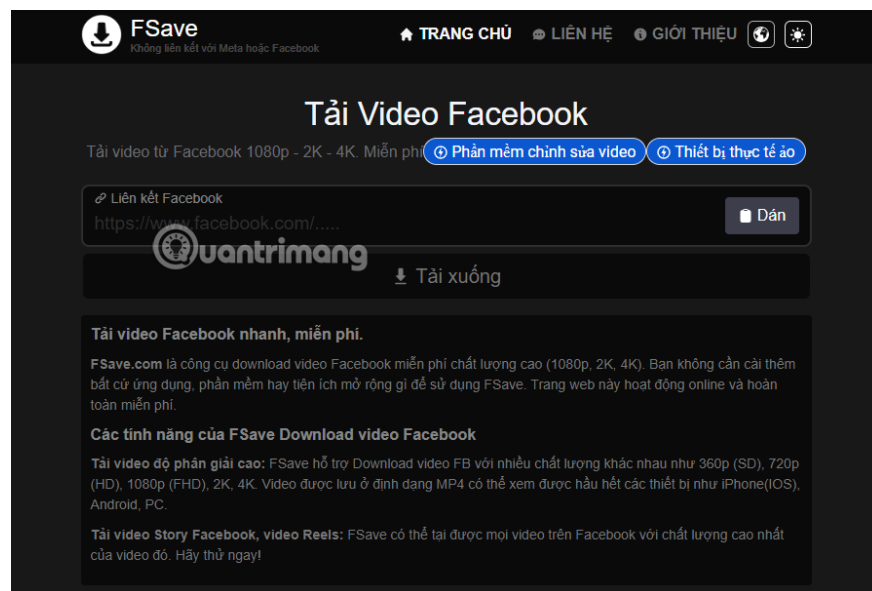

1. Because there are many online tools that help you download videos quickly without installing any software.
2. Many tools allow you to select video quality from standard to Full HD or 4K, if available.
3. You can separate the audio file if you don't need the video.
4. Some tools also support downloading from other social media platforms such as Instagram, TikTok, YouTube, and Twitter.

2. Instructions on downloading Facebook videos using online tools

2.1 Save

Access Fsave

SnapSave supports downloading Facebook videos (personal posts, groups, pages, and private videos if access is permitted) in HD to 4K quality. Additionally, SnapSave also supports downloading from Instagram, Twitter, TikTok, and sometimes YouTube.

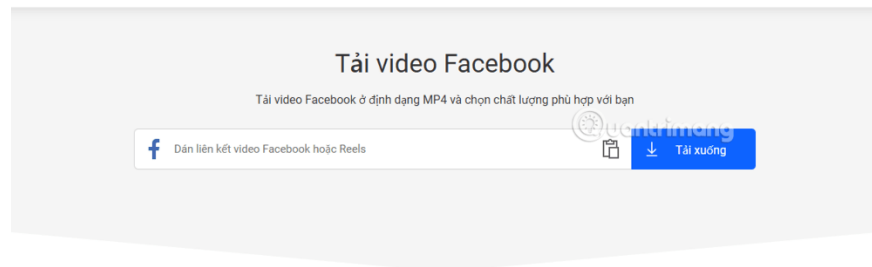

2.2 ClipSave

Access ClipSave

1. Access the ClipSave page using the link above.
2. Copy the video URL from Facebook.
3. Choose your desired format and quality.
4. Click **Download**.

ClipSave supports many platforms besides Facebook, such as YouTube, Instagram, TikTok, Vimeo, Dailymotion, etc.

CÁCH TẢI XUỐNG VIDEO VÀ REELS FACEBOOK MỘT CÁCH DỄ DÀNG

Tải xuống video và Reels Facebook chưa bao giờ dễ dàng hơn với ClipSave.net. Chỉ cần sao chép URL của video bạn muốn tải xuống, dán vào trường nhập trên ClipSave.net và nhấp vào nút tải xuống. Bạn sẽ được chuyển đến một trang nơi bạn có thể chọn chất lượng tải xuống mong muốn. Chỉ trong vài lần nhấp, video của bạn sẽ sẵn sàng để xem ngoại tuyến hoặc cho bất kỳ mục đích nào khác. Thường thức sự tiện lợi của việc truy cập các video yêu thích của bạn mọi lúc, mọi nơi, không giới hạn.

2.3 FBDown

Access FBDown

FBDown is a free online tool that requires no installation. It supports various video formats and qualities from Facebook (public posts, groups, personal pages, and private videos if access is granted).

2.4 X2 Download

Access X2Download

Similar to other online tools, you paste the video URL, select the format and quality. X2Download also has a 'Render' option to increase video quality (if your system supports it). It works well on computers and mobile devices.

3. How to download Facebook videos without tools

3.1 Firefox / IE / Microsoft Edge (older) browsers

1. **Step 1:** Open the Facebook video you want to download, right-click and select 'Show URL'.
2. **Step 2:** Copy the URL and paste it into your browser's address bar.
3. **Step 3:** Replace 'https://www' with 'm.' ? Facebook mobile interface
4. **Step 4:** Watch the video, right-click and select 'Save as'.
5. **Step 5:** In IE: when you press play, a small pop-up appears ? select 'Save'
6. **Step 6:** Choose a save folder and wait for the download to complete.

Note: You must click 'View video' first before right-clicking to see 'Save video as'.

3.2 C?c C?c Browser

Cốc Cốc automatically detects video/audio on websites. Simply select the green arrow icon on the toolbar and choose the video quality to upload (from standard to 4K, if available). You can also download only the audio file if you don't need the video.

3.3 Upload videos you've uploaded to Facebook

If it's a video you uploaded:

1. Click the three dots (?) in the upper corner of the video ? select **Download Video**
2. The video will be downloaded to your device immediately.

4. Things to note when videos are in private or closed group mode.

1. The tools mentioned above are only effective if you have access to the video (for example, a private video that you uploaded or that was shared with you).
2. If the video is in a private group, you may need to request permission to download it.
3. Under no circumstances should you use tools that infringe on copyright or violate Facebook's policies.

Downloading Facebook videos can be easily done using online tools or manually in your browser. If you frequently download videos from multiple social networks, choose a multi-platform tool like SnapSave, SaveFrom, or X2Download. Always check video access permissions (public, private, group) before downloading. Good luck!
