

Guide to obtaining Tung Tung Tung Sahur in Steal a Brainrot

Tung Tung Tung Sahur returns to Steal a Brainrot as a Secret Unit. This article guides you on how to acquire this extremely powerful unit by purchasing Coffins or infiltrating enemy bases to steal them.

Tung Tung Tung Sahur – one of the most beloved "brainrot" units in **Steal a Brainrot** on Roblox – has officially returned. This return not only brings nostalgia but also a **significant increase in value**, making it one of the most powerful **Secret Units** currently available.

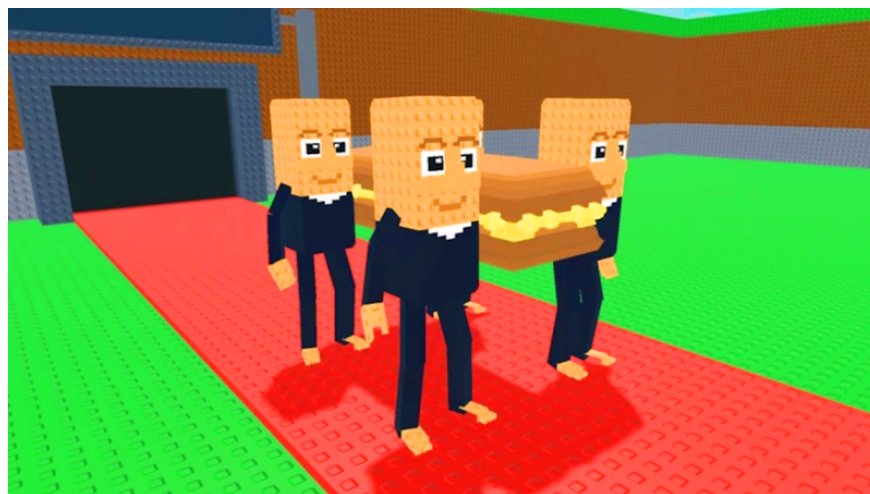

With the latest update, "**He's Coming Back**," the brainrot unit, previously removed due to copyright issues, has reappeared, along with the Advent Calendar and the new Admin Machine. This unit is a top target due to its **incredible money output**, making it a coveted prize for any thief in **Steal a Brainrot**.

Let's explore how to acquire, the value, and the detailed stats of this legendary brainrot unit.

How to collect Tung Tung Tung Sahur in the game

Currently, players only have two ways to add Tung Tung Tung Sahur to their base: through **Coffins** or by **stealing them directly** from another player's base.

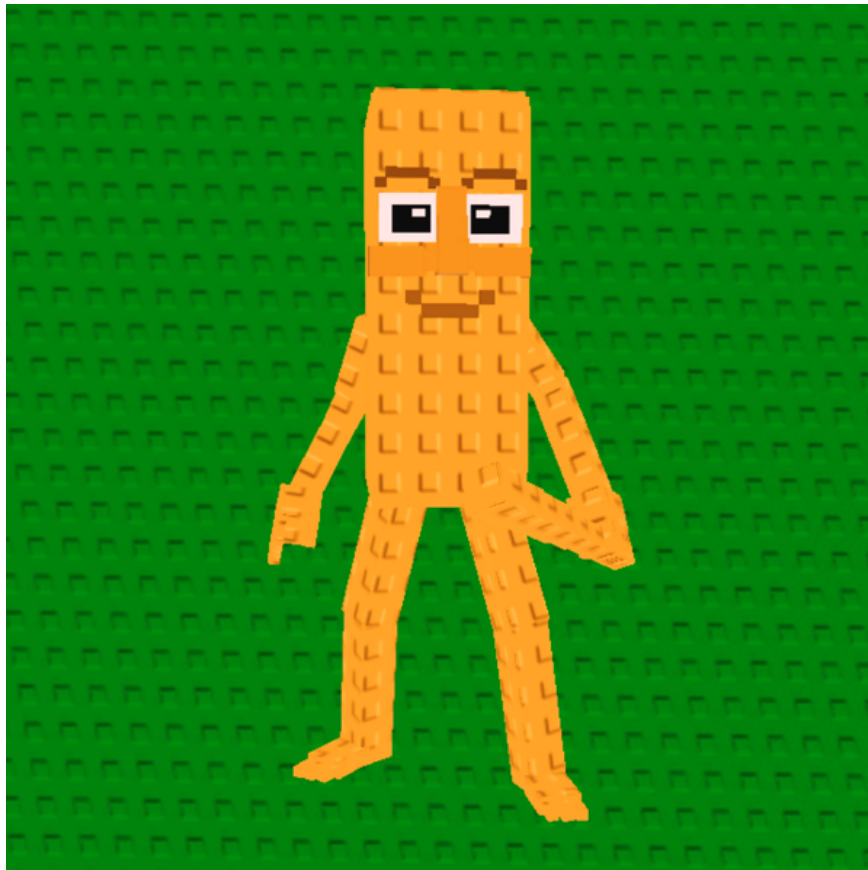

Option 1: Buy a Tung Tung Tung Sahur Coffin

This method is legal but requires significant financial resources:

1. **Waiting for Admin Activation:** This unit only appears when administrator (Admin) **Sammy** activates the **Tung Tung Tung Sahur Coffin** shopping feature during special "admin abuse" events.
2. **Capital Investment:** To purchase a Coffin, players need to spend a large sum of money, up to **\$500 million** (\$500M).
3. **Opening the Chest:** After a successful purchase, open **the Tung Tung Tung Sahur Coffin** to receive the valuable Tung Tung Tung Sahur unit.

Method 2: Breaking In and Stealing the Unit

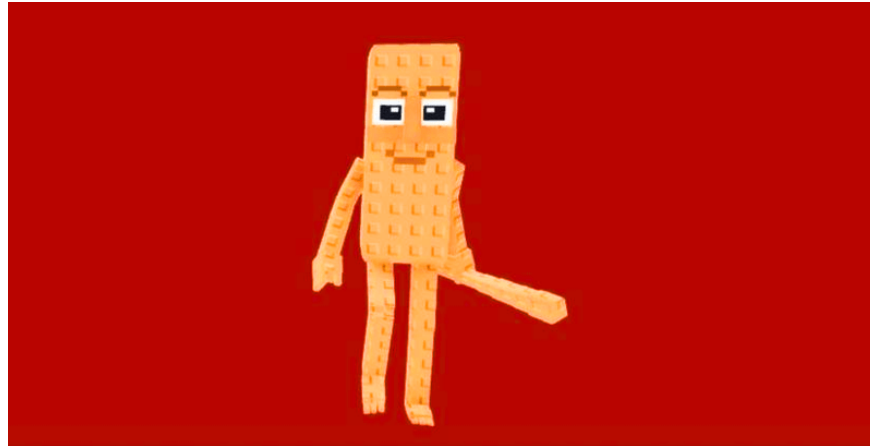

If the first method is too expensive, here's a quicker and more "economical" way, just like the spirit of the game **Steal a Brainrot** :

1. **Objective:** Since the Tung Tung Tung Sahur is newly released, many players may be showing off this unit in their bases. Search for bases with this unit and plan accordingly.
2. **Equipment Preparation:** Equip your best Sliding Hands. These are essential tools for taking down opponents.
3. **Surprise Attack Tactic:** Never charge straight into the base. Hide and wait for the base owner **to move away from their base** . Then, **launch a surprise slap attack from behind** .
4. **Locking Down Enemies:** To ensure your opponent can't get up immediately, use other support items like **Bee Launcher** , **Rage Table** , or place traps around the enemy.
5. **Complete the Heist:** After disabling the enemy, quickly advance to their base, interact with Tung Tung Tung Sahur using the 'E' key to steal, and retreat to your base as quickly as possible.

Tung Tung Tung Sahur's power index

This unit was redesigned to retain its distinctive appearance, blending seamlessly with other units as if no copyright incident had ever occurred.

Index	Current Specifications	Initial Specifications (when first released)	Analysis
Rarity	Secret	Originally Rare	Ranked among the most valuable units in the game.
Value	\$500 Million (500M\$)	\$3,000 (3,000\$)	Market value and trading volume are extremely high.
Money/Second	\$1.5 Million (1.5M\$)	\$25/s	The potential for breakthrough earning potential, a source of enormous profits.

H3: Tung Tung Tung Sahur - The Essential Money-Making Machine

With the potential to generate **\$1.5M per second** and a current value of up to **\$500M** , Tung Tung Tung Sahur is undoubtedly a sought-after unit by all players. This unit guarantees a superior source of profit and asset growth rate. Because of this economic benefit, it has become a prime target for theft within the Steal a Brainrot community.
