Instructions on how to rename Facebook. You want to change your name on Facebook so your friends can easily find you on the planet's largest social network! Or simply name it according to your preferences so unique and strange! This article I will guide you

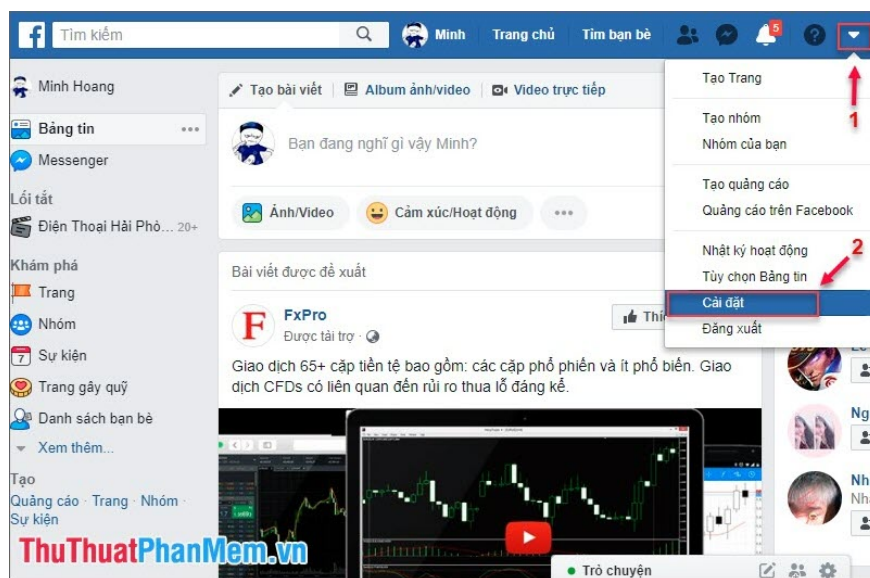

You want to change your name on Facebook so your friends can easily find you on the planet's largest social network! Or simply name it according to your preferences so unique and strange! This article I will guide you through the steps to change the name on your personal Facebook in the simplest way.

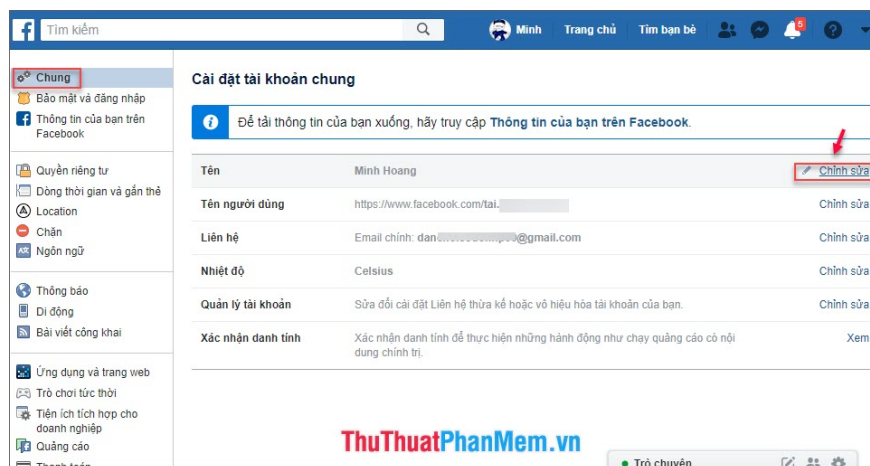

I will guide you how to rename your personal Facebook on Facebook computer version (PC) and Facebook mobile version.

## For PC version

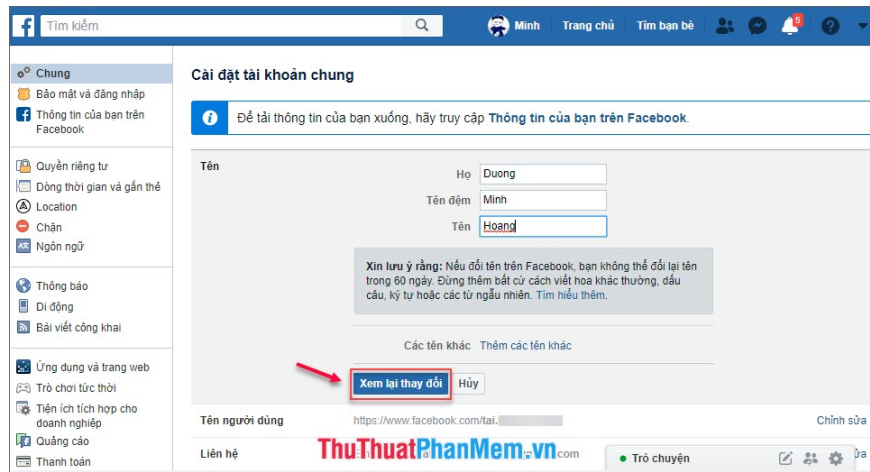

**Step 1:** At the interface of your Facebook homepage. Click the down arrow icon and select **Settings**.

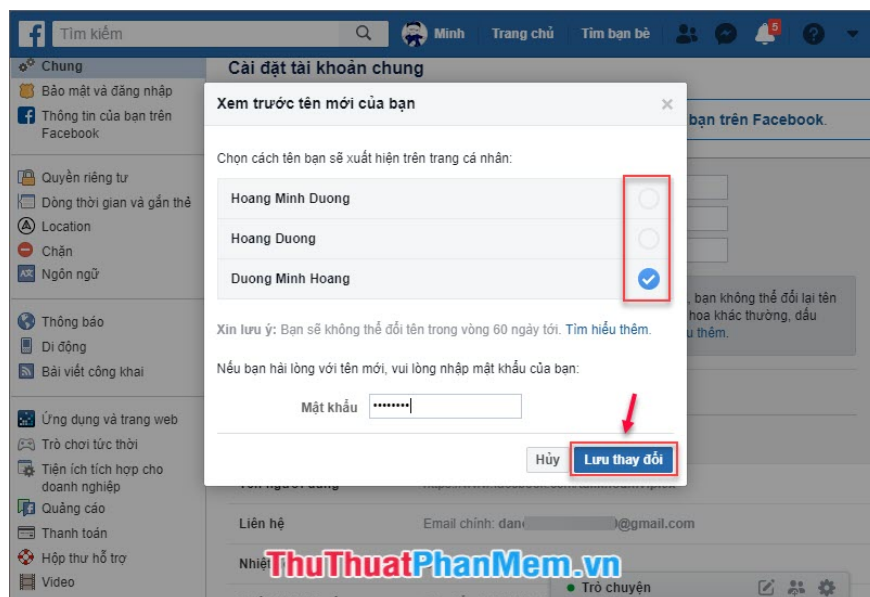

**Step 2:** In the **General** section, we see information about our account on the right side of the screen. To rename, click **Edit** in the **Name** line to edit the new name for your account.

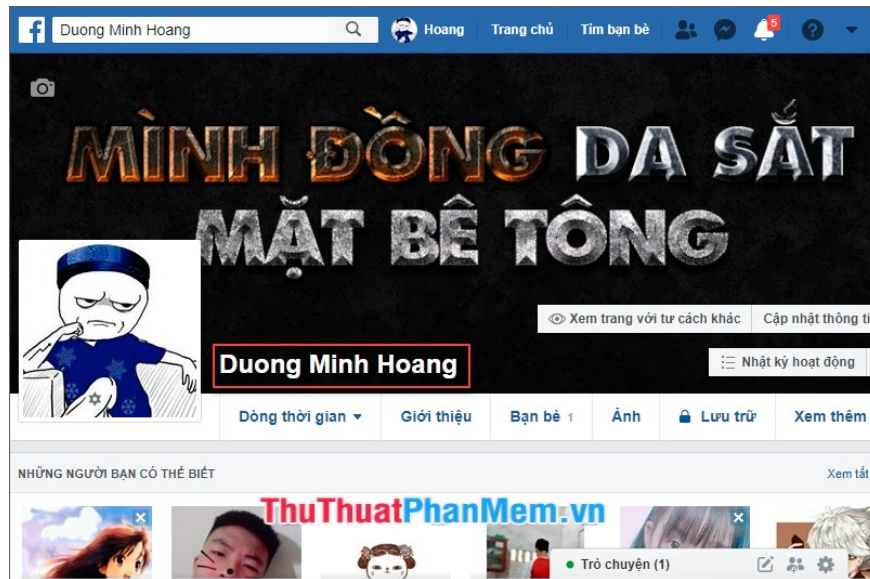

**Step 3:** You can change your name to your liking. I encourage you to use your real name so your friends can easily find your personal Facebook. In addition, Facebook does not allow you to use special characters and cannot impersonate a celebrity's name without permission. Not only that, you are only allowed to change the name up to 5 times and the limit of each change is 60 days. Readers should consider carefully before proceeding to change your name. After choosing a name that suits you, you click on review changes.

**Step 4:** After clicking on review Facebook changes will give suggestions on the display name for you. You can change to one of the above three suggestions in order (**First Name, Middle Name, Last Name**) or (**First Name, Last Name**) or (**Last Name, Middle Name, First Name**) . After choosing a display name like that for you, enter your Facebook login password in the **Password** box and then click **Save changes** to Facebook to save information for you. It's done!

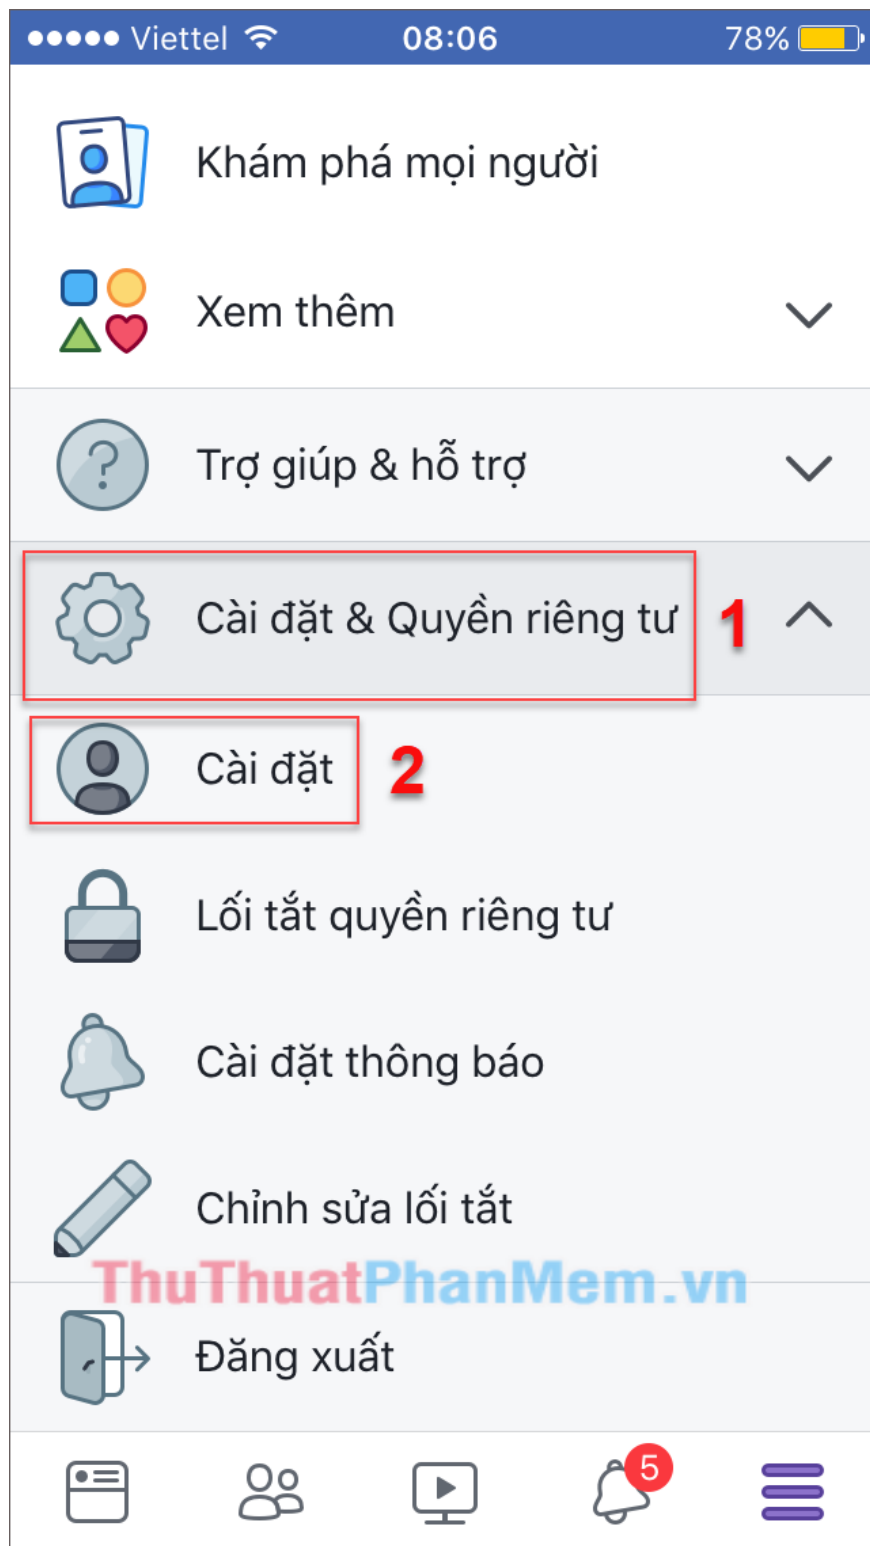

You check back by going to your personal Facebook page to see that the display name has been changed.

## For mobile version

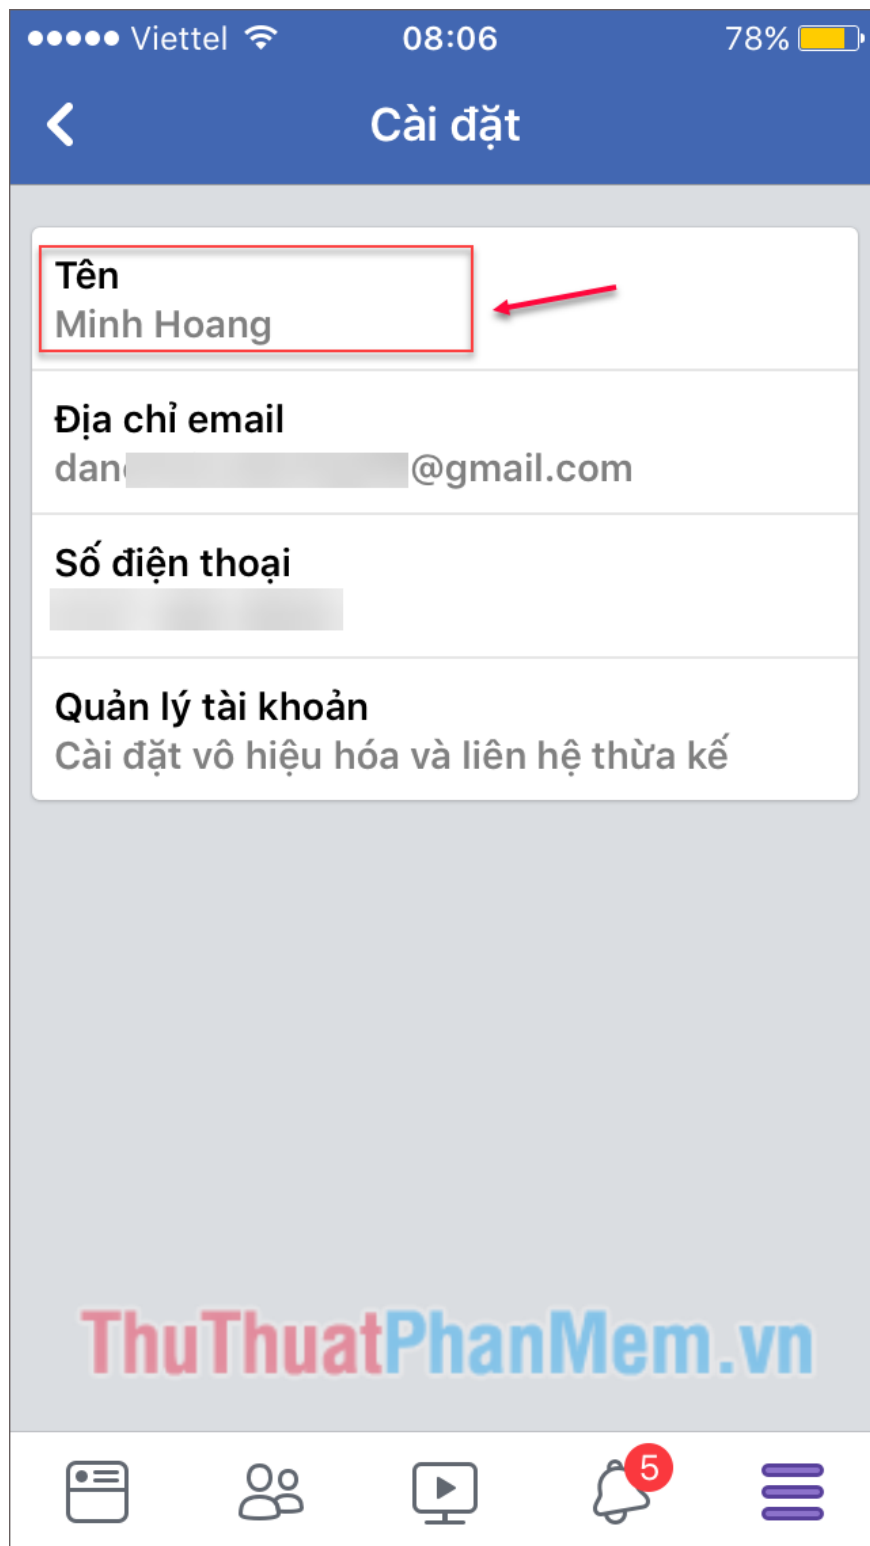

**Step 1:** In the Facebook application, you click on the icon 3 dashes in the lower right corner of the screen. Go to **Settings & Privacy** ? select **Settings** .

**Step 2:** In the **Settings** menu , select **Personal information**.

**Step 3:** A new menu will appear showing the user's personal information such as **Name** , **Email Address** , **Phone number** . To change the name, touch the **Name** section .

**Step 4:** The **Name** menu will appear allowing you to change your **First name**, **Middle name**, **First name** . Choose the name that best suits you and then click **Review changes** .

**Step 5:** Here Facebook will give suggestions on the display name for personal Facebook for you

After saving changes, you can check by going to your personal page to see if the display name has been changed as shown.

It's simple, right! Hopefully, with this article, you will choose a satisfactory name for you to display on your personal Facebook page. Good luck!
