## 1. Turn off fast Avast notifications

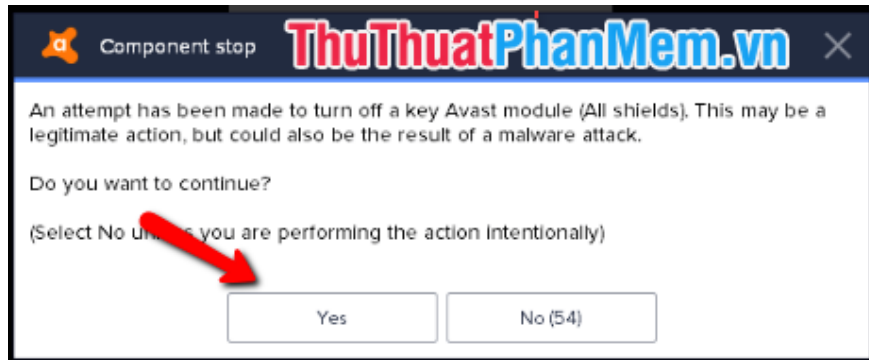

This shortcut disables all of Avast's notifications and you can select quick timelines.

**Step 1:** Avast is a background run on the computer so on your Taskbar will have the Avast icon. You **right-click** on the icon and select **Avast shields control** . There will be 4 choices for you as follows:

1. **Disable for 10 munites:** Disable 10 minutes
2. **Disable for 1 hour:** Disable 1 hour
3. **Disable until computer is restarted:** Disable until the computer restarts
4. **Disable permanently:** Disable permanently

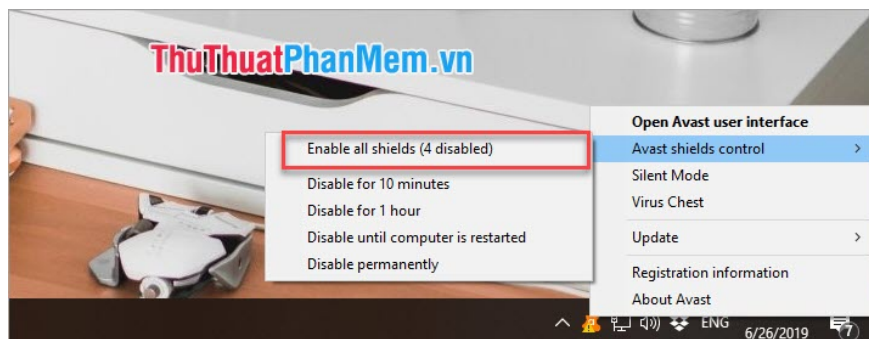

Immediately there will be a warning message displayed for you that the shutdown will affect the computer protection process from Virus, you select **Yes** to turn off.

After you turn off the notification, the Avast icon will display a yellow exclamation mark next to it.

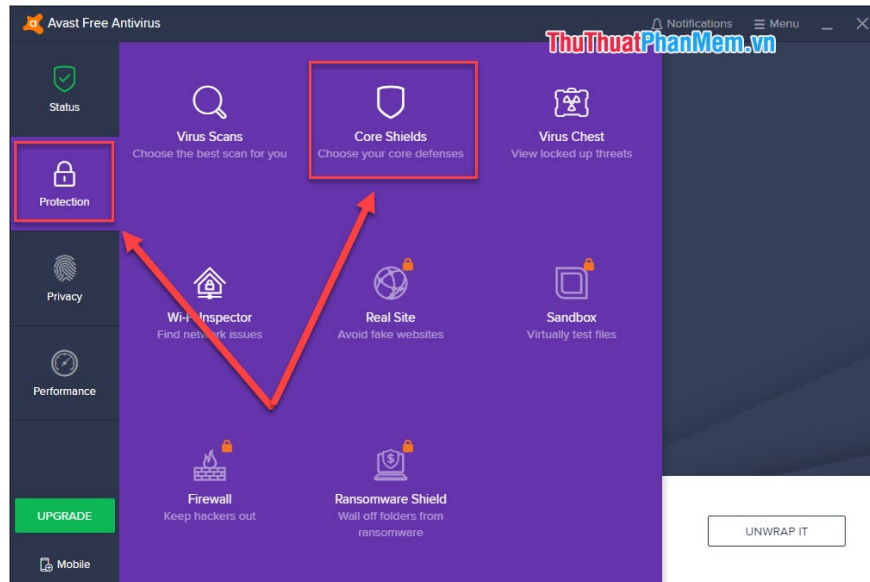

To turn it back on, follow the **steps** above and select **Enable all shields** .

## 2. How to turn off notifications inside Avast application

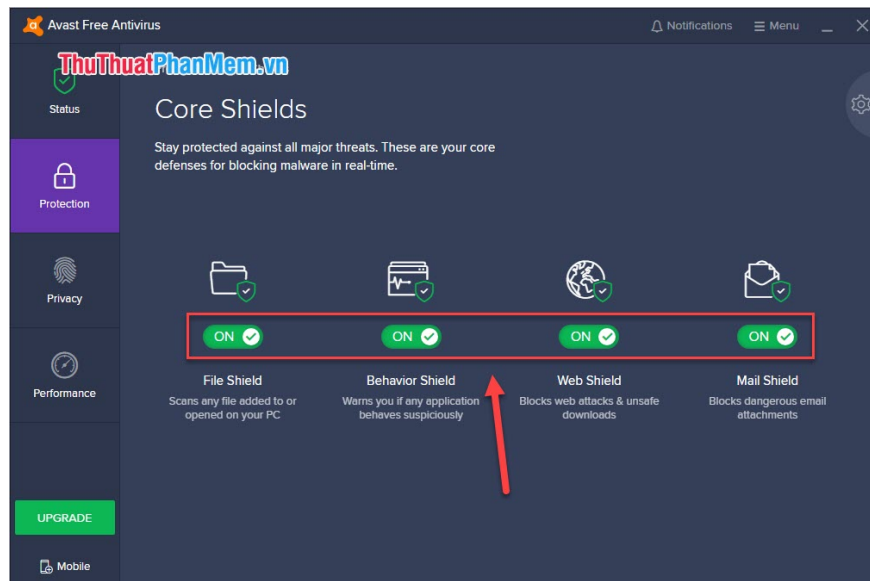

This way you can fine-tune four different computer protection options depending on your needs.

**Step 1:** You start the Avast application and select **Protection -> Core Shields**.

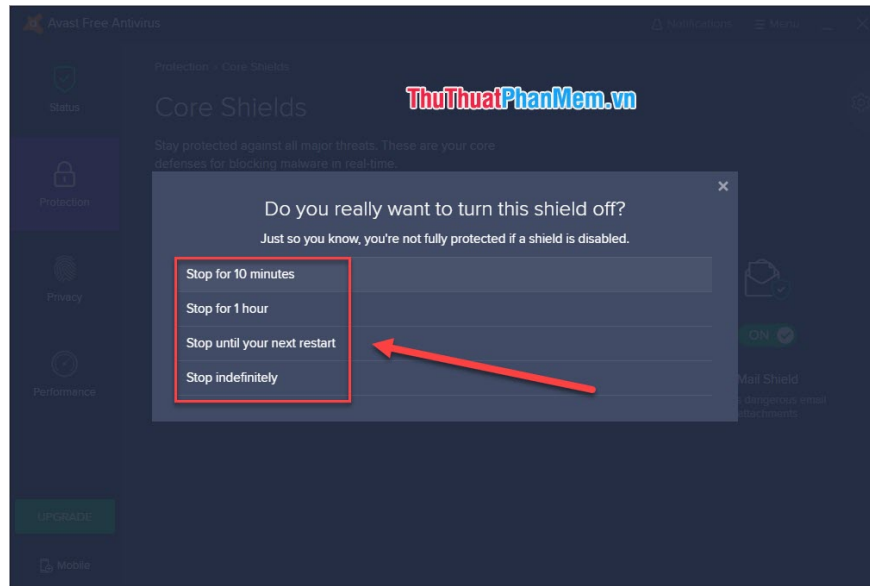

**Step 2:** Then there will be 4 separate choices for you including:

1. **File Shield:** Scans data when added to the computer
2. **Behavior Shield:** Warning if any suspicious application has a malicious Virus
3. **Web Shield:** Block malicious websites
4. **Mail Shield:** Block Malicious Email

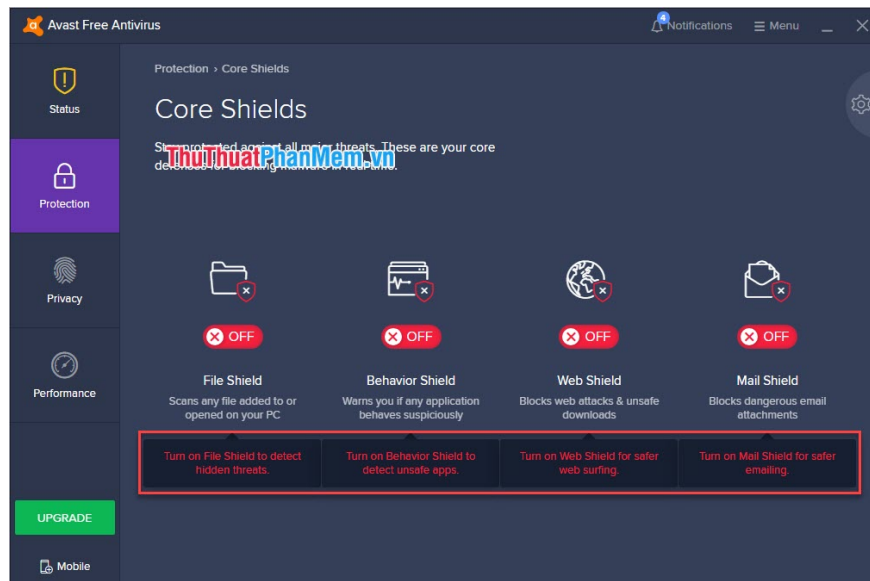

**Step 3:** Click on the blue **On** icon to turn them off. Each time you turn off, there are notifications asking how long you want to turn them off:

1. **Stop for 10 minutes:** Disable 10 minutes
2. **Stop for 1 hour:** Disable 1 hour
3. **Stop until computer is restarted:** Disable **until the computer** restarts
4. **Stop Indefinitely:** Disable permanently

**Step 4:** After turning off, the system will appear red warning. To turn on the notifications you just press the red **OFF** button .

Thus, Software Tips have shown you how to turn off notifications of Avast temporarily or permanently. Good luck!
