Instructions on linking Facebook with Twitter

Method 1: Link your Twitter account to Facebook

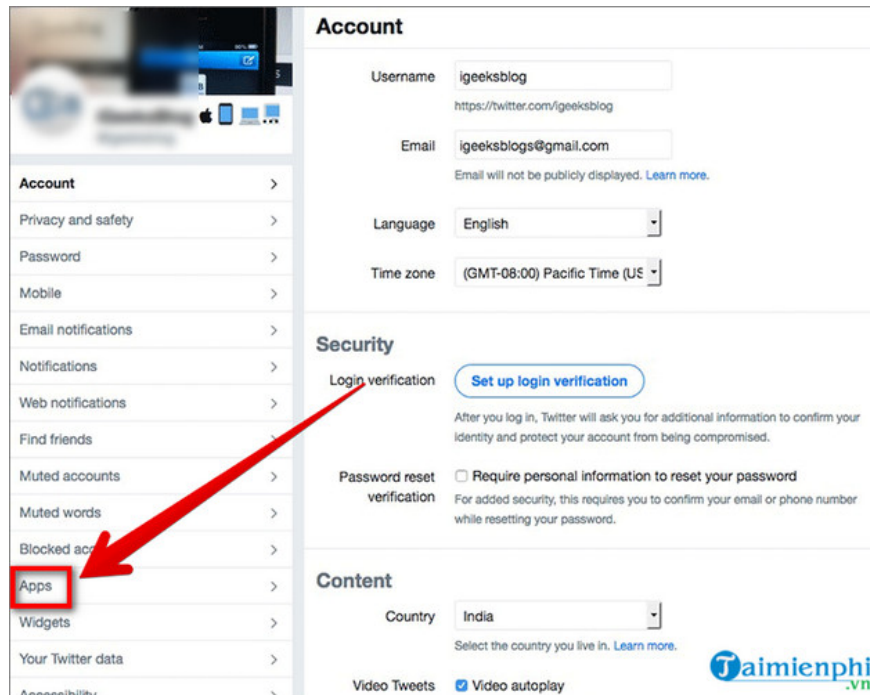

Step 1 : Open your browser on your computer and go to **twitter.com** .

Step 2 : Log in to the Twitter account you want to link to Facebook.

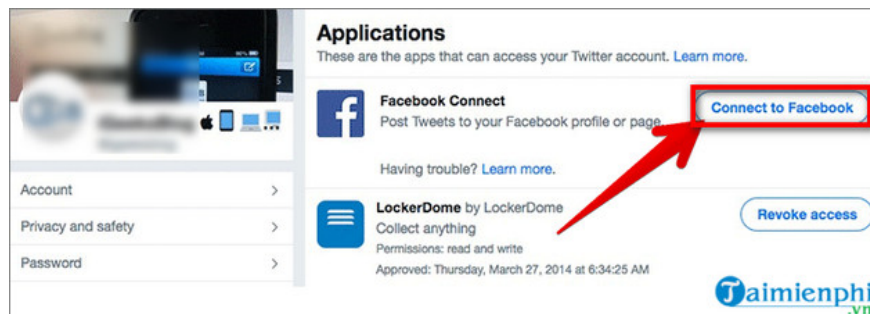

Step 3 : Click on your profile picture, then select " **Settings and privacy**".

Step 4: Next, click on **the Apps tab** located in the upper left corner of the screen.

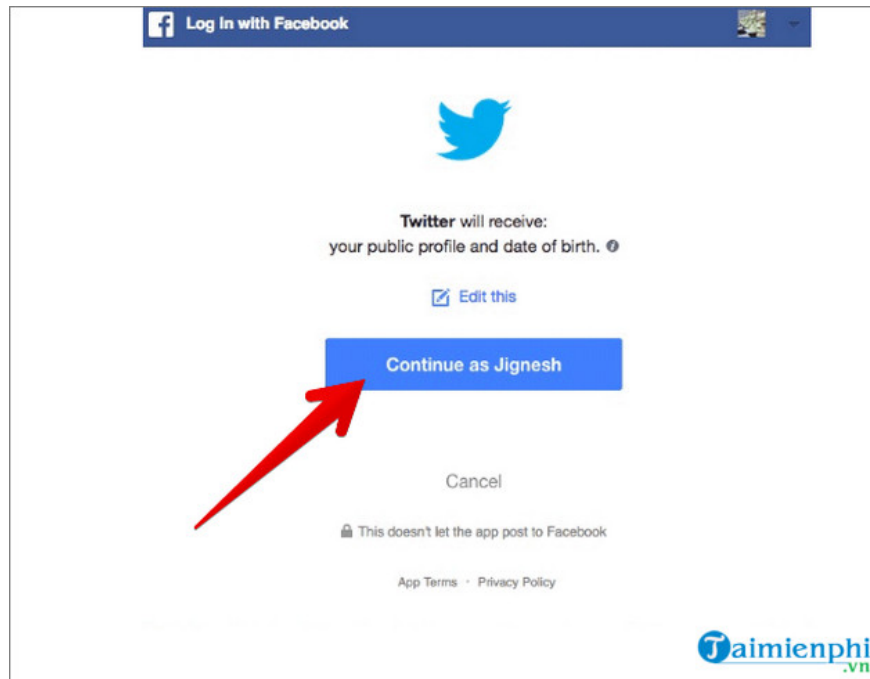

Step 5: Click on **Connect to Facebook** .

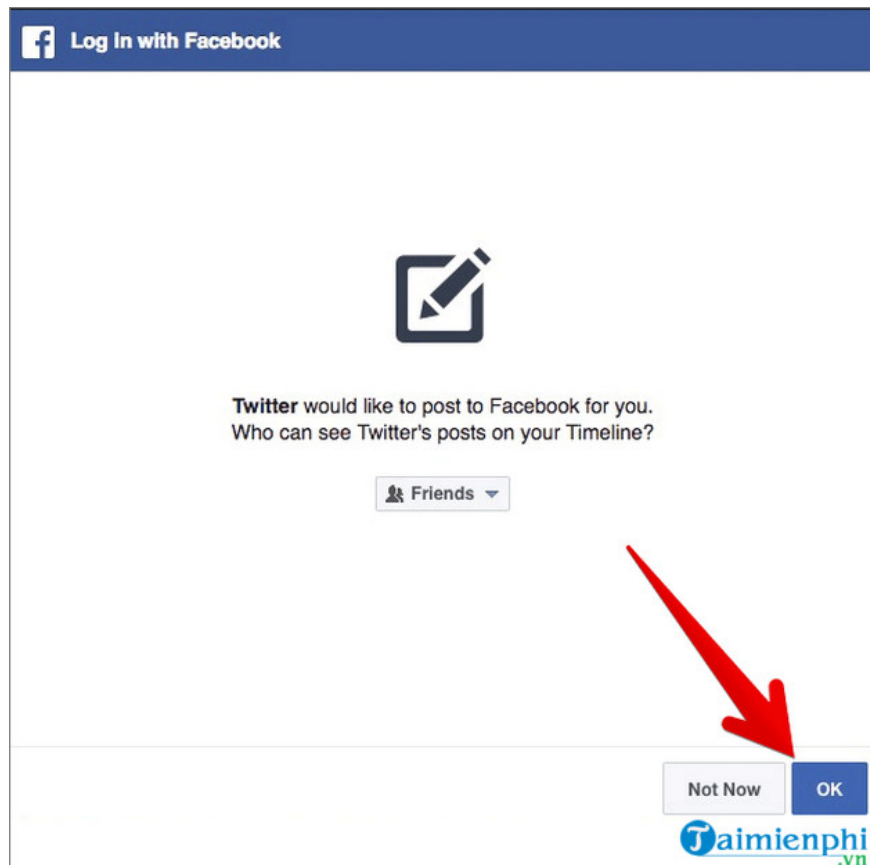

At this point, you will be asked to log in to Facebook (if you are not already logged in). Enter your login information and click the " **Sign in** " button.

A new popup window will appear, notifying you that Twitter will access some information from your Facebook account. Click " **Continue as** (your account name)" to proceed.

Step 6: Set privacy settings for who can see your posts/tweets on your Facebook wall.

By default, this option is set to " **Friends** ". After selecting who will view the post, press " **OK** " to complete the process.

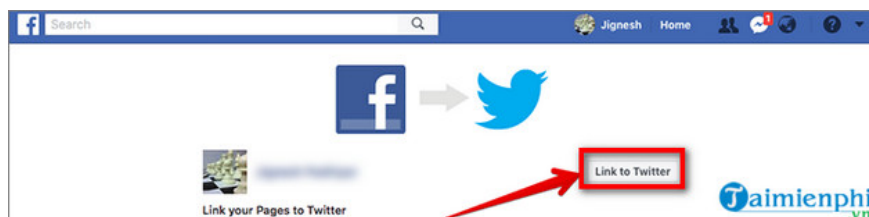

From now on, tweets and retweets you post on Twitter will be displayed on your Facebook wall, along with your username. However, comments and replies will not be shown.
