

Instructions to block Zalo friends to avoid being bothered

Zalo helps you connect quickly with friends. However, constantly receiving friend requests from strangers can be annoying. Let's learn with TipsMake how to block Zalo friends to better control your friend list.

Being found by strangers on Zalo by phone number can be annoying. Luckily, you can block this feature to protect your privacy. Here's how to do it for Android and iPhone phones.

Benefits of blocking friends on Zalo

- Control your friends list.
- Reduce spam and advertising messages.
- Protect privacy.

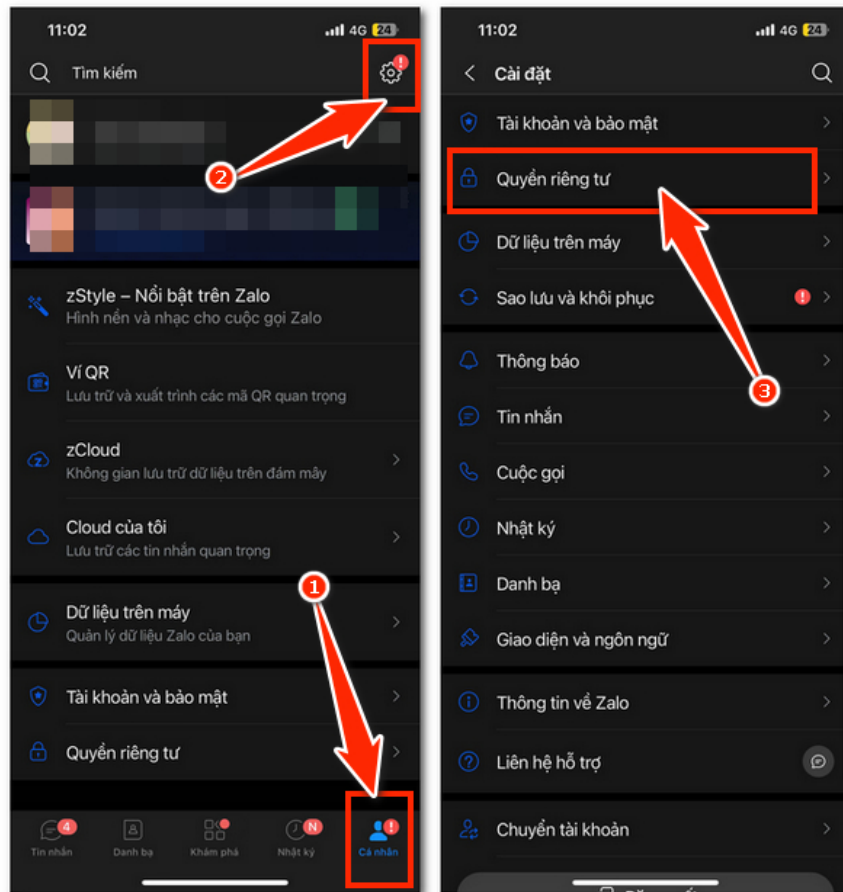

How to block friends on Zalo

Step 1: Access account settings

- Open the Zalo app and tap on **Personal** in the bottom corner of the screen.
- Select **the gear icon** in the top right corner to go to **Settings** .

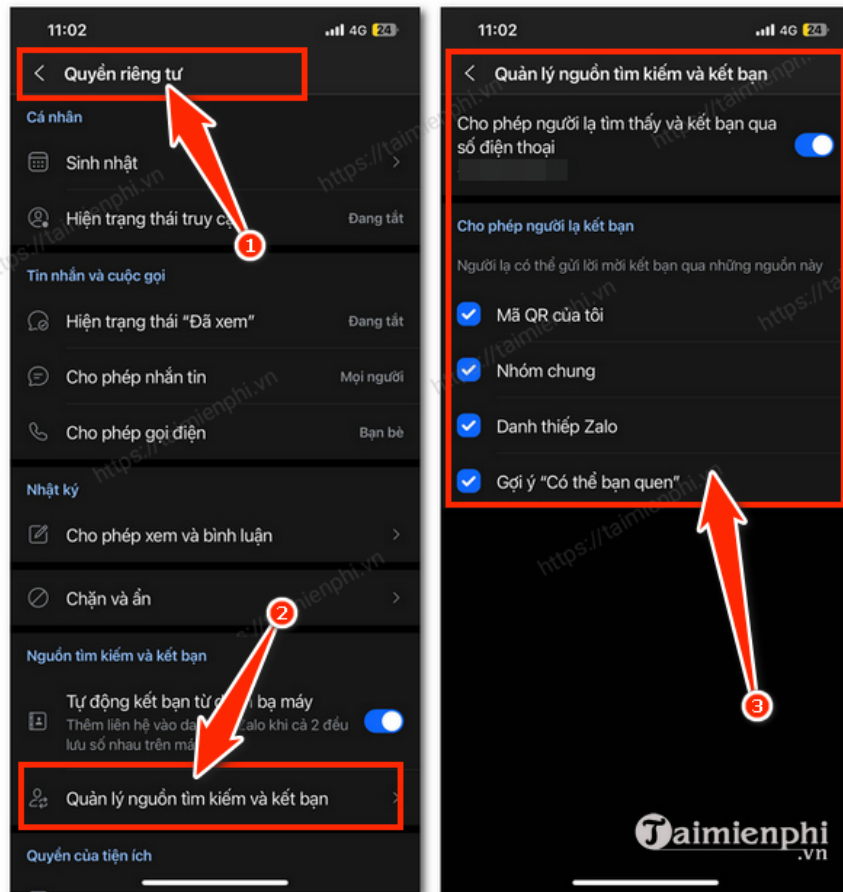

Step 2: Open privacy settings

- **In the Settings** interface , select **Privacy** .

Step 3: Block searches by phone number

- Tap **Manage search and friend sources** .
- Turn off the option **Allow strangers to find and make friends by phone number** .

After setting up blocking friends and messages from strangers on Zalo, you will have a more comfortable user experience without being bothered by unwanted invitations.

Similarly, on other social media platforms like Facebook, the situation of rampant friending and negative comments on personal pages is also quite common. To better protect your account, you can refer to how to block Facebook friends and adjust your privacy accordingly.
