

# Instructions to build the lineup of Shadow of Fire Arena Truth 2 season

With the way to build the Shadow of Fire Arena roster in here, you can help your squad to go in many different directions and rotate the squad flexibly.

Kindred is currently a strong main carry and can be combined with many different squads and they are all strong teams in the Arena of Truth season 2.

One of the easiest builds to build is Shadow Fire, which is storming the current meta game and Kindred will be the main dame to put single damage. If you want to build the DTCL Fire Shadow squad, please see the instructions below.

## Instructions for building the lineup of Shadow Fire Arena of Truth

### Major General

1. Varus
2. Malzahar
3. Kindred
4. Annie
5. Sion
6. Yorick

And here are some additional hero combos if you want to add other champions when level 8

1. **Additional combo 1:** Amumu + Singed (Ruin of Hell)
2. **Additional combo 2:** Nautilus + Thresh / Nami (add Tanker + Water buff)

3. **Additional combo 3:** Lucian + Senna (add dame + Soul)
4. **Additional combo 4:** Nami + Master Yi / Soraka (magic team magic resistance)

Total buffs in the directions above you will have 3 Fire, 3 Summon, 3 Shadows + 2 Water / 2 Souls / 2 Mysteries. The appropriate elemental box will be Water + Fire / Earth.

## Early game

Because this squad takes Fire, Darkness, and Gunner as a base, you can easily start with 1-fire fire generals like Zyra / Diana and have any additional Malzahar + 2 Guardians to deal with The other teams are in the early game. If you have the Devil Letter Morello early, give it to Malzahar or Zyra.

Or you can choose 3 Fire by choosing Diana + Zyra and Varus with 2 Guardians if you want, but the dame will be a bit weak because the fire damage of the early game is not very strong.

## Mid game

This is when you have to find Kindred, prioritize her pick in to get 2 Gunners, can let Diana off the field. Remember to prioritize building things for Kindred and if so, let her take them.

When Sion has been picked for 2 stars, you can send Varus out to get 3 Shadows. (Kindred + Sion + Malzahar) + 2 Guardians (probably Nautilus and Thresh) are temporary tankers. You can raise Senna and replace Malzahar if the team is a bit tired and go find the remaining generals to complete the team.

## The end of the match

Now if you already have 6 major champions like the above team, you already have enough buffs. However, the current squad will lack a tanker, so the task of resisting both Sion. You can add a temporary tanker like Malphite, luckily, get Amumu to control.

Prioritizing Kindred to raise 3 stars, if you are lucky, give Varus + Malzahar 3 stars, the team will be very strong. Depending on what you get, add an extra combo like the one above. But prioritize the tanker against because Sion can not stand long and Yorick also need enough time to call filed.

Required equipment:

1. **Kindred:** Angels Scepter, Angel Armor, Rabadon Witch Hat
2. **Sion:** Warmog Armor / Trap Claws
3. **Varus:** Rageblade
4. **Malzahar:** Devil Letter Morello, Loving Shojin
5. **Lucian (if applicable):** Giant Removal x2, Angel Armor
6. **Senna (if any):** Devil Mail, Angel Armor
