## The most effective way to build a Strong Beast DTCL Season 2 squad

### Early game

The important point of the Malicious Beast squad is that you need to use the Hyper Roll strategy. And you need to get 2 stars for your champion at the beginning of the game as soon as possible, another important thing is that you need to manage your gold, do not buy redundant generals and not related to the final squad. even when they appear while they're rolling.

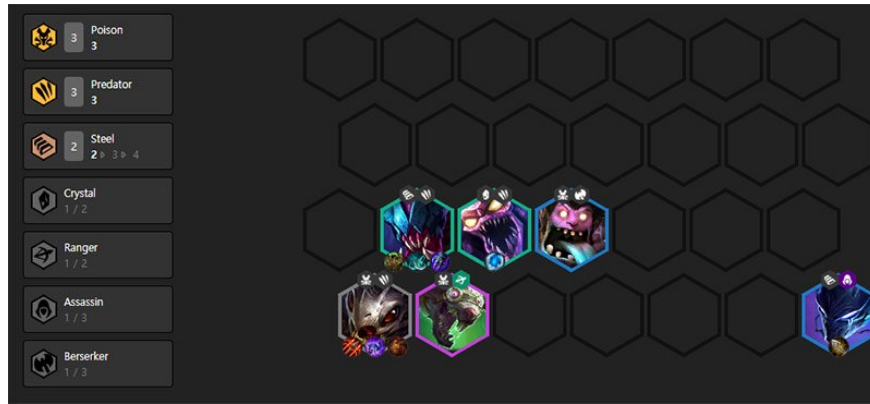

You can buy champions like in the picture, if you have Skarner, instead of Warwick. And if Nocturne is not found at the top, all 4 Beasts can be put on the floor. How to get to the Stone Man round, you have saved over 40 gold to be able to roll champions.

Your experience points if not used to buy gold, then after the end of the Krugs round will be level 4 with 8/10 experience points. At this time, you should use the money to spin the strong beasts on the field to get 2 stars for all, if you are lucky, you should roll so there are 2 3-strong Beasts standing on the field.

## Mid-Battle

When starting to level 5, then you have to accumulate yourself 50 gold because now you also have 3 star generals or at least 2 stars. If you do not have 3 star generals, then you should not rush to upgrade because while building a savings fund, you can still upload stars slowly. That's in case you only have 1-2 champions missing.

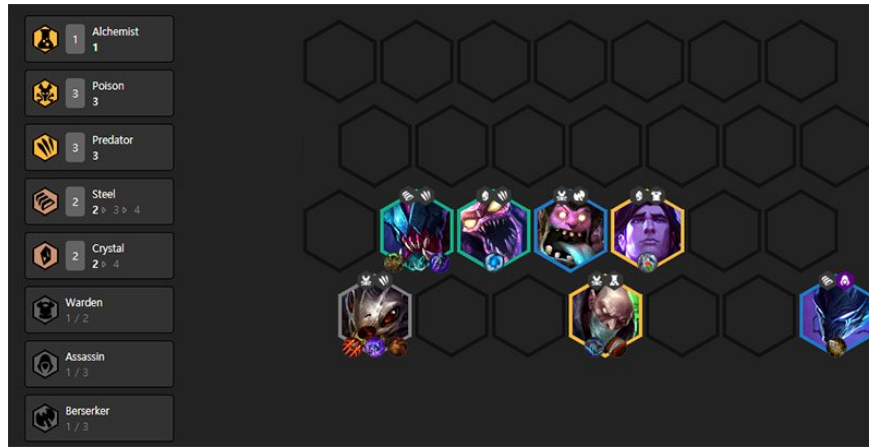

If you have enough or more than 50 gold, you can find Twitch, and up to level 6 to have a Poison counter buff to mage teams. This stage, 6 generals Slot is enough for a squad that already has 3 star generals and full 2 ??star generals.

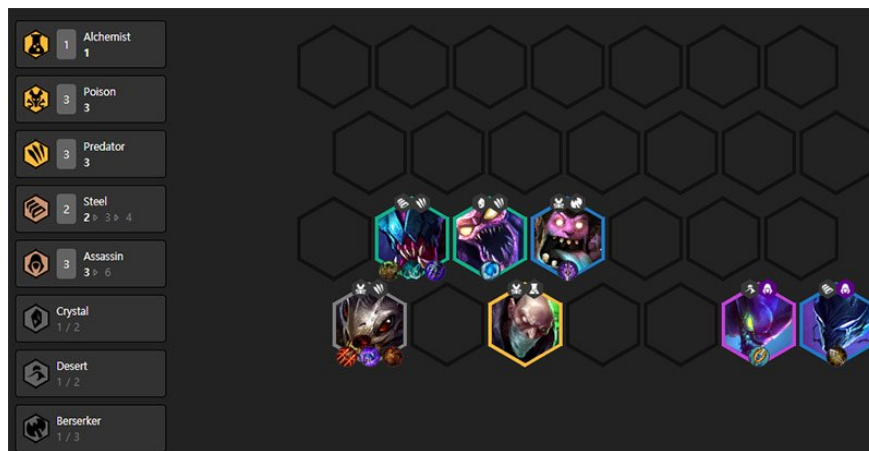

If there is Infinity Sword for Nocturne, it is too good, Strong Beast + Poison buff + Poison damage from Nocturne will make the paper blood teams die extremely fast. Continue saving money until you reach level 7 after finishing the Wolf fight. Try to up the remaining champions to 3 stars, at the same time try to find Singed and Taric.

**Endgame**

With powerful forces and good counter-effect buffs, you are just wondering whether you should upgrade to level 8 or not. If you decide to upgrade to level 8, you need to have Taric and Singed in the current level 7 squad.

Level 8, if lucky you will have Lux Steel to have buff 3 Steel very good damage. Or drag Kha'Zix to the team to increase the damage if you get Ma Youmuu Sword in the market, so you will have Assassin buff + Beast buff + Poison + Jade buff + Steel buff, it will be difficult Is there any team that can stop your roster now.

The above is a guide to the Roster of Poisonous Beasts DTCL 9.23, this must be said to be a very effective squad that can overcome many enemy squads in this version. How to build a squad, guide items already on, it all depends only on your dignity.
