### Hero and Wild-type equipment

1. **Akali:** With the Ninja buff, she's back and much stronger than before. Especially when paired with Wild + Assassin. Just Ma Song Song Sword + Infinity Sword + Dragon Claw.
2. **Nidalee:** Quite strong at the beginning of the game and suited to team up with Warwick, without any equipment and not even 3 stars if you can't find enough champions.
3. **Warwick:** Making a temporary tank is quite good and can be paired with Gladiators as another temporary tank for the team. There is no need for equipment and if you can get 3 stars then you can go up, otherwise

it is okay.

4. **Jayce:** A strong Transfiguration with the ability to make a temporary tank and also a Hextech general quite suitable to pair with the squad without equipment unless climbing 3 stars.
5. **Rengar:** Team up well with Akali if there are some items like Angel Armor + Blood Sword + Infinity Sword.
6. **Pyke:** Good role in the stun control with Tim Bang equipment and can apply the control effect to the entire enemy team.
7. **Gnar:** Being nerfed but Gnar is still a pretty strong choice among the golden faces today with this meta.
8. **Vi:** The last champion to get Technology buff and increase the tank buff, especially stronger for Wild and may not need items.
9. **Last slot:** Blitzcrank - Possessing a very strong skill after buff, can break the enemy team formation but still can make a good temporary tank.

The total squad buffs that you have will be: 4 Wild, 3 Transfiguration, 2 Technologies, 2 Gladiators, 1 Robot.

## Priority equipment for the Wild team

You should prioritize these equipment over the remaining equipment in the following order:

Sword BF > Practice Gloves / Wooden Bow / Silver Cloak / Goddess Tears > Blood Belt / Spear Wand / Gold Shovel.

The equipment entrance above is strange but they will match your Wild squad more than other equipment build methods. If any of the above items, please prioritize pairing according to the list below:

1. **Blood Belt:** Devil's Letter Morello> Redemption Chain> Wind Sword.
2. **Sword BF:** Infinity Sword> Blood Sword / Angel Armor> Hextech Gun Sword.
3. **Wooden Bow:** Double Sword Dance> Guinsoo's Rage> Cannons from Lien Thanh.
4. **Fighting Gloves:** Infinity Sword> Thief Gloves> Justice Gloves.
5. **Gold Shovel:** Natural Armor
6. **Goddess Tears:** Heart Ice> Silent Knife
7. **Armor:** Armor Angel> Ghost Dance Dual Sword> Heart of Ice

## The preferred position of the 4 Wild Squad

## Which generals can replace

1. Gnar can be replaced for Ahri at the beginning of the game
2. Can replace Zed for Akali at the beginning of the game.
3. Shyvana can replace Jayce and follow the Dragon formation with Pantheon

4. Swain can replace Jayce and put Katarina in Pyke's place. You can add Evelynn instead of Vi at level 8 to get the Devil team.

## Some notes when building squad 4 Wild

1. The advantage of this squad is the cheap price but easy to build. Especially when there are 4 Wild, the auto will be strong immediately. And easy to build because in part because no one followed this team much.
2. Note keeping money and doing good economy to hurry up the end of the game and find good generals.
3. If you get 2 Zed 2 stars or 1 Zed 3 stars will be stronger than Akali 2 stars.
4. It is possible for the team carries the Bandit Gloves to add equipment immediately (Rengar, Gnar, Akali).

It is not too difficult to build the Wild 4 squad as instructed in this article, mainly based on how you build enough items for the team and do good economy so quickly at the end of the game and choose the generals. tasty.
