

Instructions to buy and sell Bitcoin on Remitano floor

Remitano is one of the most popular and popular Bitcoin exchanges in Vietnam. So how to conduct purchases and sales on Remitano?

In the article Top quality Bitcoin trading floors that Network Administrator introduced to readers, Remitano is one of the trading floors in Vietnam that many people choose and trust to use.

Remitano is a reputable and safe trading floor present in many countries around the world such as the US, China, Malaysia, . including Vietnam. When participating in the Remitano platform, users will enjoy some benefits such as absolutely executed transactions, reasonable price differences between the purchase price and the selling price. Transaction costs are also about 0.5% lower than some Bitcoin brokers.

Remitano will only make payment with Vietcombank account at the moment. Remitano floors will be suitable for investors who want to be more selective than Bitcoin sellers and buyers.

The following article will guide you how to buy and sell Bitcoin on the Remitano trading platform.

1. Today's Bitcoin price, Bitcoin price update every minute
2. Guide to digging Bitcoin for beginners
3. 6 best Bitcoin digging software for Windows, Mac, Linux

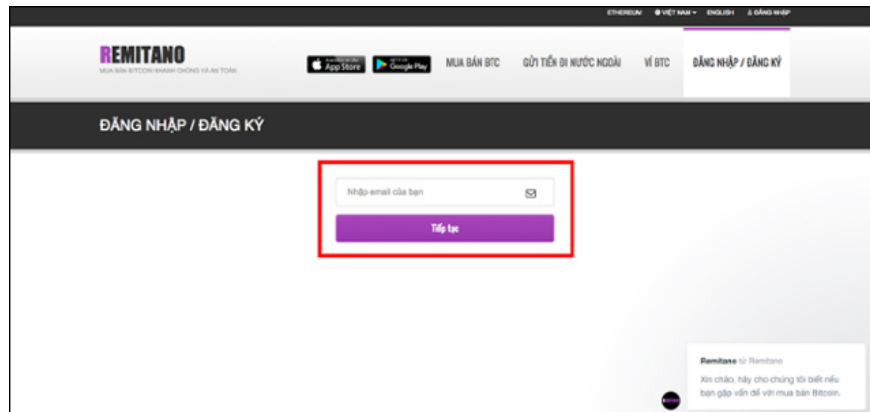

1. Create an account on Remitano floor:

In order for Bitcoin trading to be convenient, users need to create a Remitano account.

Step 1:

We access the link below and then **enter the email address to** register for the account and click Continue.

1. <https://remitano.com/vn/login>

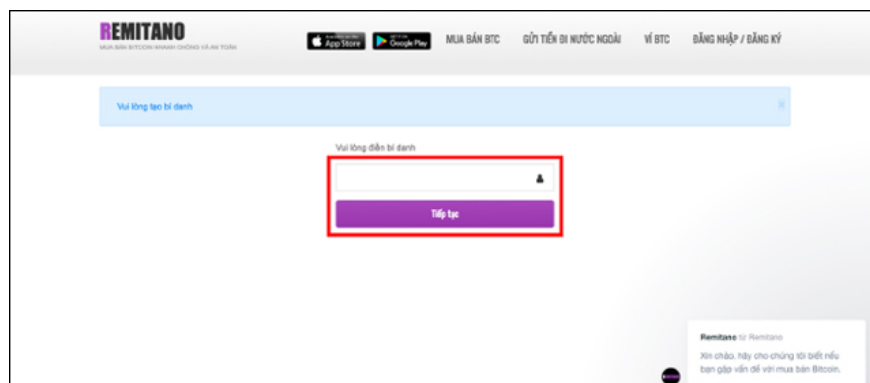

Step 2:

The user will receive a confirmation email and activate the account to the email address we entered earlier. In the email content click **Login me to Remiato** .

Step 3:

Returning to the transaction on Remitano, enter the account name without the space and then click **Continue** .

Step 4:

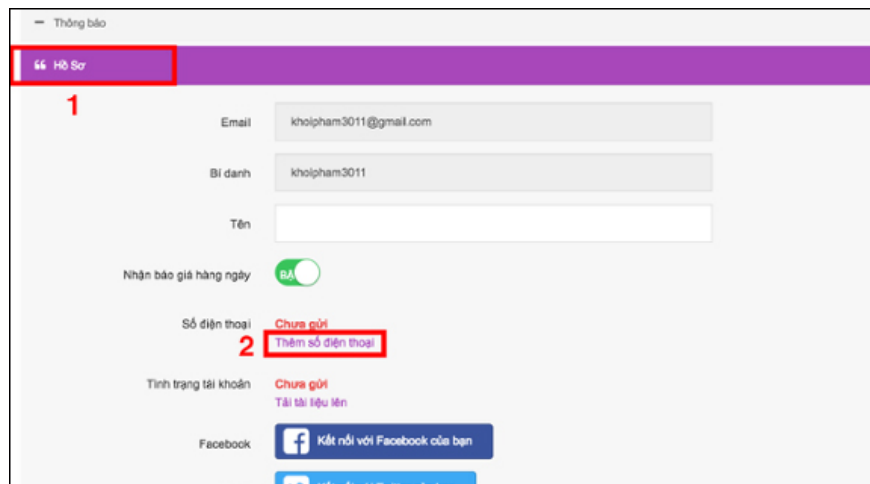

Next, users need to verify the Remitano account again to ensure more transactions, avoid unauthorized access to the account. We will need to conduct verification by phone number and verify account status.

In the interface of Remitano, click on **Settings** above.

Step 5:

Then proceed to select **Profile** then click on **Add phone number** below.

You need to select the correct area code which is +84 and the phone number you are using then **click Continue** below.

Step 7:

Next to verify the account, Remitano will ask the user to **send 4 pictures** with good quality, clarity, not edit content.

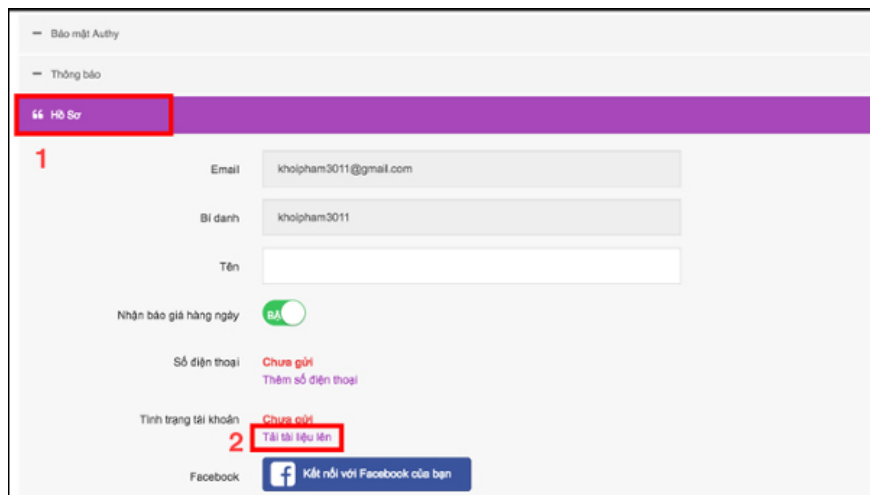

First you need to **capture 2 sides of ID card**, take **photo ID card with your real face**, take **the front of the ID card on the paper with clear Remitano Verification words** to identify Remitano trading floor.

Finally, take a driver's license, household registration card or any other personal document that is not an ID card. This is treated as secondary data to verify account status.

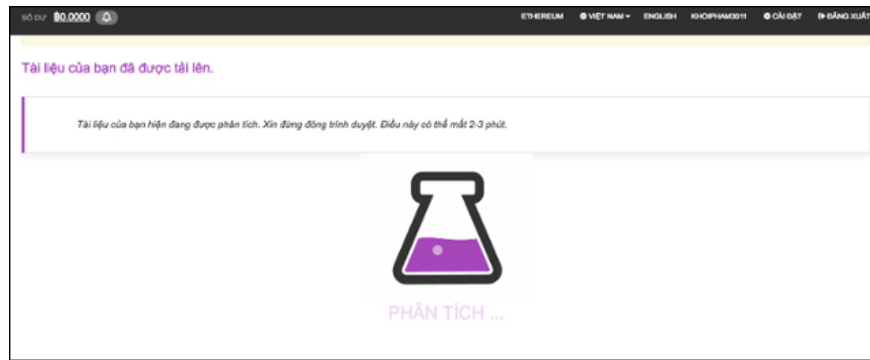

Step 8:

Continue to click on **the Settings section** on the interface and then select **the Profile item**, then choose to **Download the document**.

Then download all the photos you took earlier to Remitano for confirmation. The order of posting photos will be in the order on the required Remitano interface.

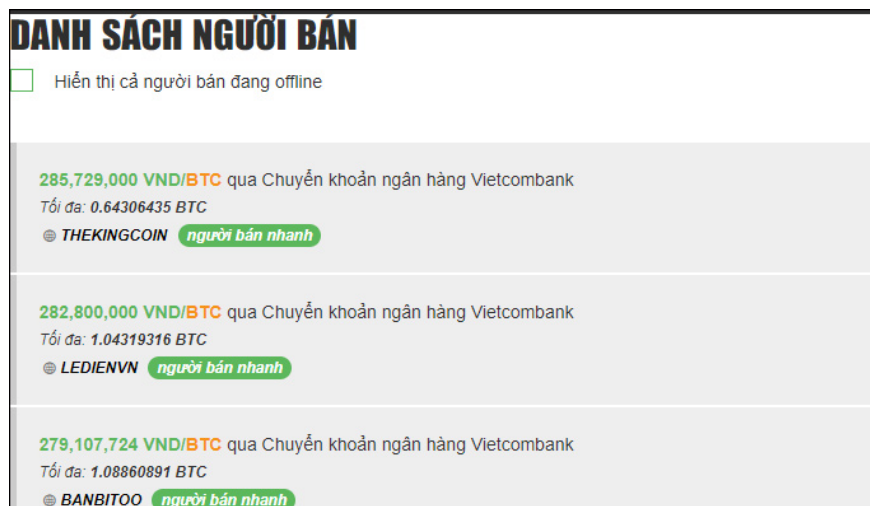

When the image is fully posted, it takes 10-15 minutes for the Remitano trading floor to verify.

2. Instructions to buy Bitcoin on Remitano:

Step 1:

In Remitano's interface, we randomly select virtual currency sales.

Step 2:

Enter your **purchase number and BTC address**. Below will be information about who will sell Bitcoin to you. Click on the name to view details. Below the Limit amount will be the minimum and maximum number of BTC we can buy from this person.

Click **Buy BTC** to conduct the transaction.

In the process of transferring money and confirming payment if it is more than 15 minutes, you must repeat it from the beginning. If you do not press the payment confirmation button, the buyer will lose the money for the seller if they do not return it. The Remitano trading platform will not solve this problem.

If after 15 minutes the transaction has not been confirmed even if you have paid, click on the Dispute transaction button for Remitano staff to solve for you.

3. How to sell Bitcoin on Remitano floor:

Step 1:

In the **List of Bitcoin buyers** we can randomly select someone. The reordering table will be in the order of the highest value buyers to gradually lower buyers.
