Step 5 : With this universal sequence, the system gives you a lot of results for you to choose. If the above sequence meets your needs, then proceed to change the number. If that number sequence still does not meet the demand, you can also change and keep the same number of old subscribers.

Step 6 : In case if you like a certain number, but have not made a decision, you can choose to keep the number, the system will keep that number for you in 30 minutes, now no one is selected The number of subscribers you have kept. After the specified time expires, if you agree to continue to change the number of old subscribers, select the number change confirmation.

Step 7 : Finally, after changing the system number will require users to confirm the subscription information to confirm that the subscriber is the owner. With this regular number, when you exchange, you will not be charged.
