

# Instructions to create Windows 7, 8, 10 installer from USB

Many computers now omit the CD / DVD drive as an alternative to installing the operating system via USB. The following article details how to create the Windows 7, 8, 10 installer on USB.

Many computers now omit the CD / DVD drive as an alternative to installing the operating system via USB. The following article details how to create the Windows 7, 8, 10 installer on USB.

Here the way to create the Windows 7, 8 or 10 installer on USB is the same.

## Prepare:

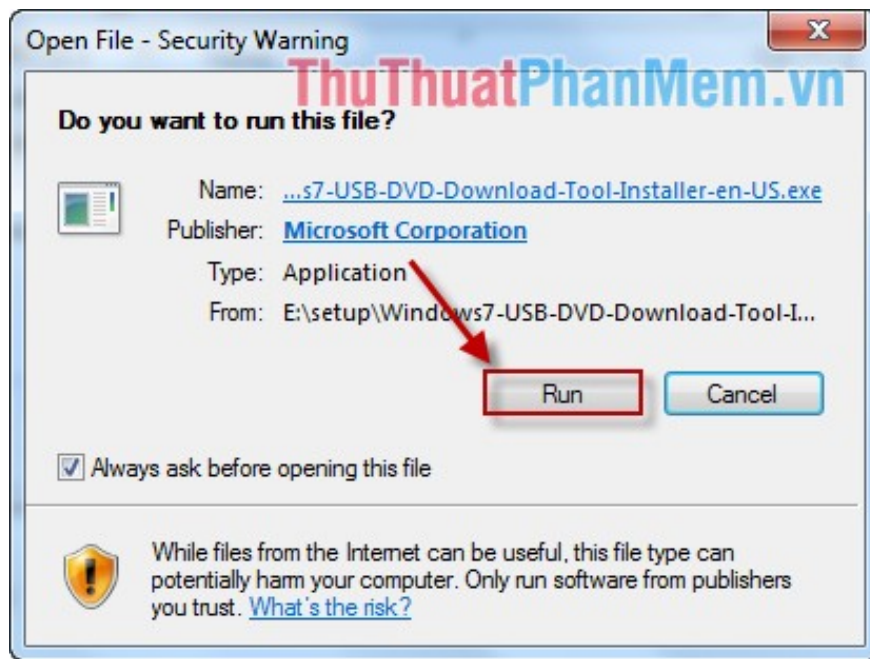

1. A USB capacity of 4GB or more, Windows 8 or 10 alone uses 8GB or more.
2. The Windows version you want to create the installer on (must have the .iso file format).

## Steps to follow:

### 1. Install Win 7 USB Download Tool

**Step 1:** Go to <http://wudt.codeplex.com/downloads/get/96313> and download the **Windows 7 USB Download Tool** to your computer.

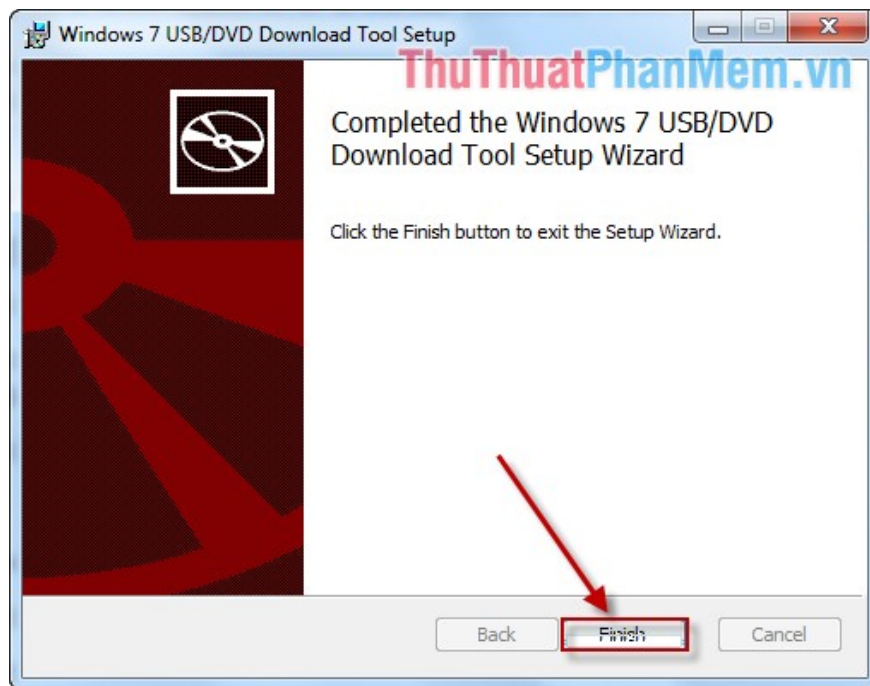

**Step 2:** After downloading, click **Open** -> **Run** .

**Step 3:** Click **Next** -> **Install** .

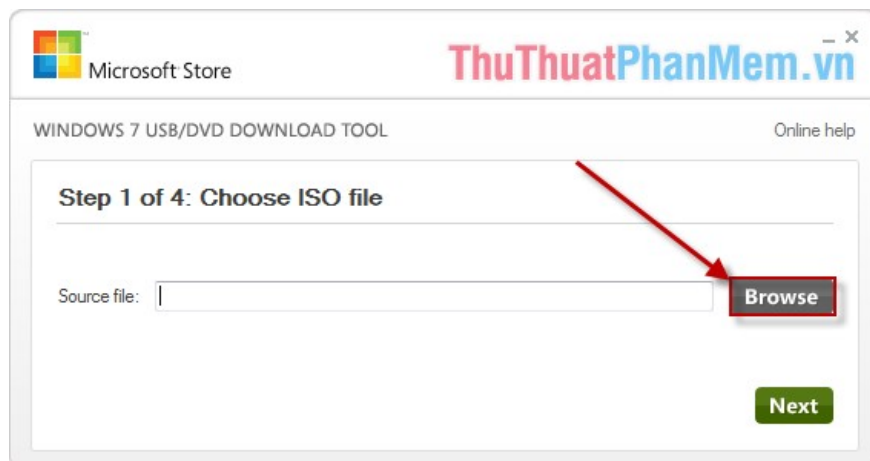

**Step 4:** Select **Finish** to end the installation process.

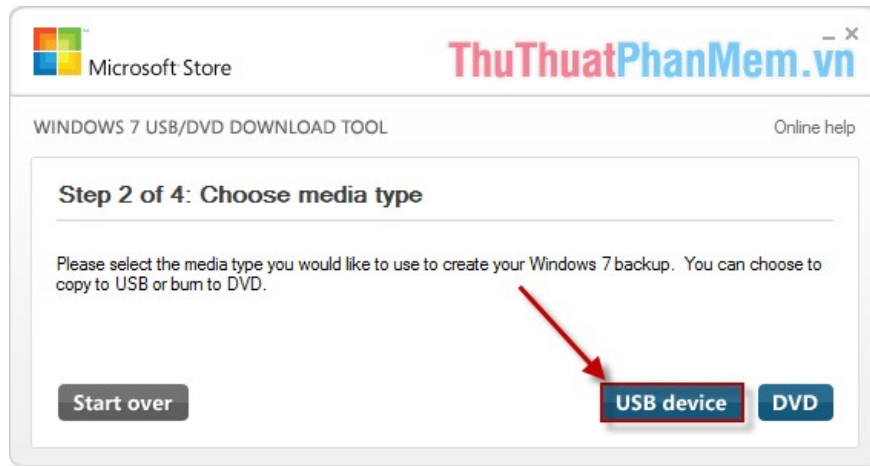

## 2. Create Win installer on USB

**Step 1:** Plug the USB into the computer.

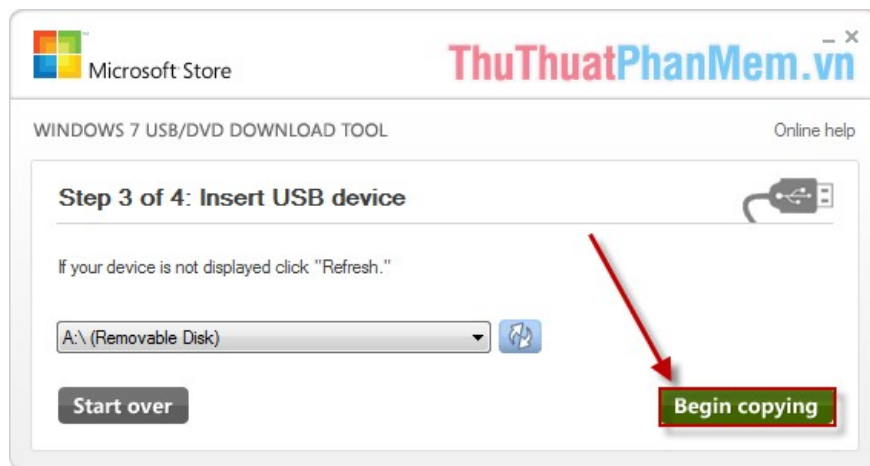

**Step 2:** Open the software **Win 7 USB Download Tool** -> Select **Browse** to find the path to the iso file containing the operating system to create (you can choose Win 7, 8 or 10).

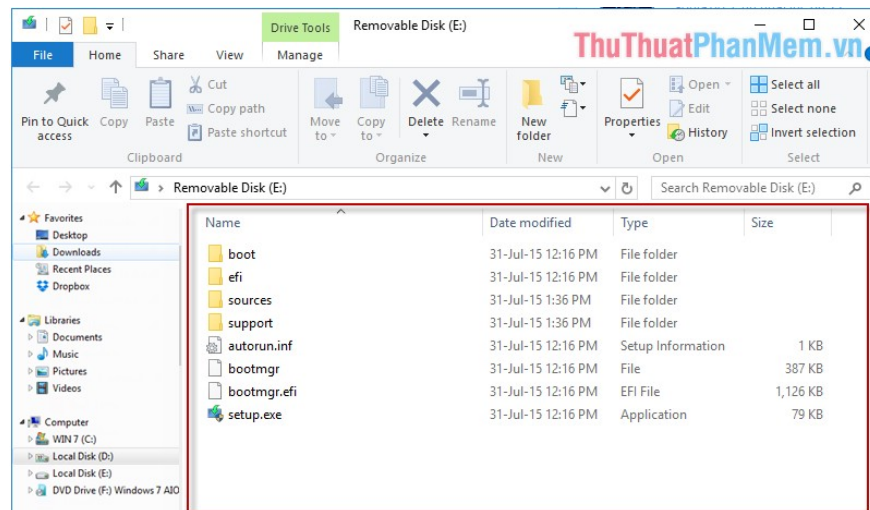

**Step 3:** Click **USB device** to install Win on USB.

**Step 4:** Click **Begin copying** to start copying data.

**Step 5:** Data after being created.

So you have the Win installer on the USB. You just need to go to Boot Menu and select Boot from USB and proceed with the normal installation as if installing from the drive.

Good luck!
