

# Instructions to delete spam automatically on Gmail

If you use mail regularly, it takes a lot of time to delete spam. Recently, Gmail has integrated spam delete feature to help you not to worry about this problem anymore.

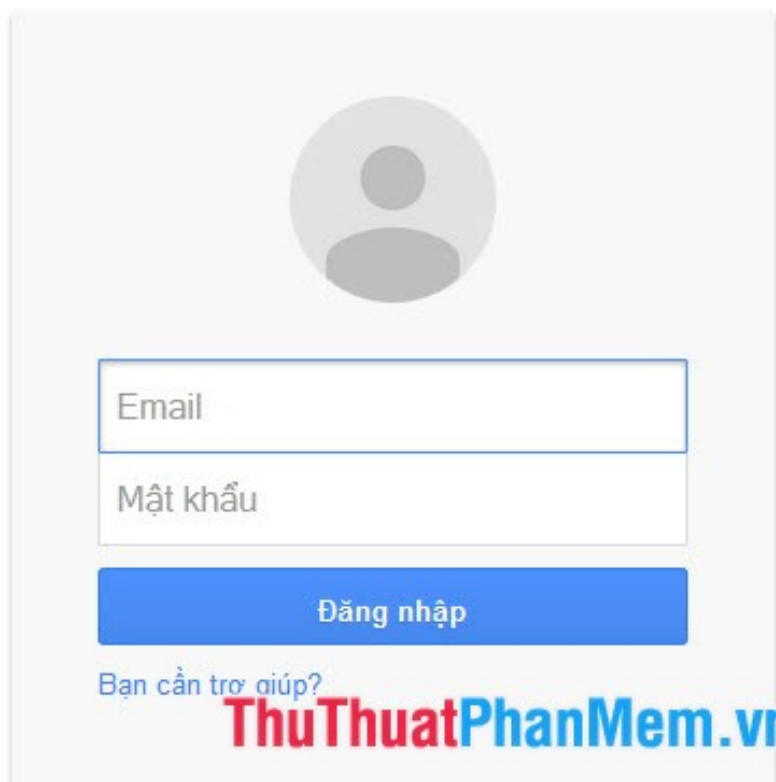

In today's modern life, email is indispensable, it's as important as the phone number you're using, if you're looking for a free mail service, Gmail is right now the best option, albeit a system Spam filtering system is very smart but can not limit 100% of spam, if you use mail regularly, it takes a lot of time to delete spam. Recently, **Gmail** has an automatic spam removal feature that helps you not to worry about this problem anymore.

So how to enable this feature on **Gmail**, please follow the steps below:

**Step 1:** Log in to **Gmail** with your account.

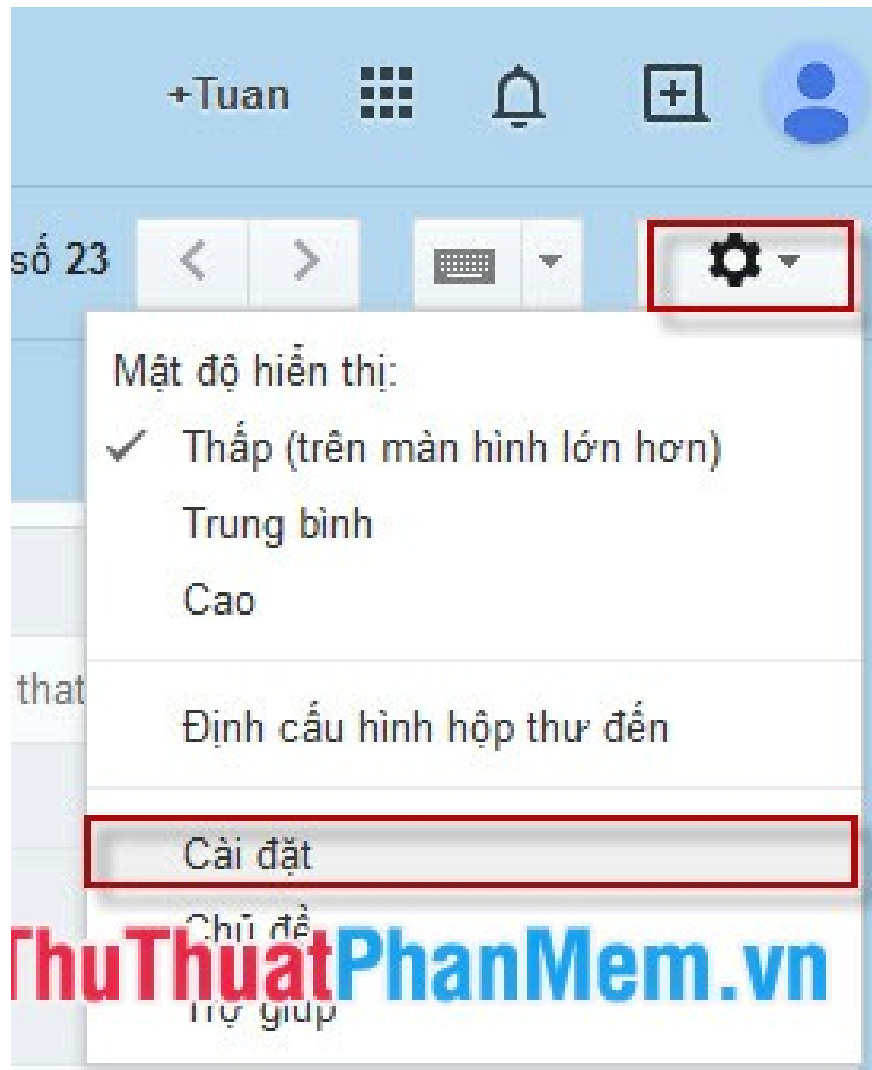

Đăng nhập để thêm tài khoản khác

The image shows a screenshot of the Gmail login interface. At the top, there is a grey circular profile picture placeholder. Below it are two input fields: the first is labeled 'Email' and the second is labeled 'Mật khẩu' (Password). A blue button with the text 'Đăng nhập' (Log in) is positioned below the password field. At the bottom left, there is a link that says 'Bạn cần trợ giúp?' (Need help?). At the bottom center, there is a watermark for 'ThuThuatPhanMem.vn'.

**Step 2:** Click the **Settings** icon on the right of the screen and select **Install** .

**Step 3:** In **Settings** , click **Filter** and then click **Create new filter** .

**Step 4:** Frame Filter appears, enter the *print: spam* in the section **with words** and then click **Create filter with this search** .
