

# Instructions to download the black fire transformer application is causing fever on Facebook

Creating a black face photo with WutaCam application is very interesting.

1. Instructions for using Photofunia application to create funny photos
2. Take a selfie 'flattening ga' with 20 super-selfie photography apps for Android in 2017
3. 5 "must-have" selfie apps on Android phones
4. How to shoot sparkling videos with Kirakira + iPhone application

Recently, on the Facebook network, netizens are sharing a funny video, which is that two boys with black faces look out of the fire. It is because of this that many people are curious and want to find out if this is an application, why is it possible to do something so interesting? To be able to create these belly-shaped wedding photos, please quickly download the Wuta app and go back to your instructions.

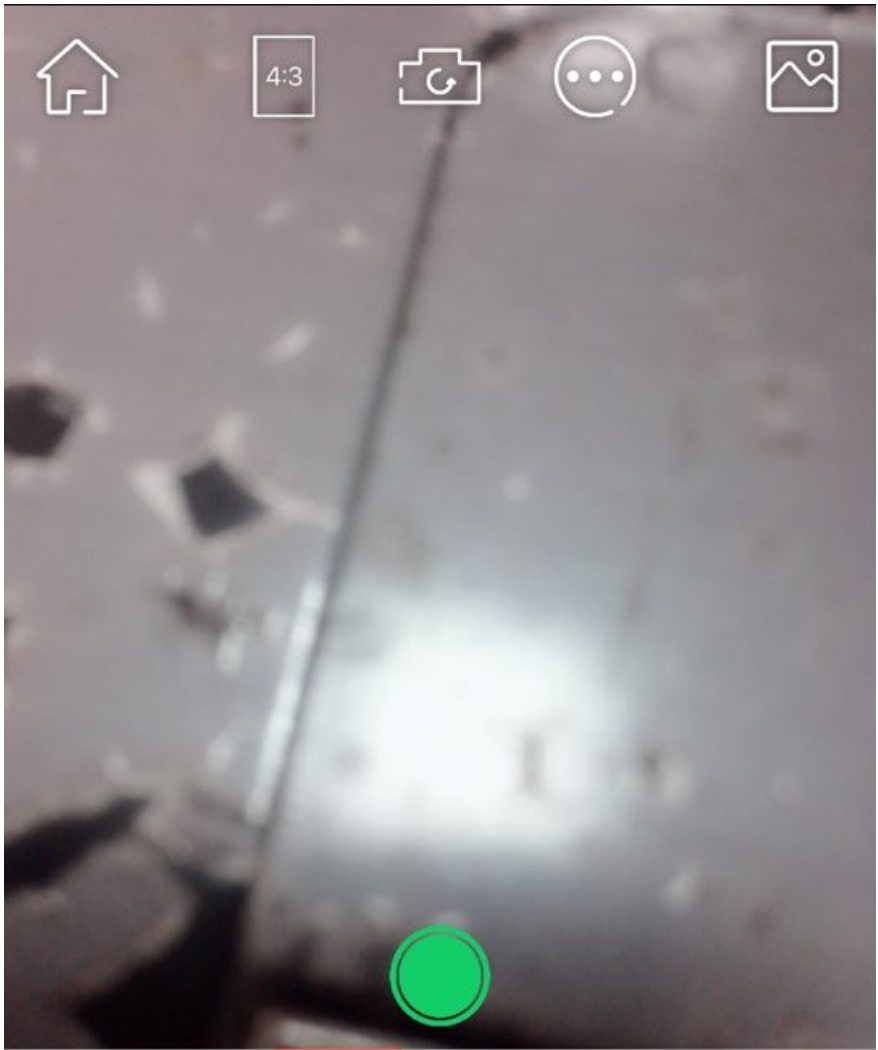

Since this is a Chinese application, you can see the app's name completely in Chinese.

1. Download WutaCam for iOS | Support iOS 8.0 and above | 103MB capacity.
2. Download WutaCam for Android | Support Android 4.4 and above.

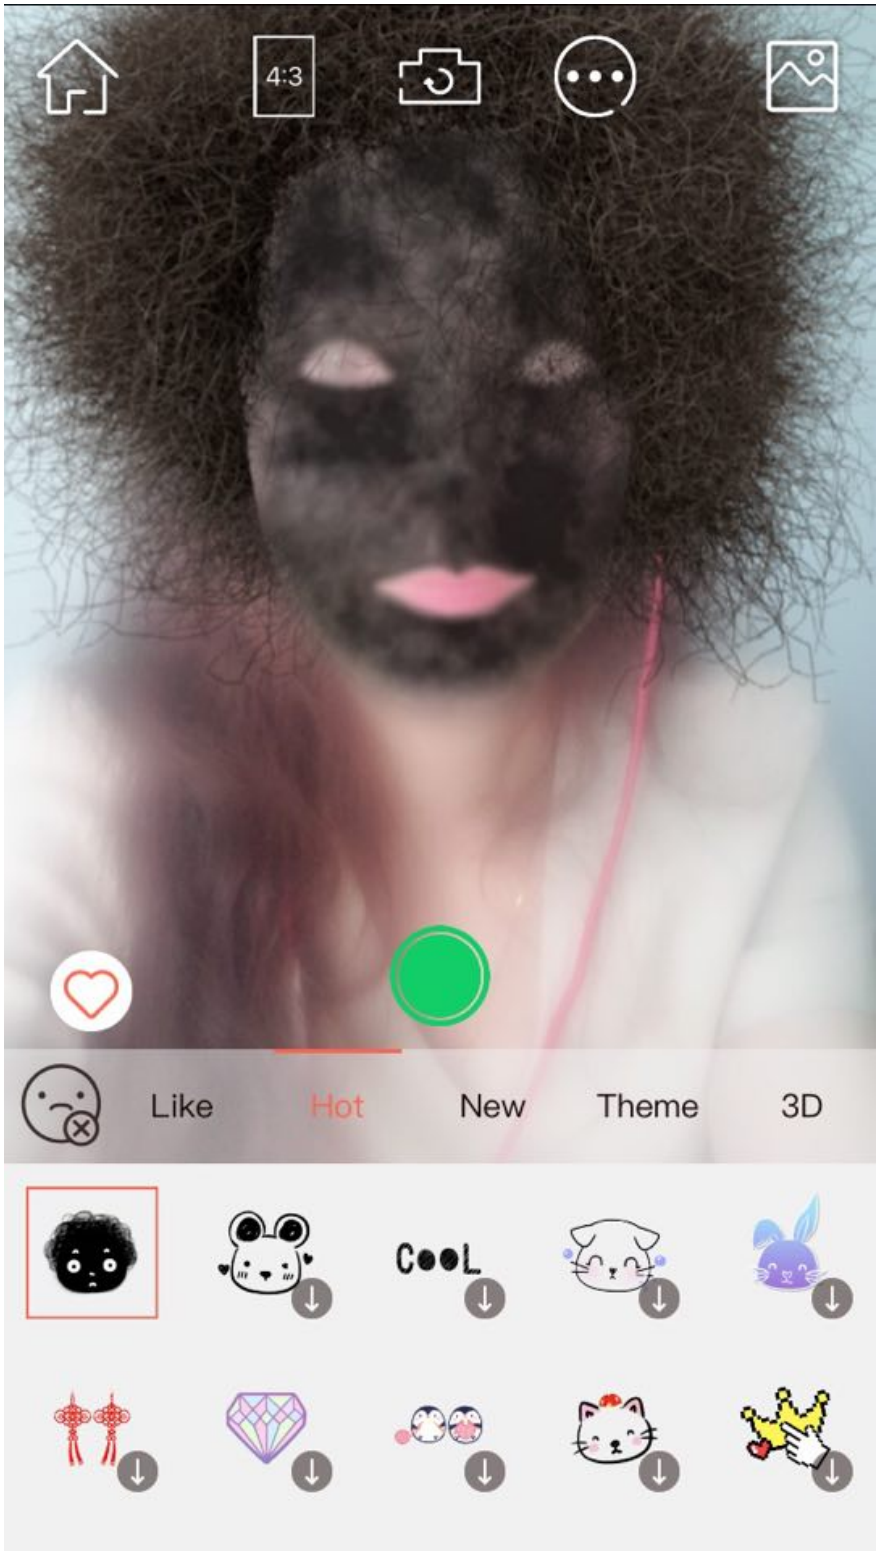

**Note :** Please allow only 3 rights to access the microphone, camera and internal memory.

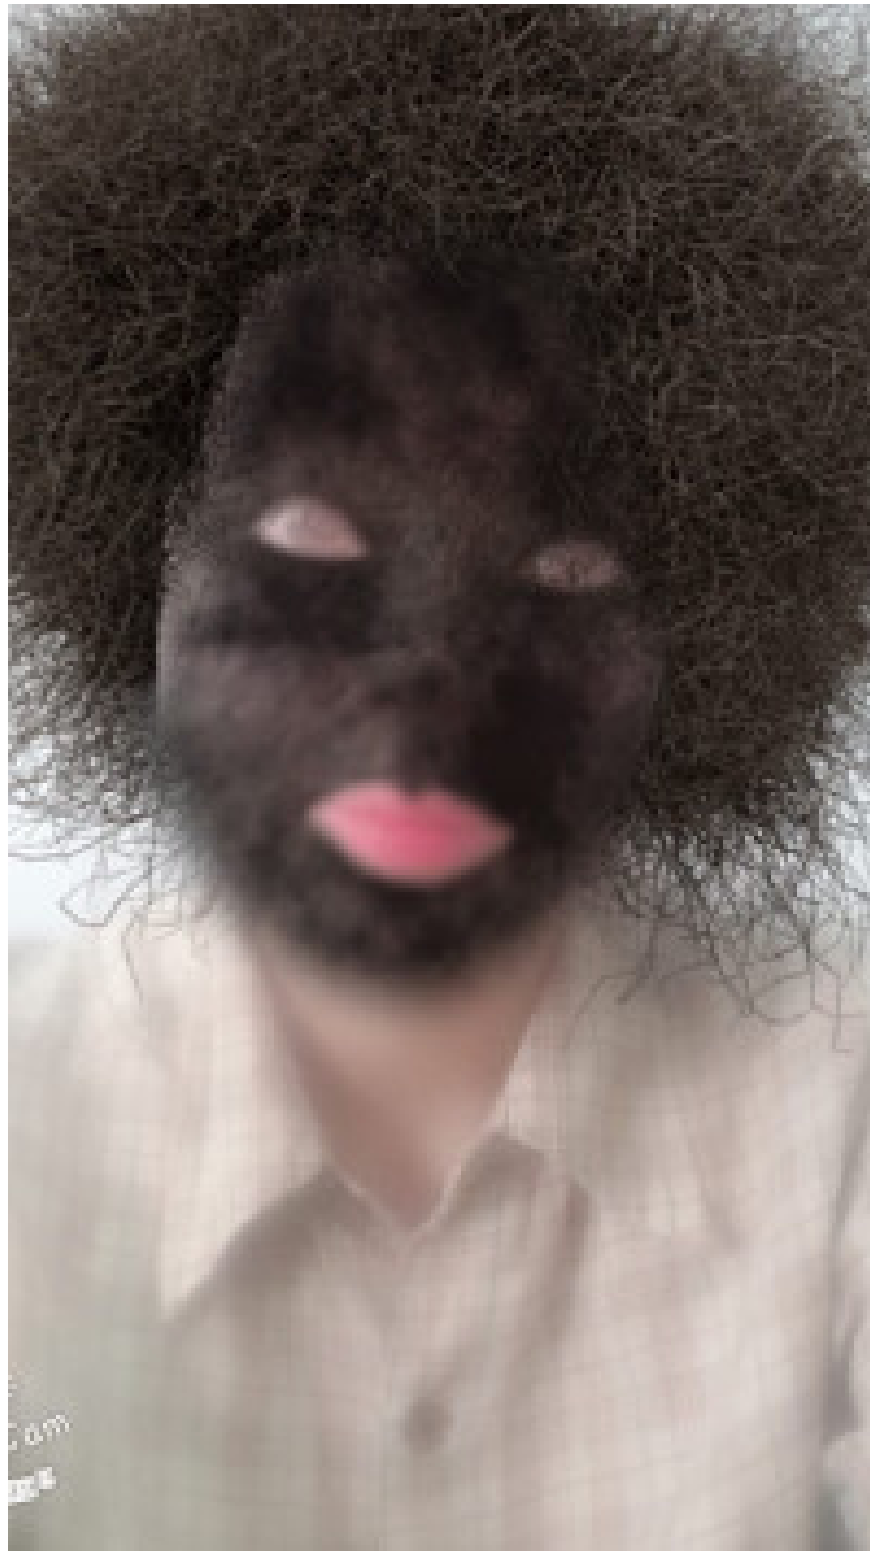

After downloading the application to complete, open the application and click on the red Selfie icon, then continue to select the smiley icon on the left side of the screen to choose to make the face black.

Like **Hot** New Theme 3D

Then you choose to HOT, just pull down a little to see the black face icon. Now you just need to download and use. In addition to taking photos, you can also go back to the video, which is pretty good with this face. Certainly when uploading to Facebook, you will make people laugh and enjoy. In addition to the black face, this app also offers many other interesting icons to choose from. Be quick to discover.

Hope you are succesful.
