

# Instructions to enable Q&A on TikTok to increase interaction for videos and accounts

The Q&A feature on TikTok allows you to answer questions directly from fans via video. If you don't know how to enable this feature, please refer to the instructions shared in the article below and follow them.

TikTok has just launched a Q&A feature to help creators easily interact with fans. This feature allows them to quickly identify and answer interesting questions.

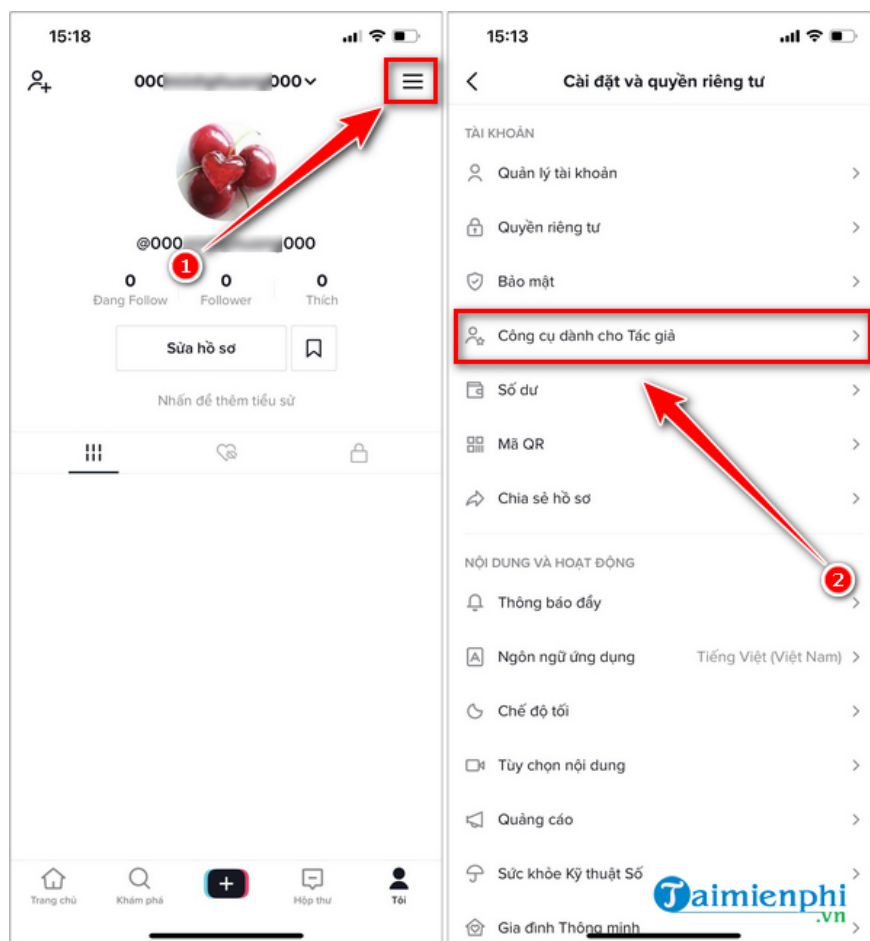

## *Instructions to enable Q&A on TikTok*

First, you need to update TikTok to the latest version.

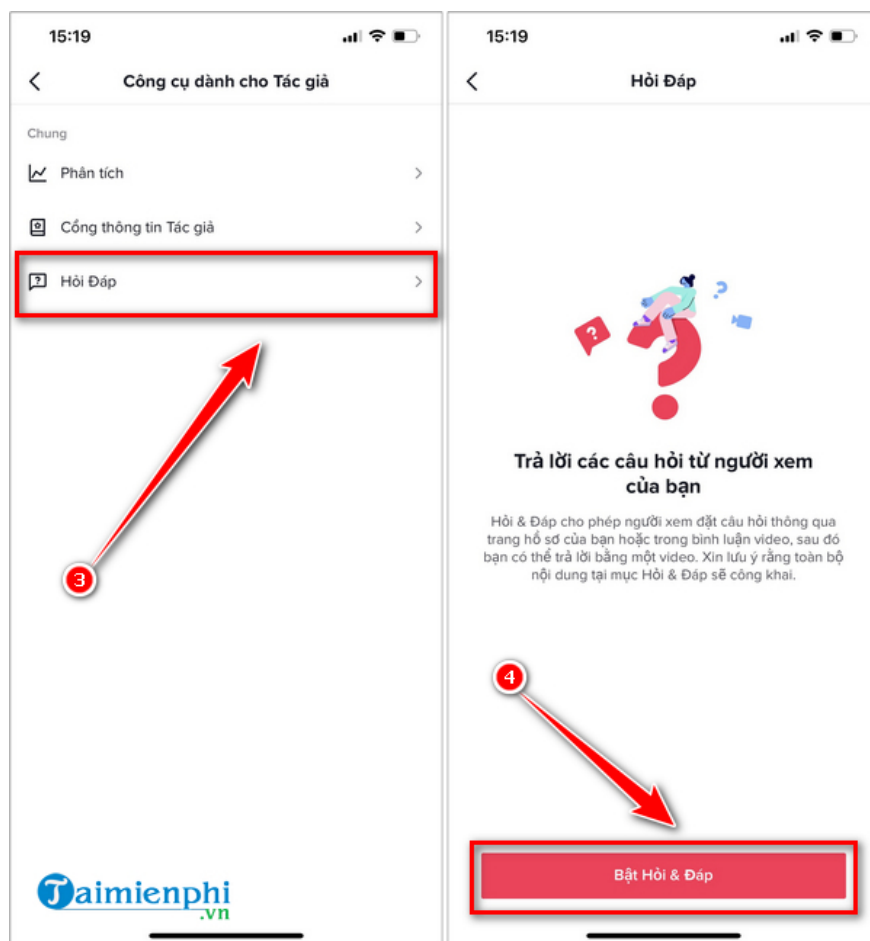

+ Link to download **TikTok for Android**

+ Link to download **TikTok for iPhone**

**Step 1:** On your personal page, click **the 3-dash icon** in the upper right corner => **Author Tools**

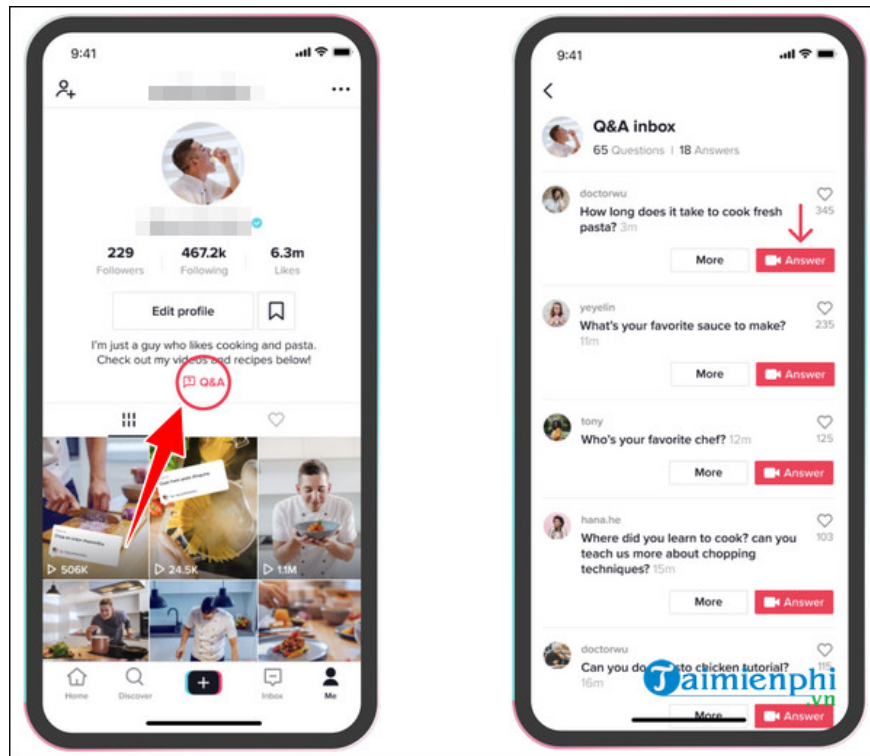

**Step 2:** Next, click on the **Q&A** option and select **Enable Q&A** to activate the feature.

**Step 3:** When you return to your personal page, you will see the **Q&A** section displayed below your profile.

Viewers can click to ask questions. When new questions are posted, you'll receive notifications in **your Q&A Inbox** .

Tap on the question and select **Reply** to record a video response.

So now you know how to enable **Q&A** on TikTok. If you don't see this feature in **Settings & Privacy** , update TikTok to the latest version. Once you have enough followers and views, you can learn **how to make money on TikTok** to increase your income.
