

Instructions to install Zalo, log in Zalo on PC, laptop

Install Zalo on your computer, log in Zalo on PC and scan QR code Zalo is not difficult but if you do it for the first time, you will be a little surprised. If you do not know how to install Zalo on your computer, please refer to this tutorial.

In order to ensure the security of applications when logging on on a computer, many manufacturers have provided a login feature via a mobile application. For example, to login to the web-based Facebook you can scan QR codes on Facebook applications, without entering a password. This will avoid Facebook hacking.

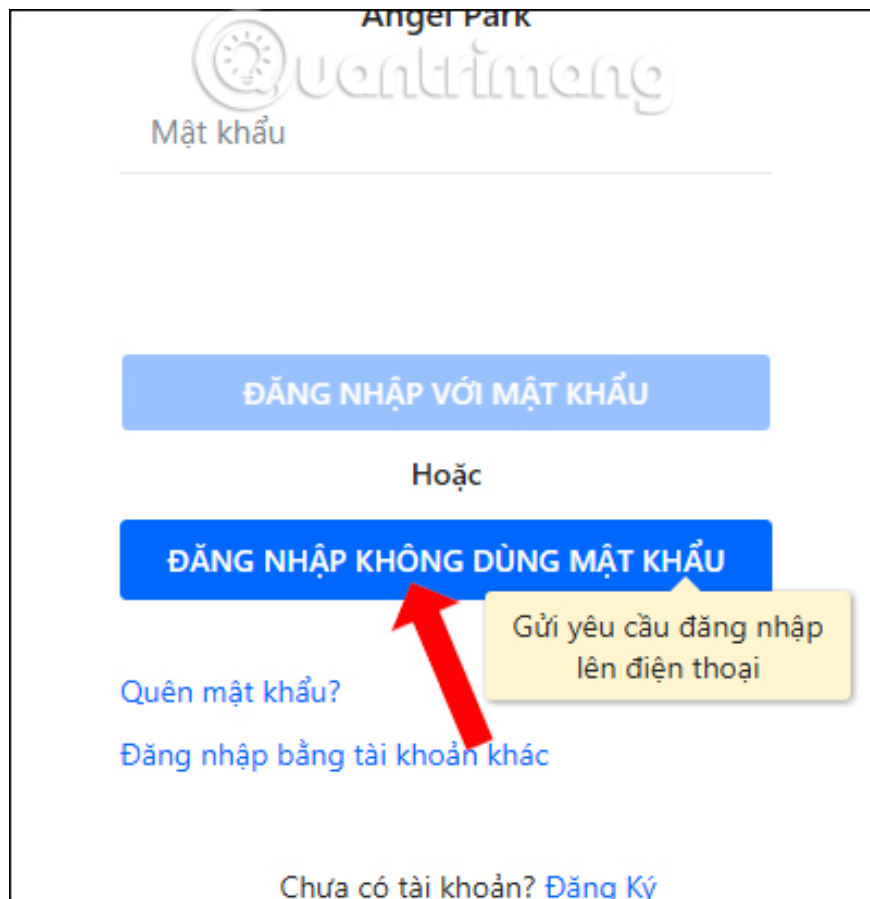

And recently Zalo PC has provided login mode via the Zalo phone application, without entering the password as before. Specifically Zalo on the phone will receive notification of Zalo login when you select this feature. So we do not need to enter the Zalo password, or save when you forget your Zalo password. The following article will guide you how to log in to Zalo computer by phone.

1. How to create an appointment on the Zalo PC chat group
2. What are the new features in the new version of Zalo?
3. How to turn off log notifications and moments on Zalo

1. How to login Zalo does not need a password

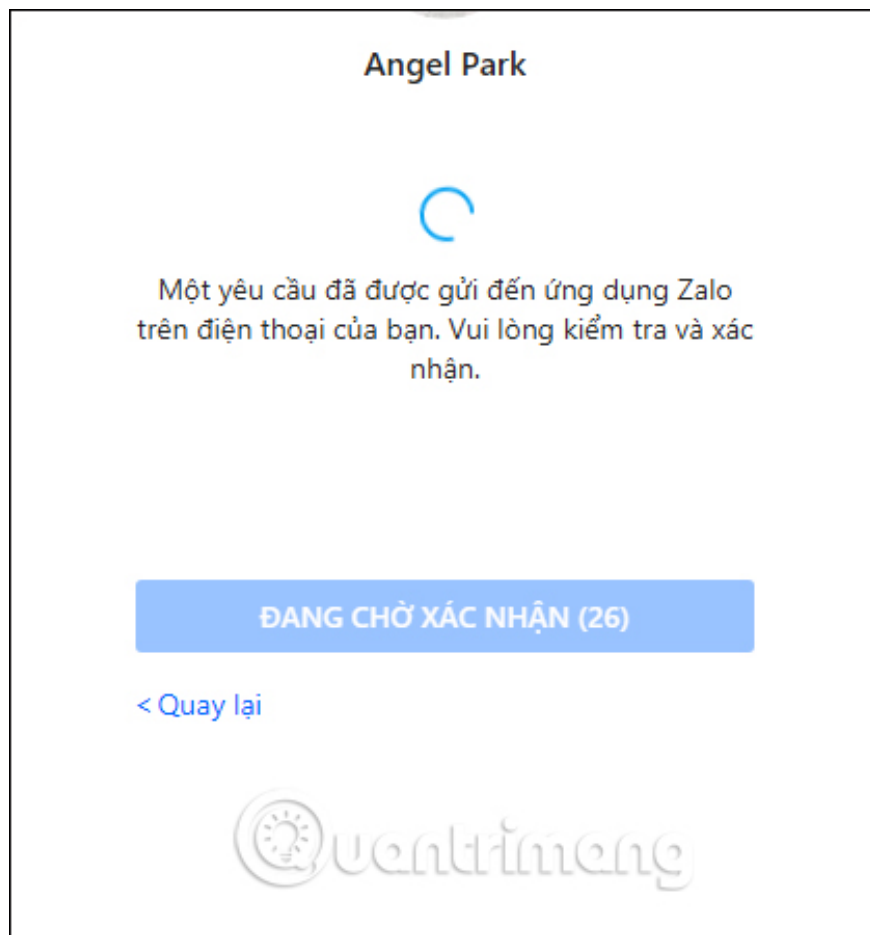

Step 1:

First we need to update Zalo PC to version v.18.09.02. Then at the login interface as usual you will see the **Login** option **without using a password** .

Step 2:

When clicking on that option, we will be redirected to the confirmation interface with the request message sent to the Zalo application on the phone to log in. Now you need to **open the Zalo application** on your phone to accept the request. Users will have **30 seconds to agree**. If more than 30 seconds you need to perform the operation again from the beginning.

Step 3:

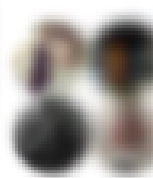

In the phone Zalo interface click on the **message from the Zalo ID** sent to the computer name that Zalo PC wants to access. Next you will have the option to Make login or Cancel login request, **click Make login** .

Gợi ý Kết bạn

Step 4:

Now Zalo will ask if the user is sure to access Zalo on the computer, **click OK** . Immediately the Zalo PC will have access to the account. When you click on the message sent from Zalo and then click **Open the list of login computers** you will see the login computer addresses to exit the remote Zalo account.

So instead of having to log in to Zalo on a computer with a password, now you just need to agree to access from Android Zalo application, iOS is done. The login operation is very quick, especially can limit the leak of Zalo password. If you do not remember the Zalo password to login on the computer, you can also apply the login method above.

2. How to install Zalo PC, log in Zalo on the computer

1. Download Zalo PC

Step 1:

After downloading the .exe file of Zalo, double click the file to proceed with the installation. The installation process takes place automatically, just wait for it to complete.

Step 2:

When installing Zalo on PC, you will see the following interface.

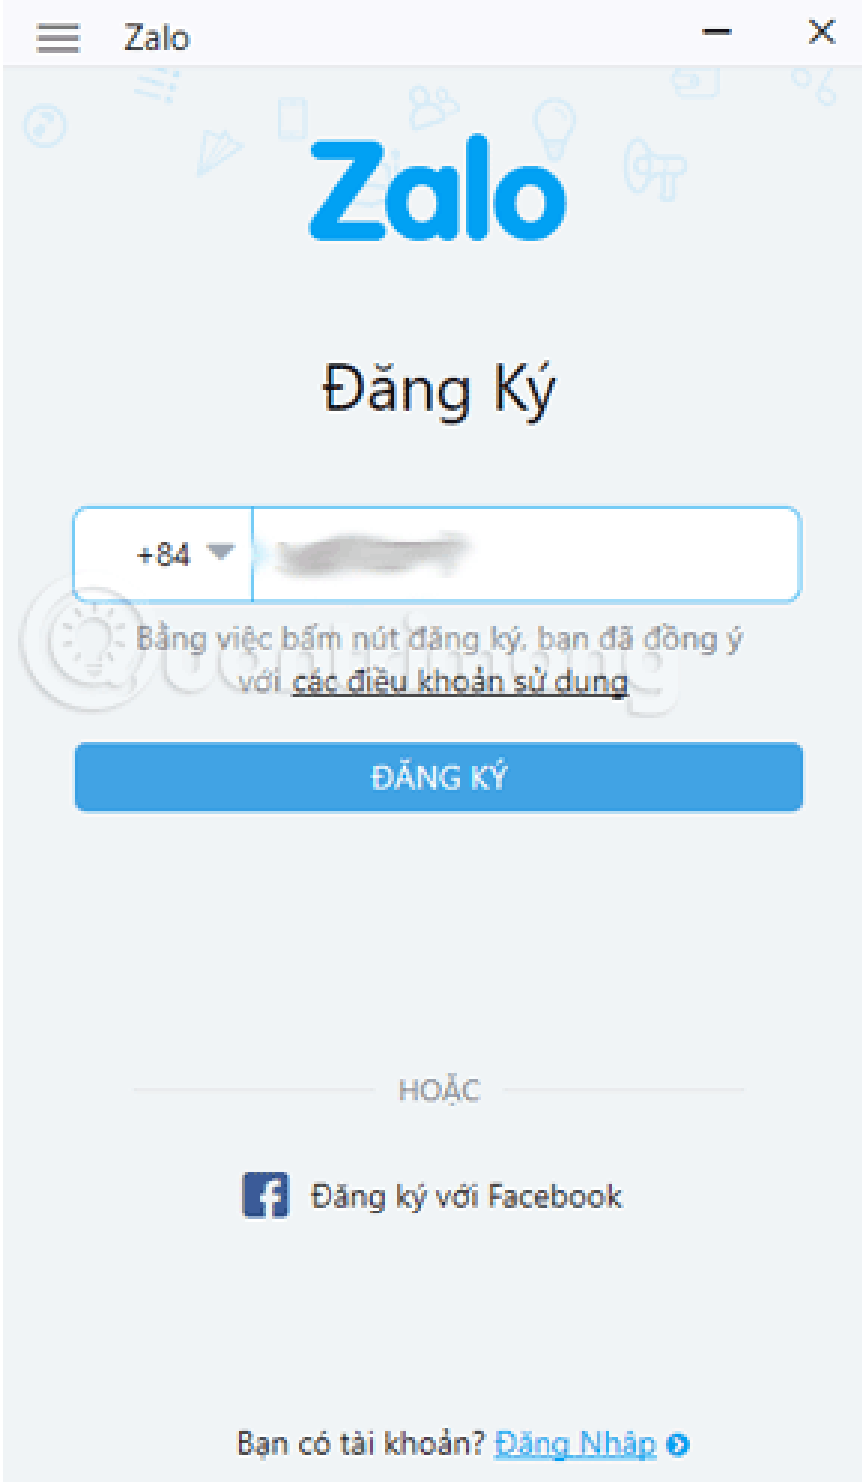

Here you have 3 options:

Case 1: Already have a Zalo account

If you already have an account, enter your phone number, password and confirmation code to log in to Zalo.

Case 2: No Zalo account yet

If you don't have an account, look down at the bottom of the window > select **Register** > enter the phone number you are using. Zalo will ask you to confirm your phone number again, make sure you enter the correct number because Zalo will send a confirmation code to your phone via message or call. You check the phone, enter the confirmation code from the incoming Zalo message or call, then click **Confirm** .

The image shows a screenshot of the Zalo registration window. At the top, there is a window title bar with the Zalo logo and standard window controls (minimize, maximize, close). Below the title bar, the Zalo logo is prominently displayed in blue. Underneath the logo, the text "Đăng Ký" (Register) is centered. A text input field is present, showing a country code dropdown set to "+84" and a blurred phone number. Below the input field, there is a line of text: "Bằng việc bấm nút đăng ký, bạn đã đồng ý với các điều khoản sử dụng" (By clicking the registration button, you agree to the terms of use). A large blue button labeled "ĐĂNG KÝ" (REGISTER) is positioned below the text. Further down, the word "HOẶC" (OR) is centered. Below that, there is a button with the Facebook logo and the text "Đăng ký với Facebook" (Register with Facebook). At the bottom, there is a link that says "Bạn có tài khoản? Đăng Nhập" (Do you have an account? Log In).

CẬP NHẬT

Case 3: You already have a Zalo account and install Zalo on your phone

At the login interface you select the tab **WITH QR CODE** .

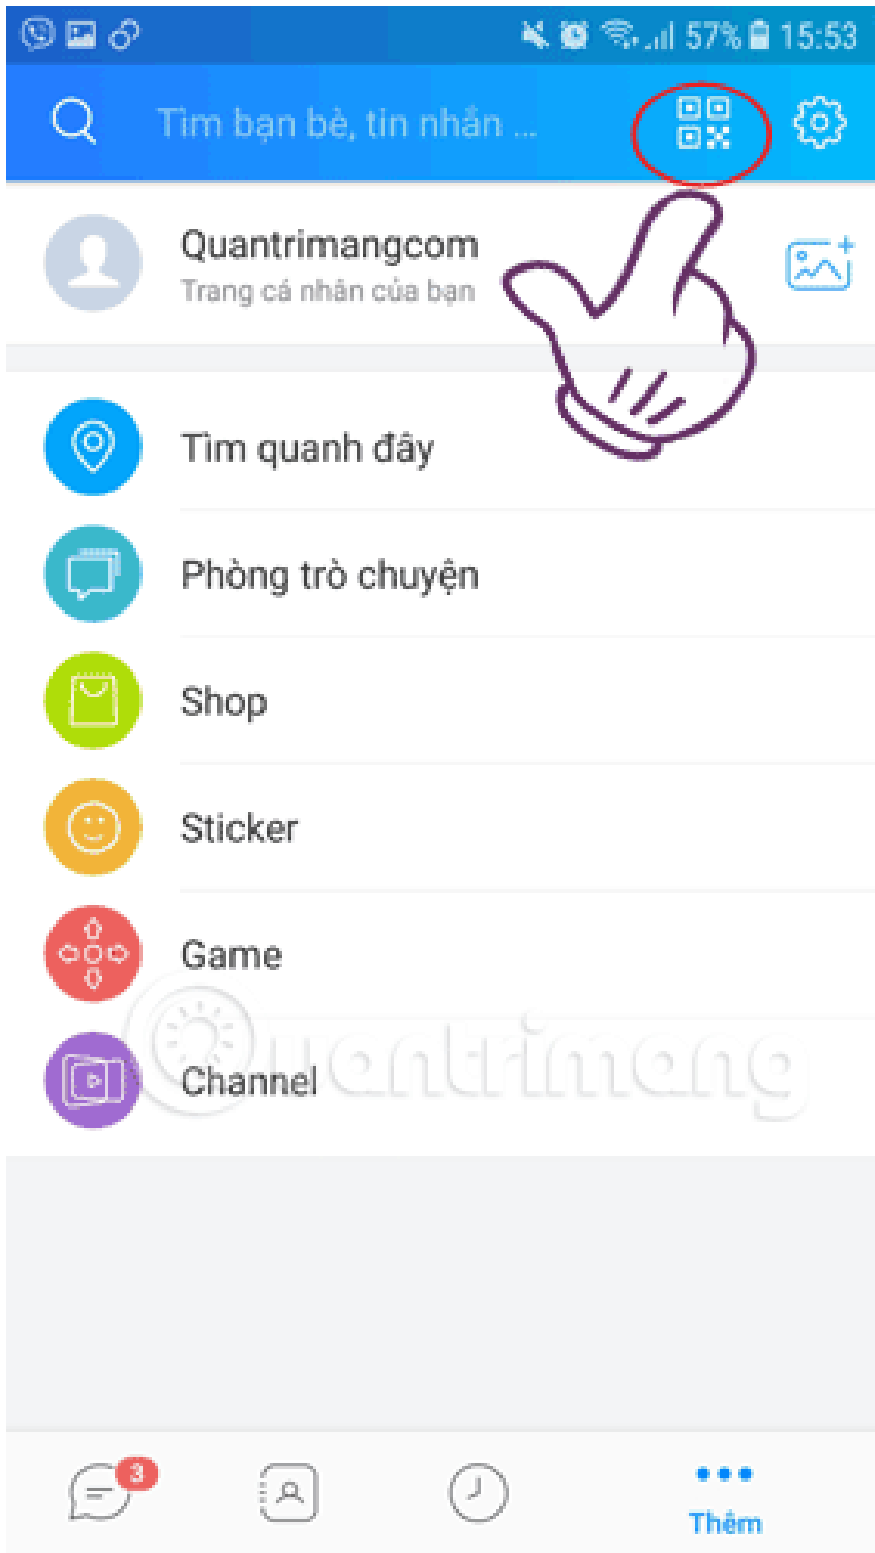

On the phone , open Zalo > click the 3 dots mark in the lower right corner (with Android)> click the **QR code scanning** icon. Many of you do not know how to scan Zalo QR code so quite confused when coming to this step. After clicking Scan QR code, Zalo will display a frame to identify the QR code, put the phone in front of the computer screen and adjust so that the phone camera can capture the QR code on the computer, receive enough code in The square frame appears on the phone, waiting for a moment to successfully scan the code.
