Introducing to you How to create beautiful backgrounds for Power Point presentation slides 2013.

Step 1 : Open Power Point, to create the wallpaper, right-click Slide and select **Format Background** as shown:

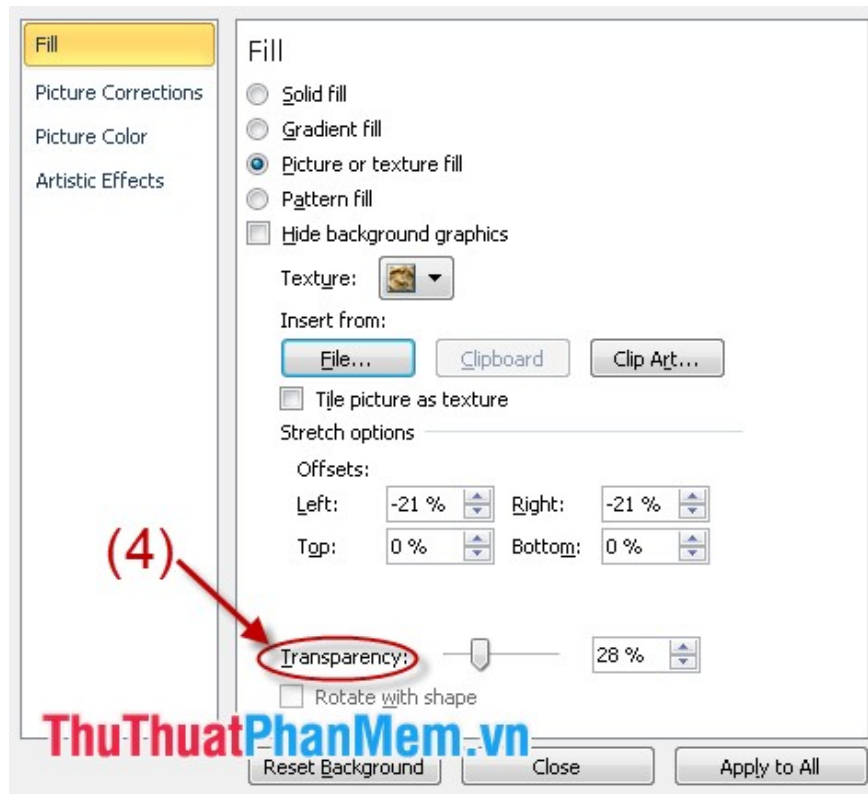

Step 2 : Format dialog box appears on the right of the screen, select *Picture or texture fill* . Click **File** to find the path to the background image you want to insert (As shown).

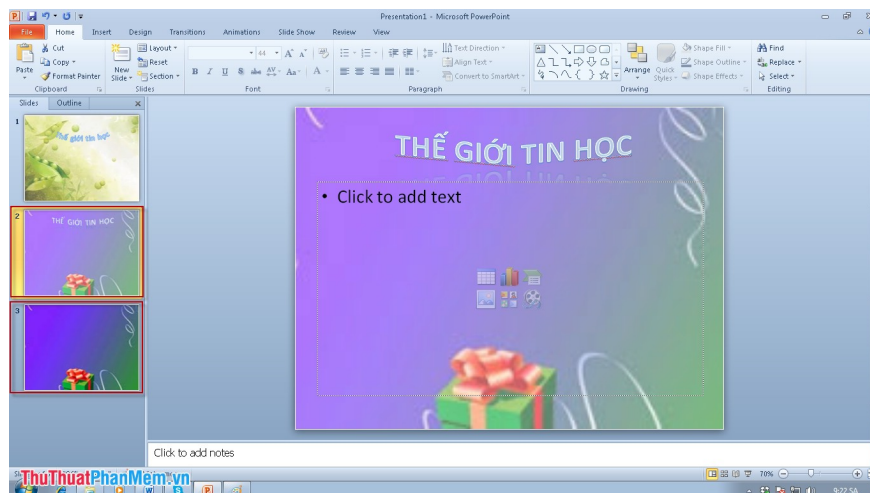

After selecting you will have the slide wallpaper:

Step 3 : To make your Slide unique and more attractive you can change the brightness of the slide. You choose **Transparency** to change the brightness according to your liking (As shown).

With 2 Silde 2 and 3 both use the same background image but the brightness of the two silde are different so they appear to be different in appearance. This way you can create distinct colors and personalities for your silde.

Good luck!
