The reason why PUBG PC becomes a free game

PUBG is still a hugely popular survival game, with around 20,000 players playing on average every day. However, this is a far cry from the previous records achieved by the game a few years ago. A lot of people have switched to newer fighting games instead of continuing to stick with PUBG.

By becoming a free-to-play game, PUBG PC can hopefully be revived with additional players, which is actually more profitable in the long run.

Introducing the Battleground Plus pack

The Captain's Camo outfit is given to players who purchase the Battleground Plus pack. Obviously, PUBG will use the same system as Counter Strike-Global Offensive: The free game but to play the Ranked mode, players need to pay for a package called Battleground Plus. This is a one-time payment of \$13 and includes the following:

1. Bonus 1300 G-COIN.
2. Survival Mastery XP + 100%.
3. Career Tab – Medal.
4. Ranked Mode.
5. Custom Match function (custom match).

In-game items, including the Captain's Camo set, which includes a helmet, mask, and camo gloves. Players who purchased PUBG before PUBG became free will receive a special Anniversary Pack, which includes Battleground Plus. and many additional items.
