

Instructions to turn off auto-play music on Zalo

Currently, Zalo allows users to post statuses, moments with background music, and the music will automatically play when others scroll by. If you do not want music to automatically play when viewing Zalo diary, please refer to how to turn off this feature in the article below and follow the instructions.

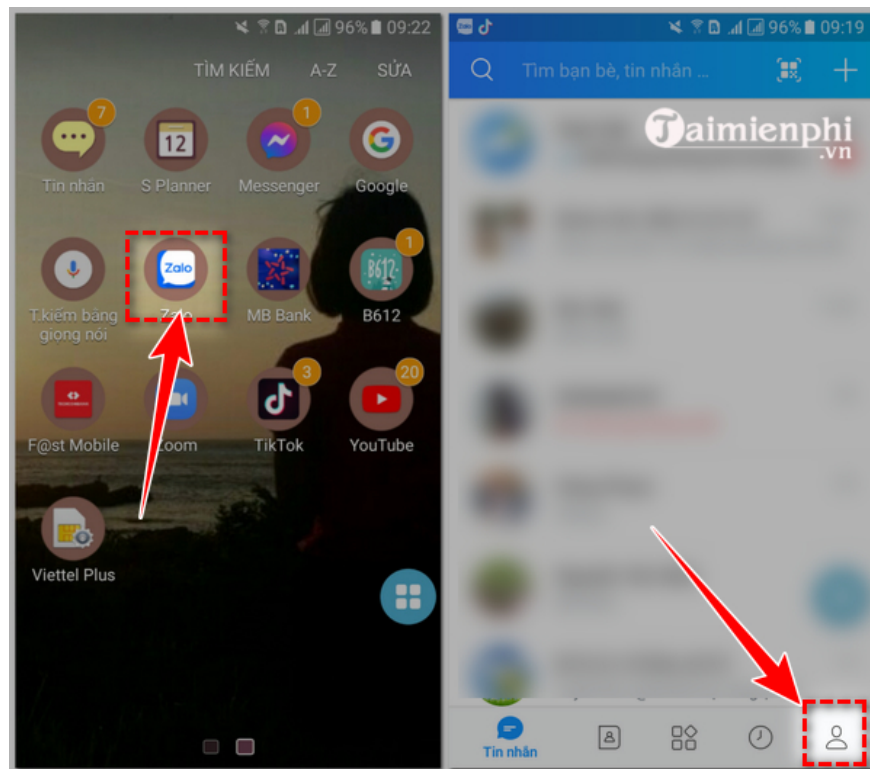

By default, music attached to Status on Zalo will automatically play when your friends view the log. However, this feature can be inconvenient when you browse Zalo log in public or at work.

Instructions to turn off auto-play music on Zalo

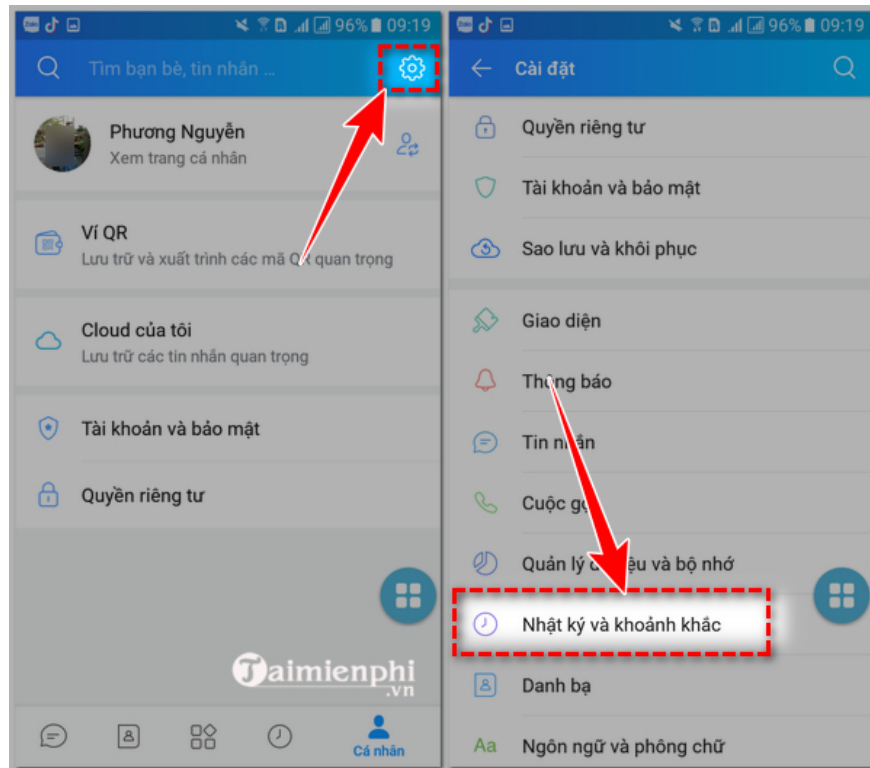

Step 1 : Open the Zalo application on your phone and select " **Personal** " on the main screen.

If you have not installed Zalo, you can download the latest version from the publisher via the download link below:

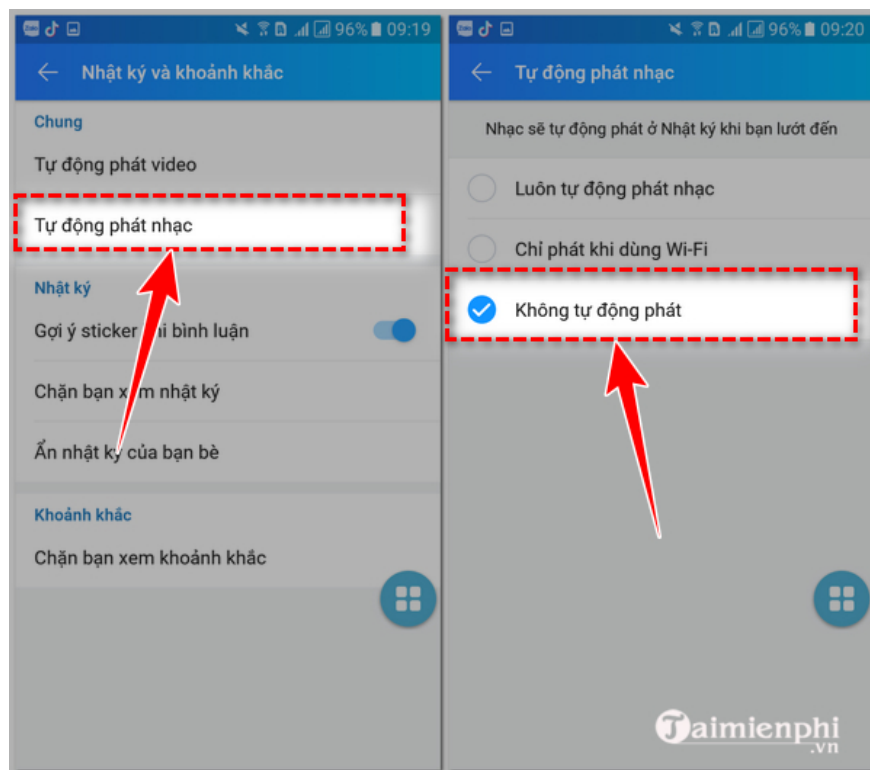

- Download **Zalo for Android**
- Download **Zalo for iPhone**

Step 2 : Click on the gear-shaped settings icon in the upper right corner => " **Diary and moments** ".

Step 3: Click on "autoplay music" => select "do not autoplay" to reset.

Above is how to turn off auto-play music on Zalo, helping you avoid annoyances when browsing your friends' diary. Similarly, you can also turn off auto-play videos to save data and improve your user experience.

Not only available on Android phones, iPhone, Zalo is also available on computers with Zalo PC and Zalo web versions. With the web version, you can still log in to your account and use basic features such as messaging, calling, ., without installing software. Refer to **how to use Zalo Web** in this article of ours to know how to use it.
