Step 4:

If you see Block all in OFF mode, the phone will receive all notifications from Zalo. To turn off notifications, we click on **Block all to turn on ON mode** , ie Never receive notifications from this app.

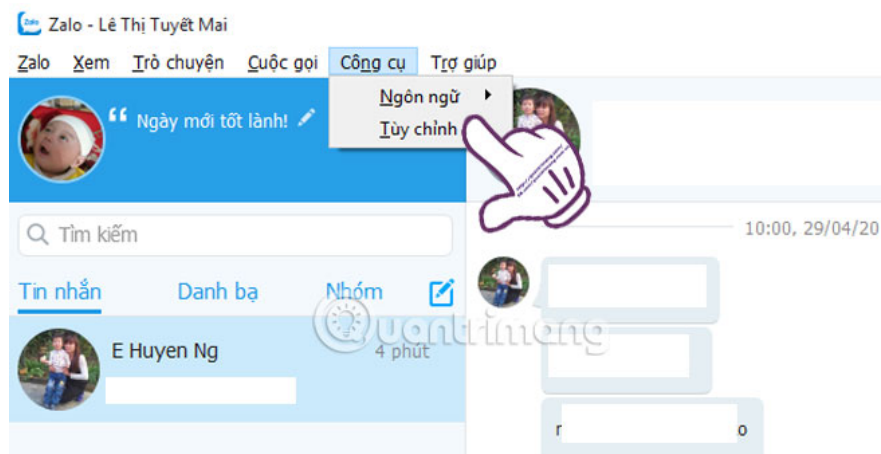

3. Turn off Zalo notifications on the computer:

Besides adjusting the settings to turn off Zalo notifications on the phone, you can also block notifications for the computer Zalo version.

Step 1:

Access to Zalo software on your computer. At the main interface, click on the **Tools** section and select the **Custom** section.

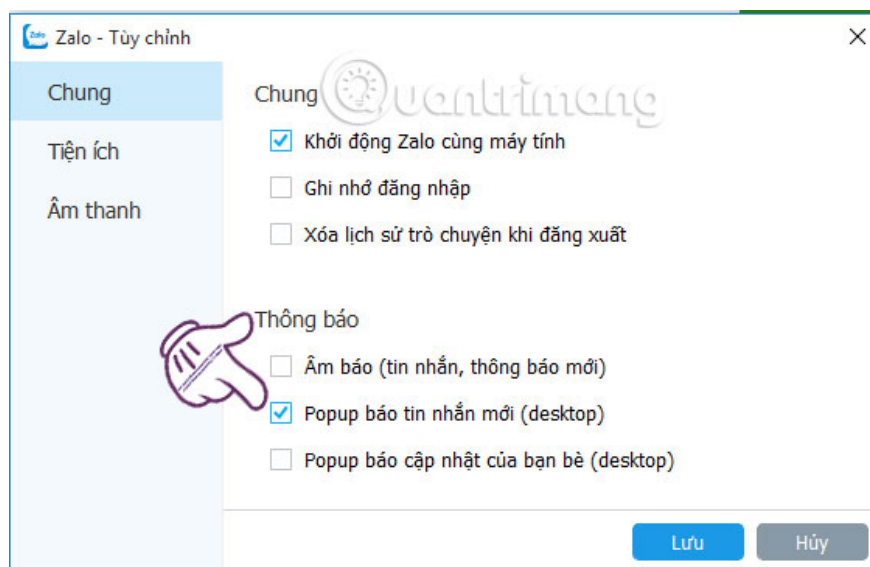

Step 2:

Custom Interface appears, with essential settings for the program. To turn off notifications, we can choose to remove the product in the following boxes:

1. **Warning tones** (new messages, announcements) if you do not want to use sound when notified.
2. **Pop-up reports a new message (Desktop)** : when a new notification arrives, the computer will display a message. It is possible to leave a tick in this box to display a message notification.
3. **Pop-up updates for friends (Desktop)** : remove updates from friends.

After you have chosen to remove the items, click **Save** to complete the operation.

So, you have completed the steps to block all notifications of phone Zalo and the computer version. From now on, you will not be bothered by irrelevant notifications every time you use Zalo.
