

# Instructions to turn on Dark Mode Facebook on the phone

With a few simple steps you can use the dark mode interface on Facebook

Dark Mode in the application will help a lot for users when it helps our eyes to be less active, especially when using the device in low light conditions. Understanding that, Facebook has updated users with a dark background interface on Facebook Messenger.

With this update, users are excited to experience a completely new interface on Facebook Messenger. And now, you can also enable this mode on FaceAtom application. An application is considered a "shortened" version of Facebook, to turn on Dark Mode on Facebook, please follow the instructions below this article.

1. How to use FaceAtom to surf Facebook
2. How to reply to each individual message on Facebook Messenger
3. How to write blue letters, write status, comment on Facebook

## Video tutorial turns on Dark Mode for Facebook on the phone

## Instructions for turning on the dark background Facebook interface on the phone with FaceAtom

**Step 1:** First download the FaceAtom app on your phone, then log in to your facebook account. In the main view, swipe the app from left to right to show the settings menu. Then click **App Settings** .

In the main settings of the application, scroll down and turn off Basic Mode, then turn on Dark Theme for Facebook. Then go out to the main interface and reload your Facebook, you will see the interface is turned into a dark background.

# Settings

No data charges. GSM provider dependent. Works during mobile network connection.

**Touch mode**  
Use touch.facebook.com website.

**Basic mode**  
Use a basic website instead of a standard one. Dark theme has to be disabled. May not work during a fast connection.  1

**Dark theme**  
Turn Facebook black.  2

**Enable geolocation**

**Load external pictures**  
Open external pictures in-app. Currently only few sites are supported.

**Use Tor**   
Force all traffic through Tor for increased privacy. Requires Orbot. — Proxy: DIRECT

**Check for app updates**
