

Instructions to watch Netflix movies for free on Android phones

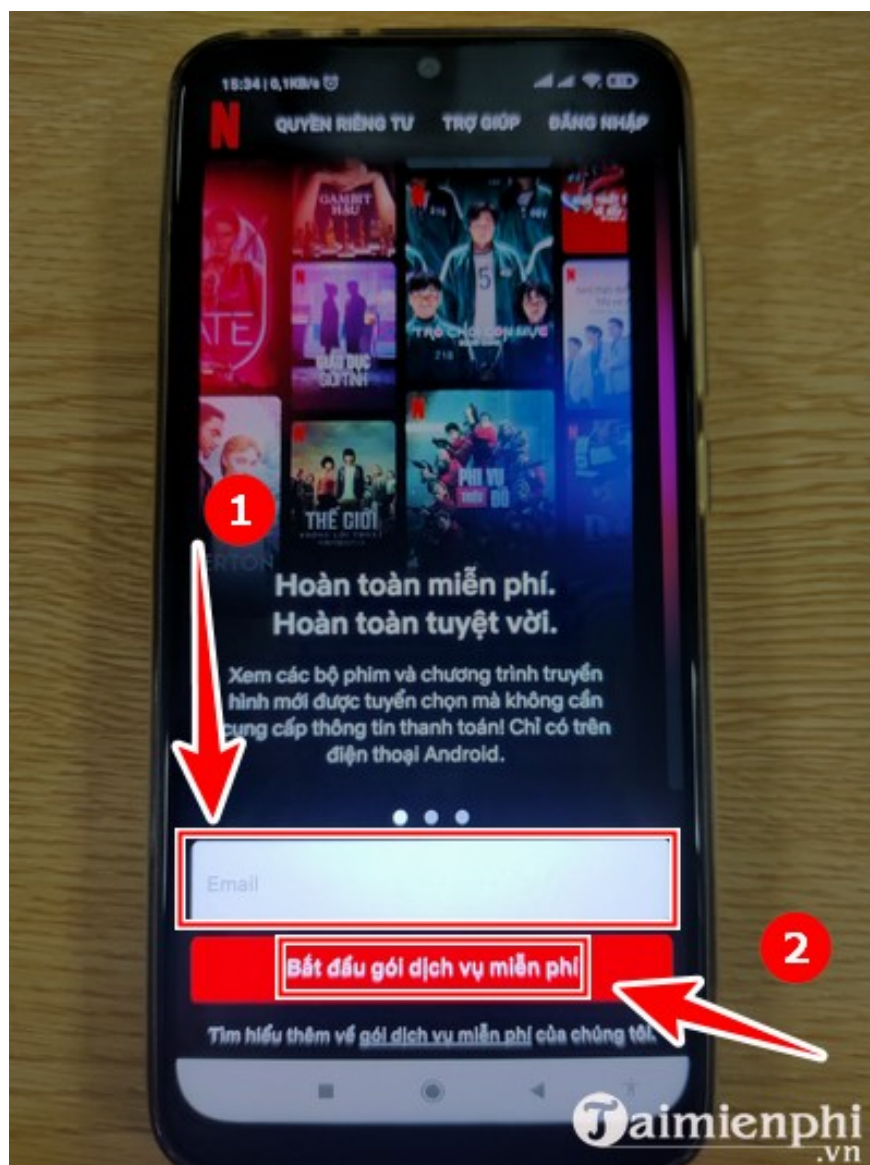

Previously, when watching movies on Netflix, you had to pay and buy an account. But now, you just need to apply the instructions below to watch movies with sharp video quality, without paying fees and being bothered by ads.

Netflix recently launched its Free Plan for Android. This plan allows Android phone users to watch movies for free in high quality and without being interrupted by ads.

Guide to watch Netflix movies for free

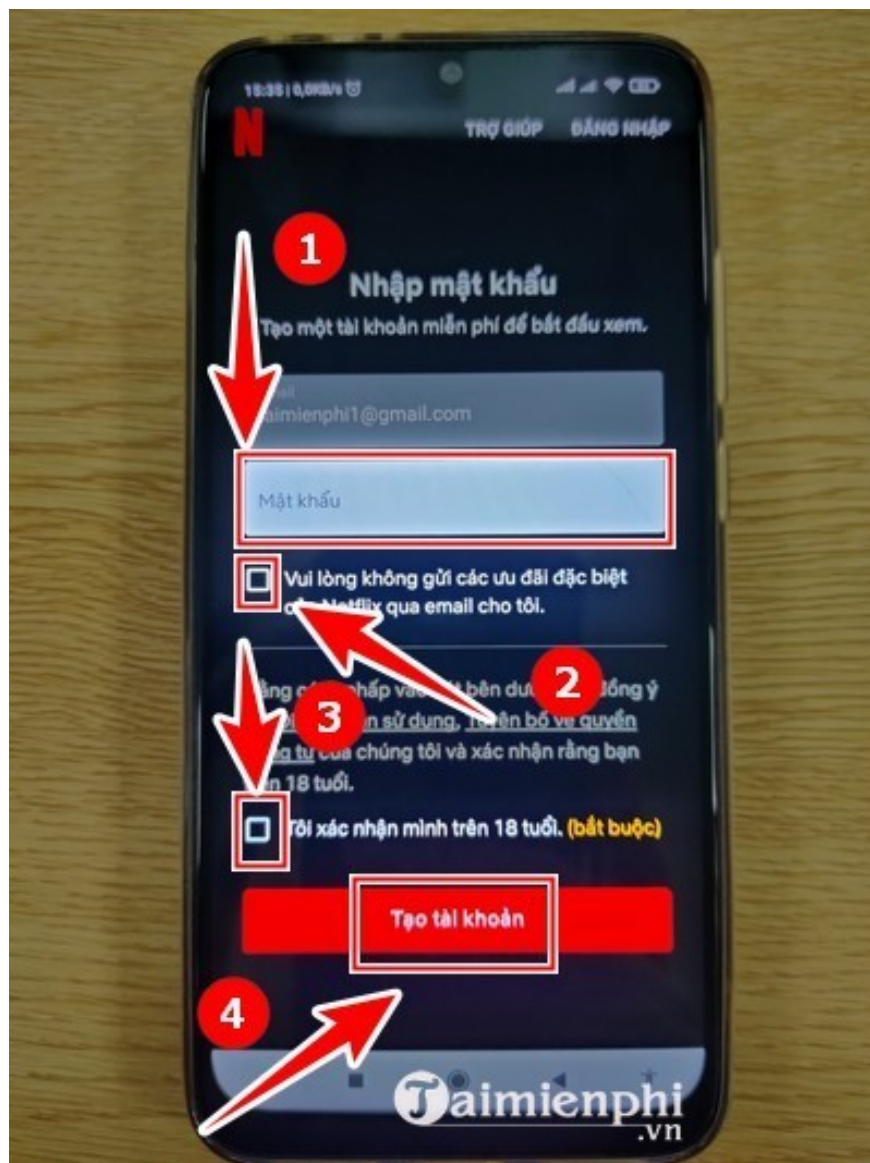

Step 1 : Download and update the latest Netflix app to your Android phone **HERE** .

Step 2 : Enter your Email in the Email box below => Select " **Start free service package** " .

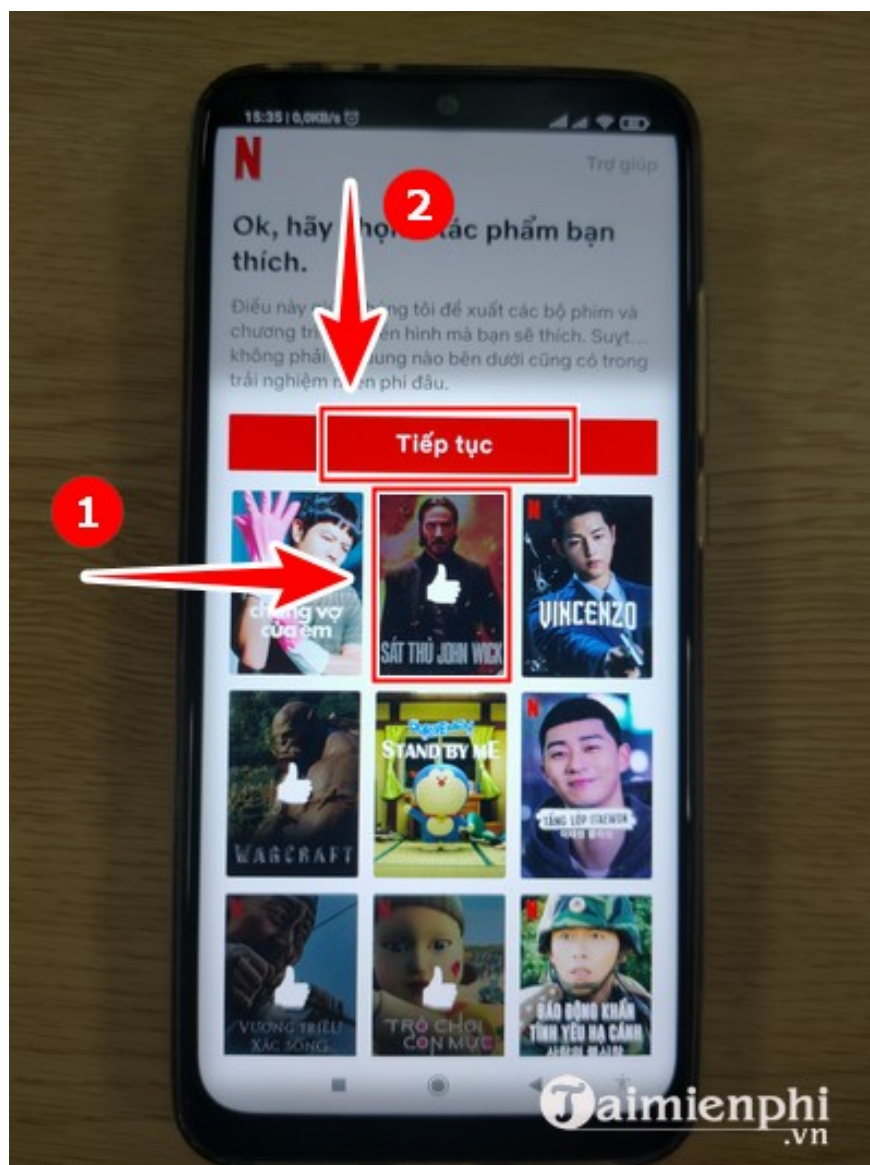

Step 3: Now, you do the following:

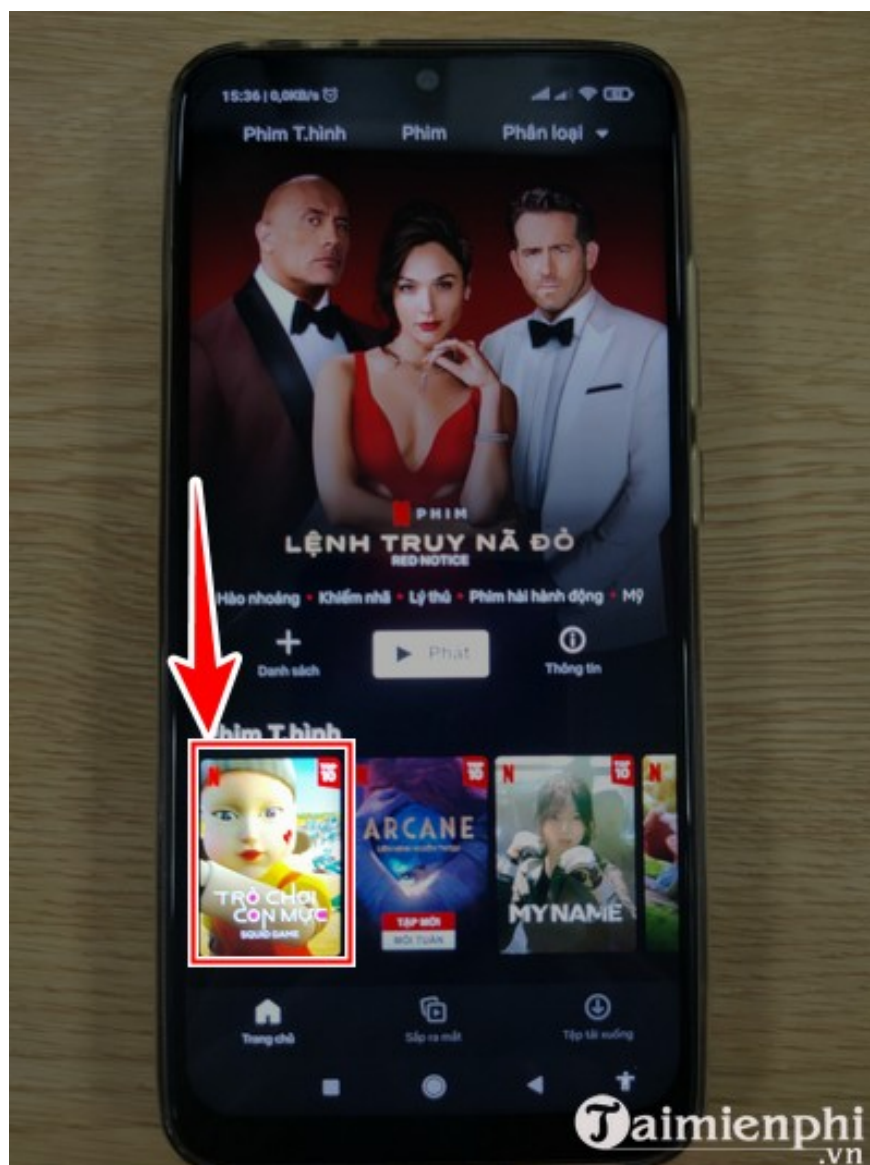

- **Password** box : Enter the password you want to set.
 - **Please do not send offers . box:** Check that box to comply with Netflix's rules.
 - **I confirm that I am over 18 years old** box : Check to confirm that information.
- Then, you click " **Create account** ".

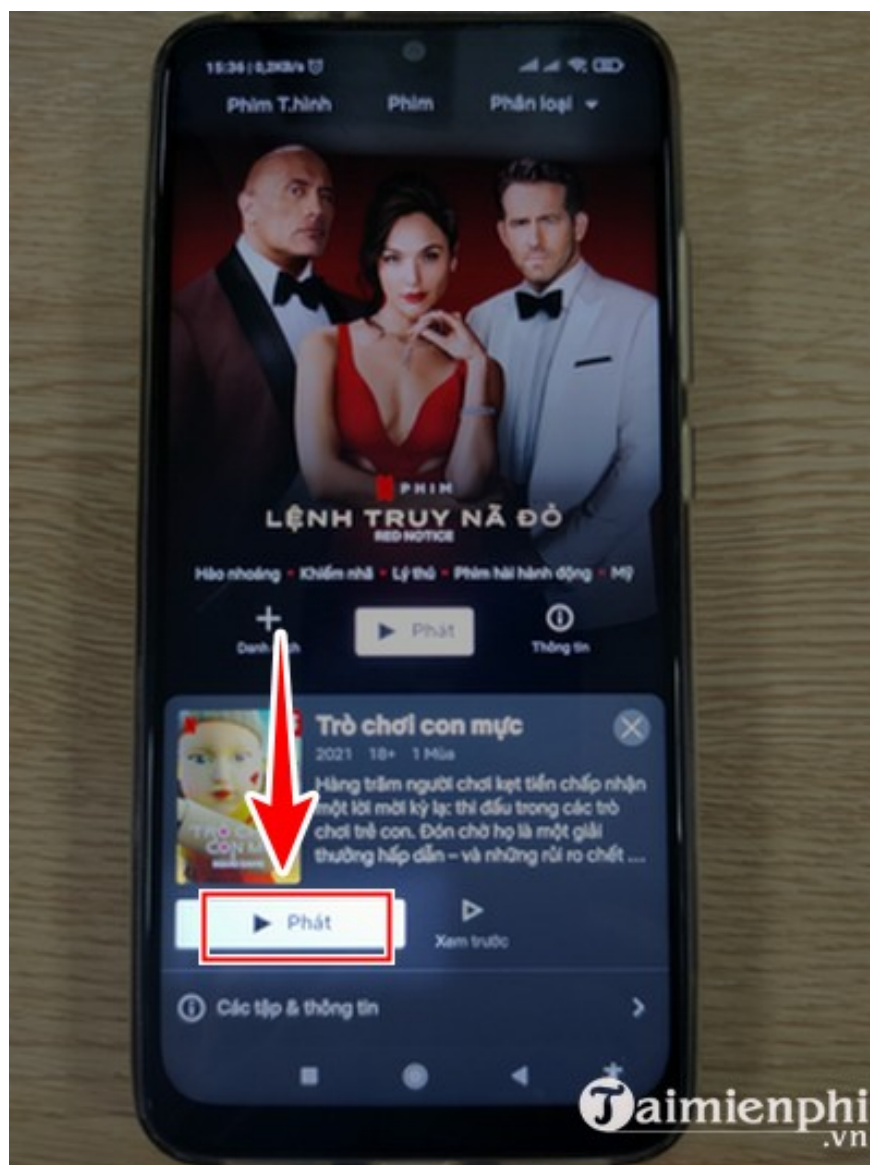

Step 4 : Choose at least 3 movies you like => click " Continue ".

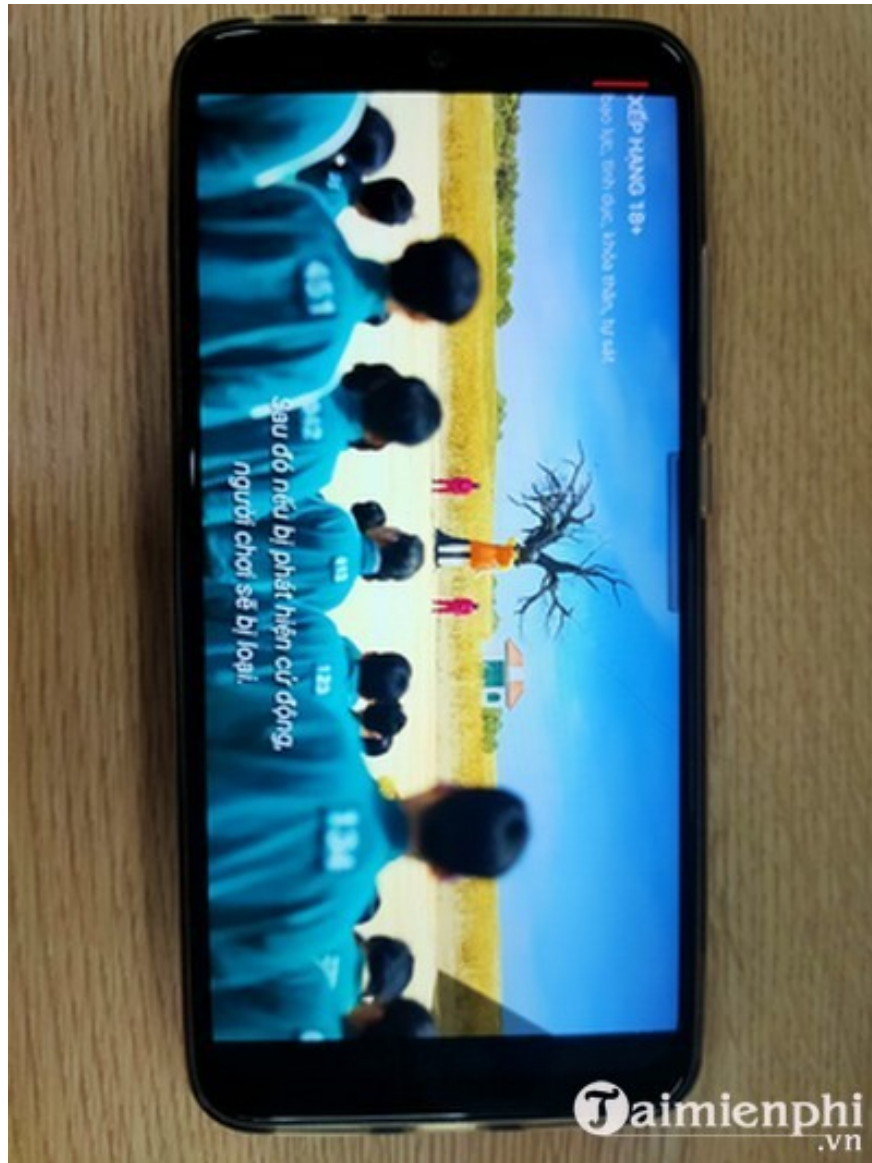

Step 4 : Netflix will return to the home page, you slide and click on the movie you want to watch. For example, TipsMake wants to watch **Squid Game** .

Step 5: Next, at the bottom of the interface, click " **Play** " to watch the movie.

Netflix will now rotate your screen horizontally and the movie will appear for you.

Currently, Netflix is showing the animated film **Arcane League of Legends** , a very HOT film, surpassing even *Squid Game* . If you are a fan of League of Legends, don't miss this film.
