

# Interesting quizzes about computer networks - Part 3

After the previous sections of Network Administration please introduce to Part 3 of the interesting quiz questions about computer networks to readers.

Series of computer network quiz questions with a set of 4 answers and answers at the bottom of the page. After part 2, Network Administrator continues to introduce part 3. Let's try to see how many answers you can answer?

**Question 1** . Choose TRUE definition of MAC address:

- A. Recorded on the network card (NIC)
- B. declared by network administrator
- C. Questions a and b are correct
- D. All is right

**Question 2** . Modems used to:

- A. Communicate with the network
- B. Data transmission goes far
- C. Data transfer in LAN
- D. A and B

**Question 3** . Which of the following addresses is in class A:

- A. 172.29.14.10
- B. 10.1.1.1
- C. 140.8.8.8
- D. 203.5.6.7

**Question 4** . The main function of the router is:

- A. Connecting LAN to LAN
- B. Split the broadcast domain
- C. All is right
- D. It's all wrong

**Question 5** . IP address 172.200.25.55/255.255.0.0:

- A. belongs to class A
- B. belongs to class C
- C. Is the private address

D. Broadcast address

**Question 6 .** The presentation layer data unit is:

- A. Byte
- B. Data
- C. Frame
- D. Packet

**Question 7 .** When using computer networks, we get the benefits:

- A. Share resources (hard drive, database, printer, utility software, .)
- B. Centralized management
- C. Take advantage of the processing power of idle computers to combine to perform large tasks
- D. All is right

**Question 8 .** What stage does the process of moving data from one computer system to another?

- A. Analyzing data
- B. Filter data
- C. Data compression
- D. Packing

**Question 9 .** The order of the layers of the OSI model in the top-down order is:

- A. Application, Presentation, Session, Transport, Data Link, Network, Physical
- B. Application, Presentation, Session, Network, Transport, Data Link, Physical
- C. Application, Presentation, Session, Transport, Network, Data Link, Physical
- D. Application, Presentation, Transport, Session, Data Link, Network, Physical

**Question 10 .** To connect two computers together we can use:

- A. Hub
- B. Switch
- C. Connect the cable directly
- D. All is right

**Question 11** Protocol used for the Internet:

- A. TCP / IP
- B. Netbeui
- C. IPX / SPX
- D. DLC

**Question 12** The string '00 -08-ac-41-5d-9f 'may be:

- A. IP address
- B. Address of port
- C. MAC address
- D. It's all wrong

**Question 13** . On which floor do TCP and UDP protocols work?

- A. Transport
- B. Network
- C. Application
- D. Presentation

**Verse 14** . Indicates Proxy function:

- A. A machine that represents a group of machines that perform a certain client service
- B. Is a network traffic statistics device
- C. All is right
- D. It's all wrong

**Question 15** . Current popular LAN technology is:

- A. Token Ring
- B. FDDI
- C. Ethernet
- D. ADSL

**Answer:**

- 1. A
- 2. D
- 3. B
- 4. D
- 5. C
- 6. B
- 7. D
- 8. D
- 9C
- 10. D
- 11. A
- 12. C
- 13. A
- 14. A

15. C
