

Invitation to admire the Galaxy F concept with a beautiful folding screen

Concept Creator team relied on previous leaks to create a concept video of a device called Galaxy F, Samsung's folding screen smartphone.

At a recent developer conference, Samsung introduced a demo of the smartphone with its first folding screen. Concept Creator team relied on previous leaks to create a concept video of this device called Galaxy F.

According to Samsung's previous announcements, the Galaxy F owns two screens. The 7.3-inch internal screen, resolution of 1536x2152 pixels, ratio of 4: 3. The screen is 4.58inch outside, 840x1960 pixels resolution and 21: 9 aspect ratio. Both screens have a pixel density of 420ppi. The internal screen part has the ability to fold and turn off automatically when users use the external monitor.

According to Yonhap News, Samsung's flip smartphone will be launched in March 2019 and will cost about 2 million won (US \$ 1770 equivalent).
