

Invite to admire the beautiful Windows XP 2018 Concept with Fluent Design language that everyone must enjoy

Kamer Kaan Avdan designer used the design language Fluent Design and the functions of Windows 10 to create a Windows XP concept version.

Kamer Kaan Avdan designer used the design language Fluent Design and the functions of Windows 10 to create a Windows XP concept version. This combination has created a Windows XP operating system with a very beautiful interface, both modern and classic that makes anyone who has been eating and sleeping with this operating system have to enjoy.

This new operating system integrates the virtual assistant Cortana and the Live Tiles interface, but the sound and key tones of the Windows 10 operating system have been removed.

Please watch the video below and admire Avdan's concept of Windows XP:

Microsoft officially released Windows XP in October 2001. Soon after its launch, it quickly became the world's most popular computer operating system. By 2014, Microsoft stopped supporting the operating system and released many new versions of Windows, but until last year Windows XP was still the third most popular operating system in the world.
