

# Invite to admire the iPhone 2019 concept, high forehead, no rabbit ears, spill bottom like Bphone 3

YouTube Phone Industry channel owner, one of those who do not like to design iPhone rabbit ear screen has created an extremely unique iPhone 2019 concept with screen without rabbit ears, bottom overflow, high forehead to put speakers, front camera and Sensor.

iPhone 2018 is designed with rabbit ears screen similar to iPhone X. Channel owner YouTube Phone Industry, one of those who do not like to design iPhone rabbit ears screen has created an extremely unique iPhone 2019 concept with the screen Rabbit ears, bottom spill, high forehead to place speakers, front camera and sensors. This design has been selected by BKAV for the newly launched Bphone 3 product on October 10 last. However, compared to Bphone 3, iPhone 2019 has a slightly thinner forehead.

Please watch the iPhone 2019 concept video of Phone Industry and look forward to see how Apple will improve the iPhone design next year.
