

Invite to admire Windows XP version 2019 with a modern design but still bring the previous features

Recently, designer Avdan shared an interesting video about Windows XP exclusive version 2019.

Recently, designer Avdan shared an interesting video about Windows XP exclusive version 2019. This is a combination of old Windows XP and modern design features of 2019, such as desktop or Cortana.

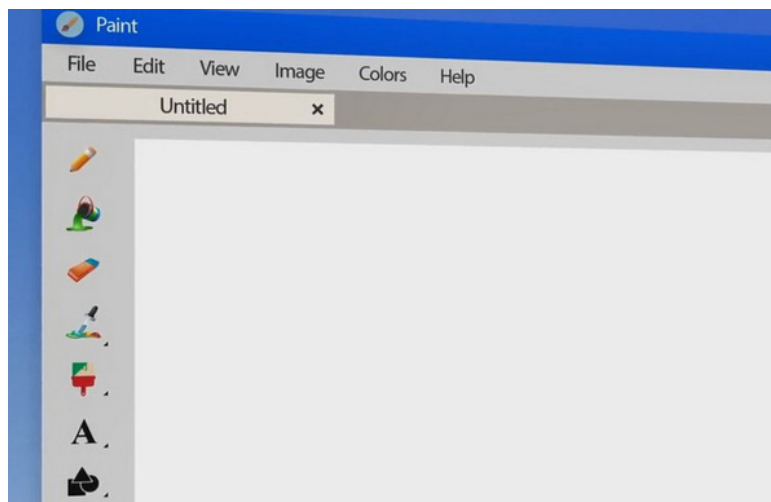

In the video, Avdan shared the idea of ??Windows XP if it was released in 2019. Accordingly, Avdan retains some classic details on the Windows XP 2019 version, such as virtual desktop or Space Cadet Pinball game. . This version also has a unique boot interface and live wallpapers.

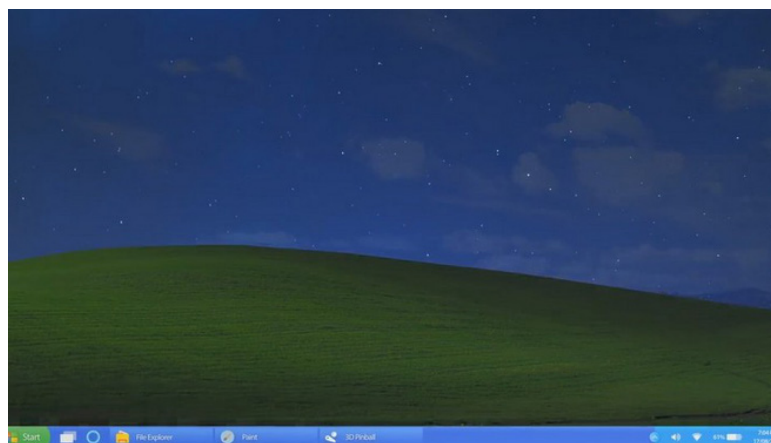

Start Menu, Paint application, dark background interface, File Explorer are refreshed, look more modern. In addition, the old design lines of Windows XP have been refined and bring a lot more modern direction.

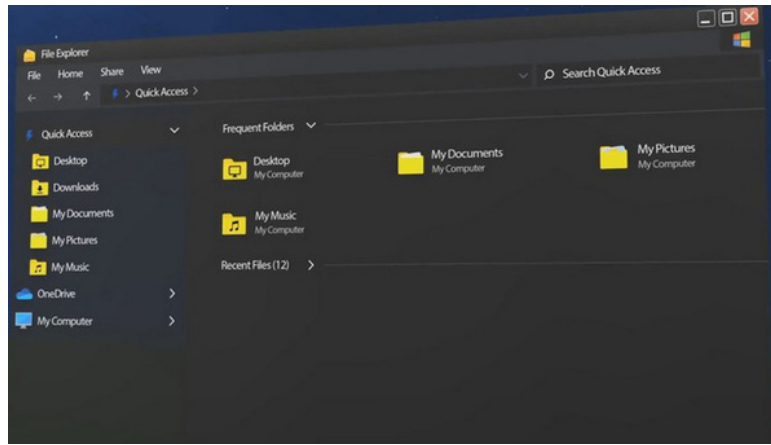

Windows XP style Start Menu 2019.

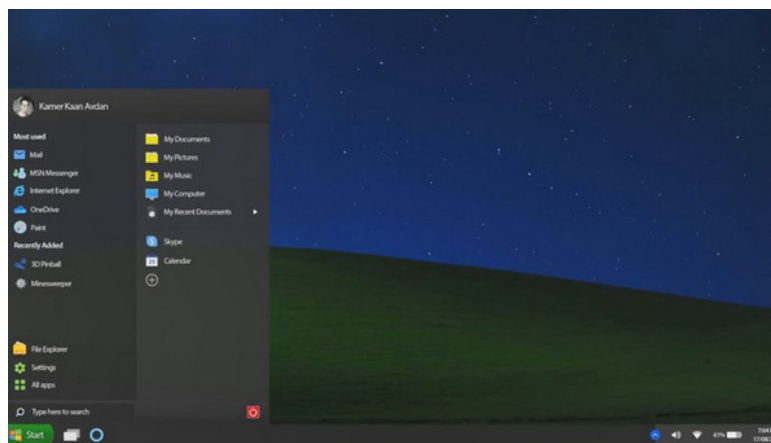

The new Paint application is more modern.

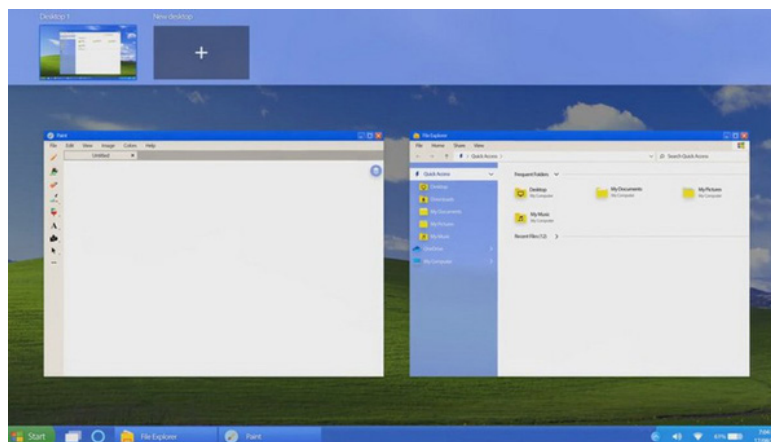

Depending on the time of day, the live wallpaper can change colors and brightness accordingly.

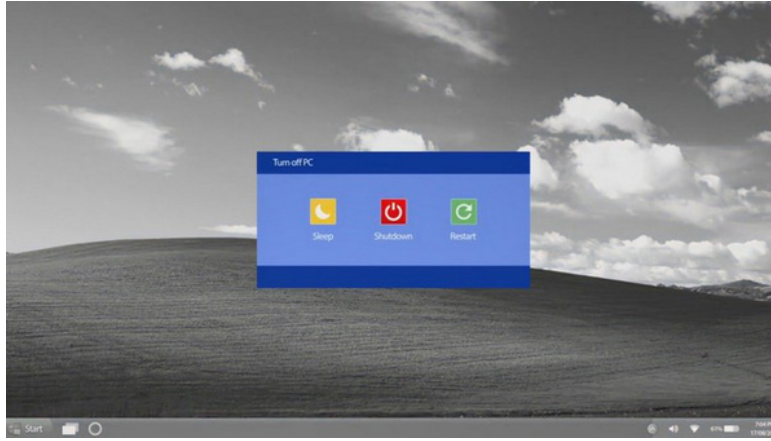

New File Explorer interface.

Windows XP version 2019 is also equipped with a dark background to suit the current trend.

Virtual desktop.

Familiar interface when selecting restart or sleep mode.

Unfortunately, Microsoft will never waste time bringing modern elements back to older versions of the operating system, so all of this is just an idea.

1. Android 10 will be released on September 3, these are the smartphones that will be coming to Android 10 soon
2. Google killed a series of little-used features to purify Chrome
3. Take a look at the beautiful Windows XP 2018 Concept with the Fluent Design language that makes everyone excited
