Insurgency is an FPS game mixed with tactical elements launched in 2014 on Steam, giving players the real feeling of gun battles on the battlefield.

In the game, players will be taken back to the World War with bloody and extremely fierce battles. Graphics in the game are well invested, from the effects of fire smoke, light . until the details of the objects shown well bring true feeling to the players.

Weapons in the game are designed honestly, not automatically like other shooting games, so players will have to take some time to get acquainted.

The minimum configuration requirement to be able to battle Insurgency is about 4GB of RAM and a 1GB VRAM graphics card.

Currently, Insurgency is receiving free license on Steam until August 15, 2018. If you love FPS games, you can try Insurgency.

If you receive Insurgency successfully with a Steam account, you can own the game's copyright permanently.
