

iPhone 12, SE 2 and interesting series of products Apple will launch in 2020

In addition to iPhone 12, Apple may launch a series of exciting new products in 2020 such as iPad Pro, Apple Watch 6, Apple Glass ...

In addition to iPhone 12, Apple may launch a series of exciting new products in 2020 such as iPad Pro, Apple Watch 6, Apple Glass .

iPad Pro new generation

A source from Bloomberg said that the new generation iPad Pro is integrated with the 3D camera system that Apple is planning to produce. The design information and specifications of the device are kept confidential.

iPhone SE 2

Sources from Nikkei and Bloomberg said that Apple will launch an iPhone with similar design to iPhone 8 but cheap in the first quarter of 2020.

According to analyst Ming-Chi Kuo, this device will be equipped with A13 chip, 3GB RAM, 64 / 128GB internal memory. The lowest configuration version of the device will cost about \$ 399.

Apple Watch 6

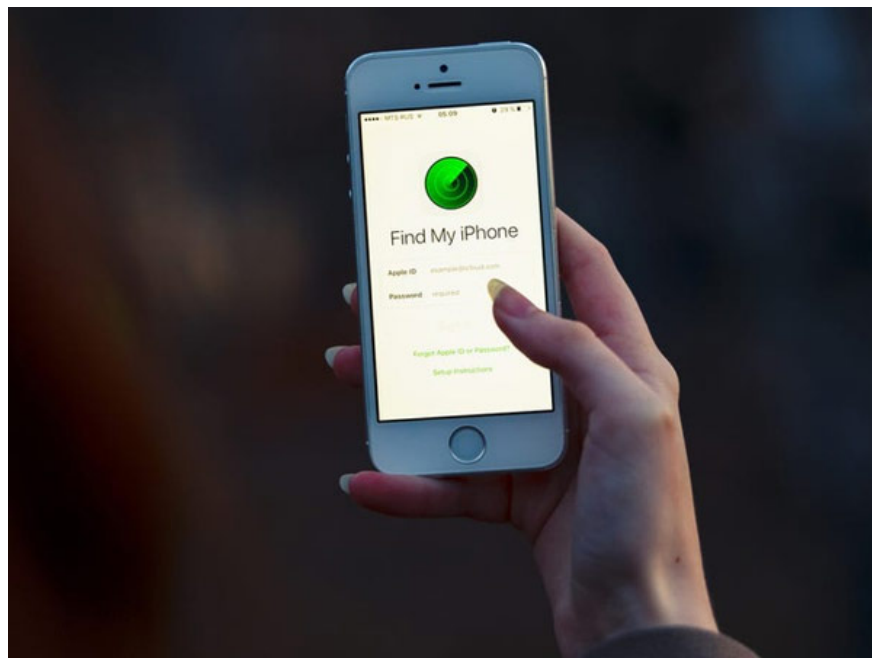

According to MacRumors, Apple will equip its sixth-generation wearable with a new processor with faster performance, sleep tracking and improved water resistance.

iPhone 12

According to predictions, Apple's iPhone 12 will have 3 sizes including 5.4 inches, 6.1 inches and 6.7 inches. These new Apple products will support 5G connectivity.

AirTags

Some sources claim that Apple is developing a small accessory that works similar to the Find My iPhone feature, enabling users to track and find lost items with the iPhone.

Apple TV +, Apple News, and Apple Music service packs

A source from Bloomberg said that in order to boost revenue and retain users longer with its platforms, Apple will launch a package subscription for three of its services.

Smart glass

Since early October, Bloomberg has reported that Apple will launch its first AR glasses in 2020 and it is likely that the device will be named Apple Glass.

Cheap HomePod speaker

Bloomberg claims that Apple will launch a low-cost HomePod speaker in 2020, with the same features but only equipped with two small flowers instead of using 7 satellite speakers as today.

1. Why do so many people hate Apple?
2. Apple may rent the iPhone because it sells it
3. Adobe Photoshop full version officially launched on iPad, fully functional and compatible Apple Pencil
