

## iPhone SE 2 will launch as iPhone 9?

The low-cost iPhone line is known to launch in the first quarter of 2020 with a starting price of \$ 399.

Apple's naming convention for iPhone versions was broken in 2017 when it launched the iPhone 8 and iPhone X, ignoring the number nine. Cheap iPhone SE 2 iPhone launched in the early spring of 2020 will be named iPhone 9. Analyst Ming-Chi Kuo also talked about a cheap iPhone launched in the first quarter of 2020, is the iPhone SE 2 this.

If the iPhone SE 2 officially launches as the iPhone 9, it will be an upgrade of the iPhone 8 with a similar design.

The device will be equipped with A13 chip with 3 GB RAM, 64/128 GB internal memory option and 4.7 inch LCD screen. This low-cost iPhone will no longer support 3D Touch, but will instead feature the Haptic Touch feature, which is also being used on three newly released iPhone 11 versions. With the lowest configuration version, the price is about \$ 399 (about 9.3 million), there will be three colors are silver, gray and red to choose.

Also according to Kuo experts, in 2020, Apple will launch 4 iPhone iPhone models and 1 model that supports 5G. In 2021, Apple may launch the iPhone SE 2 Plus version (or iPhone 9 Plus). Of course, the above information only leaked from technology pages, we still have to wait for official information from Apple.
