

Is it correct to write 'iPhone XS' or 'Xs'?

The iPhone XS generation has been around for nearly a year but not everyone, even Apple fans are confident enough to answer the question 'iPhone XS / XR or iPhone Xs / Xr?'

The iPhone XS generation has been around for nearly a year but not everyone, even Apple fans are confident enough to answer the question 'iPhone XS / XR or iPhone Xs / Xr?'

Both of these ways of writing are being used in many places and of course, no matter how you write it, you still need to understand it, but we need to clarify which method is correct.

Is iPhone XS or Xs correct?

It is Apple who has never made an official statement about which writing is the most accurate, but if you are curious about the correct answer, you can go to the Apple website and take a closer look at everything. after only a few minutes. In this article, let's just temporarily print all the letters.

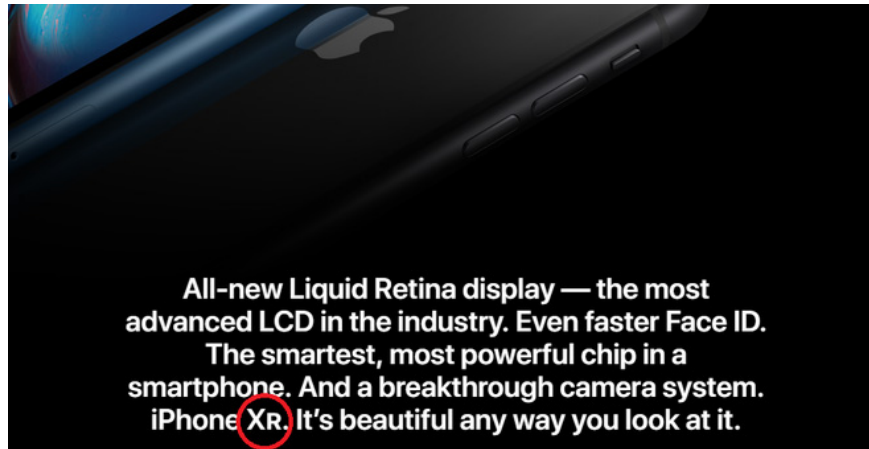

In the introduction of Apple iPhone XS (so called) on its website, the "s" was written by Apple, much smaller than the capitalized "X" next to it.

iPhone X^S

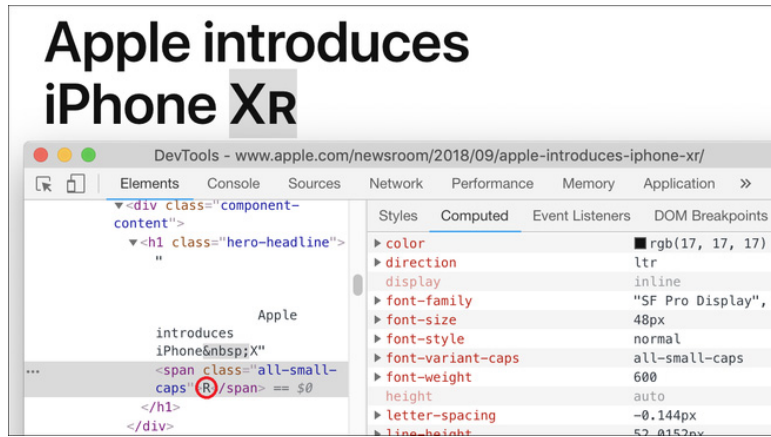

Welcome to the big screens.

Super Retina in two sizes — including the largest display ever on an iPhone. Even faster Face ID. The smartest, most powerful chip in a smartphone. And a breakthrough dual-camera system. iPhone **X^S** is everything you love about iPhone. Taken to the extreme.

In the introduction to the iPhone XR, Apple wrote a smaller "R", but it was in uppercase, and was smaller than the preceding "X". If iPhone XS is confusing by the usual 's' and the letter 'S' has the same pattern, for iPhone XR, the writing of different 'r' and 'R' is obvious. It is impossible for Apple to mistake the spelling between "s" and "S".

The "howtogeek" website specialized in science and technology has even accessed the apple.com website source code to check each character for sure. The results show that the following letters are all capitalized, just a small font size.

The capital "R" is found in the source code of the website.

So, iPhone XS, XS Max and XR are 100% accurate ways to write!

1. This is why Apple 's \$ 20 charger cord is easier to break than \$ 2' fake '
2. Surgical cable charging iPhone fake goods and genuine goods to see "expensive but chopped"
