The Epson L805 color inkjet printer has an elegant black color.

Detailed evaluation of Epson L805 color inkjet printer good?

Trademark

The Epson L805 color inkjet printer from the Epson brand was founded in 1942 in Japan. With a long history of formation and development, Epson is a 'big' in the world of printing equipment manufacturing, always applying modern technology, constantly improving to best meet the needs of User demand for printers with compact designs but offers crisp print quality, color fastness, fast printing speed, efficient ink savings and extremely durable operation.

Design

Epson L805 color printer has a compact design, less than 60cm in length, less than 30 cm in width, so it doesn't take up as much space. Besides, the weight of the device is very light, only 6 kg, so even though you need to change the location frequently, you absolutely do not have to worry about moving the device.

The device has a luxurious black tone, bringing sophistication to the area of use, suitable for any space ranging from home to office. The system of control buttons and paper tray, ink tank system is neatly designed, easy to use.

Epson L805 color inkjet printers can be used in many locations.

Print ability

Print technology

Epson L805 printer is equipped with 2 very modern printing technologies of Epson, that is piezoelectric **printing technology** (Piezoelectric) **with Micro Piezo nozzle** and **VSDT** (Variable Size Dot Technology). Since **no heat is used to eject the ink** and **the precise amount of ink in each drop of ink can be precisely controlled**, the machine will:

1. Durable operation even when printing in large quantities.
2. Delivering sharp image quality and fast printing speed.

Epson L805 color inkjet printer supports CD and DVD label printing.

Print speed

Epson L805 printer has an ideal printing speed, when printing color documents on A4 paper will reach a print speed of 38 pages per minute in draft mode and 5.1 inches per minute in print mode according to ISO 24734. The ability to print photos of the machine is also extremely impressive, with 10 x 15 cm photos it takes only 12 seconds to print in draft mode and 27 seconds to print in standard mode.

Print quality

The Epson L805 color inkjet printer has a maximum resolution of **5,760 x 1,440 dpi** , a minimum ink droplet size of only **1.5 pl** and uses up to **6 ink colors** , **each color has 90 nozzles** so the image prints out very well sharp, with high fineness, colors are reproduced truthfully and vividly.

Epson L805 color inkjet printer applies 6-color ink system.

Print capacity

The input tray of the Epson L805 color printer can hold up to 120 sheets of A4 paper, 20 sheets of photo paper, genuine ink cartridges that allow to print up to 5,400 A4 pages or 1,800 color photos so you will not need add paper or change ink regularly, helping to bring out the highest printing performance.

Function

The Epson L805 printer is a mono color printer, whose main function is printing colors on plain paper and photo paper. In addition, the machine supports the ability to **print directly onto the CD / DVD surface** , preventing you from having to buy a label printer separately to save costs.

Another special feature of this L805 printer is that in addition to traditional USB ports, it also **supports** convenient **wireless Wi-Fi connection** , which makes printing easier, more flexible, even without the need for entangled wire. Besides, many different users can easily print from smart mobile devices such as phones, tablets . as long as those devices are connected to the same Wifi network.

Compatibility

Epson L805 color inkjet printer is highly compatible, connected to many computer devices or smart mobile devices running on different versions of Windows, Mac OS or Android, iOS operating systems. Besides, the machine can also be used to print on a variety of paper and paper sizes, giving you the freedom to print according to your needs in the fastest, most flexible way.

Operating costs

Like many other Epson color printers, the L805 is rated as a cost-effective printer with:

1. High-yield ink unit, large capacity, no need to change ink frequently, users can easily refill ink, reducing print cost effectively (estimated cost of ink only cost about 400 VND per page) A4 and VND 1,200 for a photo).
2. Only 1 function to print so the machine works very durable, less damage.
3. Consumes less power, while the machine is in print mode, it also consumes only **13W** of power.

The Epson L805 color inkjet printer easily changes ink.

Conclusion: Advantages and disadvantages and when to use Epson L805 color inkjet printer?

With the above characteristics, we can see:

Advantages of Epson L805 printer : Fast printing; the quality of prints is crisp and vivid, with clear details, good color gradation and beautiful smooth colors; large, long-lasting cartridges, external cartridge design that monitors toner status and refills; low cost per print; Stable printing, low noise level; connect via Wifi and support CD / DVD label printing conveniently.

Cons of Epson L805 printer : Not yet support automatic 2-sided printing, no control screen.

Epson L805 printers should be used for : Personal, small and medium office, school, or small photo printing service to ensure print quality, print speed and effective business capital recovery.

How much does an Epson L805 color inkjet printer cost?

The Epson L805 color inkjet printer is a mid-priced color printer from the Epson brand. The selling price of this product in the market fluctuates mainly in the range of 7.5 to 8 million VND.

Currently, you can own a new Epson L805 color printer, 100% genuine, with a 12-month warranty with a discount price of **less than VND 7 million** at **META.vn**.
