

# Is the gaming ability of iPhone 14 Pro Max really as good as rumored?

As you know, iPhone 14 Pro Max is the most advanced version of the iPhone 14 series launched in 2023. This phone is equipped with many modern Apple features, including a large screen and powerful processor. , spacious storage memory and long battery life.

Thanks to that, iPhone 14 Pro Max works well in all tasks, from low to high graphics games, including the heaviest games today. Therefore, some technology users look to iPhone 14 Pro Max for the purpose of playing their favorite games and below are a series of advantages of this device, let's take a look!

## Powerful processing chip, unlimited capacity

It can be said that the processor chip is the point that makes Apple the most confident and it is also the weapon that makes all opponents step back. With the **iPhone 14 Pro Max** phone , the giant is equipping the A16 Bionic chip processor, built on a modern 4nm process. According to them, this chip is highlighted by a collection of up to 16 billion transistors, including 6 CPU cores and 5 GPU cores, allowing smartphones to run single or multitasking tasks smoothly without lag or shutdown. machine midway.

*iPhone 14 Pro Max plays all games smoothly*

In addition, the A16 Bionic chipset not only saves power effectively but also quickly handles complex graphics tasks such as PUBG Mobile, Genhin Impact game. Combined with that, this iPhone 14 Pro Max phone possesses Possesses 6GB RAM and increased internal memory up to 1TB, allowing users to comfortably use and store data, especially downloading graphic games smoothly without worrying about full memory. Practical experience shows that after many hours of continuous gaming, the body temperature of iPhone 14 Pro Max does not

increase too much, so users can rest assured.

## Large, sharp display screen

One of the outstanding advantages of the iPhone 14 Pro Max is its spacious display space, allowing users to watch movies and play games comfortably without obstructing vision. It is known that the rookie is equipped with a 6.68 inch screen, using Super Retina XDR OLED technology with the ability to display up to 1B colors. In addition, the iPhone 14 Pro Max screen also has a resolution of 2796 x 1290 pixels with a pixel density of up to 460 ppi.

*iPhone 14 Pro Max has an ultra-wide screen*

With this upgrade, the displayed image is sharper, more realistic and has high brightness. For HDR display content, the screen brightness of the genuine iPhone 14 Pro Max can provide 1600 nits. Under direct sunlight, this number reaches 2,000 nits. Therefore, users love iPhone 14 Pro Max because it has a super quality screen, helping to enhance every experience, especially playing graphic games.

Not to mention, the cheap iPhone 14 Pro Max is integrated with Always On Display technology, which supports the ability to maintain brightness in certain areas to help you see notifications such as: time, calls, messages, etc. . without needing to open the screen frequently.

## Improved speakers and sound

Besides the screen and super performance, the Apple giant also improved the speakers and sound of the iPhone 14 Pro Max. Specifically, the rookie has integrated 2 stereo speakers on the board, so the device will retain a main speaker below and a secondary speaker above. Thanks to that, when playing games or listening to music, genuine iPhone 14 Pro Max never disappoints users. When fighting a game, the music or sound when attacking is very loud and clear, bringing comfortable, genuine moments of relaxation.
