What country is Hurom's slow press?

Hurom is a famous brand from Korea, founded in 1974. Until now, after 45 years of establishment and development, Hurom has risen to assert itself to be the No.1 brand in Korea and at the same time. The world's leading brand in the field of manufacturing all kinds of multi-function blender, juicer .

In 2018, Hurom topped the list of the 15 most versatile juicer types. In addition, the slow line of this brand is also highly appreciated by consumers.

In the Vietnamese market, Hurom's slow speed juicer is imported and distributed in its entirety with various models and features.

Is the Hurom review machine slow down good?

In order to **evaluate the low pressure Hurom press**, please first find out the advantages of this product line:

Advantages of Slow Hurom presses

- Hurom speed slow juicer is produced on modern technology lines and won many prestigious awards such as: Red Dot Award, iF product design award, International Excellent Design Award (IDEA) .
- Extraction technology of extremely modern and advanced machines is also patented in Korea. Unlike conventional presses, the slow speed press Hurom uses screw pressing technology to keep the flavor of the juice always bold, keeping all the nutrients in the food.
- When using the slow Hurom press, you will see that the residues of foods will be much drier, so the amount of juice squeezed will be much higher than using other models.
- 100% of the Hurom fruit-wrenching machines in general and the Hurom slow-pressing machine in particular are made of high-quality, environmentally friendly and special materials that are not harmful to health. The same body filter is made up of 8 times harder ULTEM plastic than regular plastic, which offers high durability when used.
- In addition to impressive pressing ability to produce more water, more dense, users also appreciate it because this press machine does not cause unpleasant noise when operating.
- With automatic cleaning feature, you can easily clean the machine after using one button. In particular, you don't even need to use detergents and still be able to fly back the residual food residues.
- Long-term warranty up to 10 years for engines to help users feel more secure when using. This is one thing that no other press company in the world can do.

- In addition, Hurom's slow speed juicer is very versatile, giving users an extremely interesting experience:

1. Pressing a variety of foods: With a strong pressing capacity, slow pressing machine Hurom can squeeze a variety of foods from vegetables, tubers, fruits . they even squeeze the whole grass.
2. No need for a blender, just a Hurom's slow speed juicer can treat your friends. People with colorful smoothies.
3. Besides, you can also use the machine to make nuts like soy beans, red beans .
4. More specifically, from Hurom HAA 2016 onwards, Hurom also equipped with accessories to help users easily make super cool, cool fruit ice cream.

Hurom machine price is how much?

In general, Hurom's slow press is not a low-end product line. Want to own a slow press of this brand, users need to spend from about 7 million to tens of million.

However, considering the overall performance and quality that Hurom offers, this price is quite worthy for you to invest in order to get a long-term, stable product.

User evaluation of the Hurom press machine

Here are the low Hurom ratings of consumers:

Ms. Van - Nam Dinh: In the past, when using a press machine, I had to make full use of facial residue and exfoliation. But when I turned over to the slow presser Hurom, I had no chance to use it anymore because they were so dry, there was no water left.

Ms Hang - Hoang Mai: Hurom's slow pressing machine produces quite rich and nutritious juice glasses, since I use this machine I don't want to switch to another model.

Ms. Thu - Nguyen Trai: I am quite satisfied with Hurom's slow press, when I pressed it, it didn't sound like the old machines I used were especially versatile, so I really liked it.

From the reviews and sharing of users' reality, did you get the answer to the question of the slow press Hurom good? Here are a few suggestions for the best selling models today, giving you more options for yourself.

Top best Hurom slow presses today

Product Specifications

Hurom juicer HZ-SBE17

Price: 11,399,000 VND

1. Capacity: 500ml

2. Case material: Stainless steel
3. Length of power cord: 1.4m
4. Capacity: 150W
5. Voltage source: 220V - 240V / 50Hz - 60Hz
6. Speed: 43 rpm
7. Fuse: 250V / 5A
8. Warranty: Engine (10 years)

Hurom juicer HAA-LBE17

Price: VND 9,980,000

1. Motor wire length: 1.4m
2. Voltage source: 230V-240V / 50Hz-60Hz
3. Speed: 43 rpm
4. Power consumption: 150W
5. Fuse: 250V / 5A
6. Warranty: For engines (10 years)

Hurom juicer HZ-LBE17

Price: 11,399,000 VND

1. Length of power cord: 1.4m
2. Rotation speed: 40 - 43 rpm
3. Capacity: 150W
4. Voltage source: 220V - 240V
5. Continuous use: less than 30 minutes
6. Warranty: Engine (10 years)

Hurom H-AI SBE 20 speed slow juicer

Price: VND 10,500,000

1. Length of power cord: 1.4m
2. Rotation speed: 40 - 43 rpm
