

It is possible to download iOS 8.1 for iPhone, iPad and iPod touch for free

Apple has released the 8.1 version of iOS to customers using iPhone, iPad and iPod touch, with Apple Pay and many other features.

Apple has released the 8.1 version of iOS to customers using iPhone, iPad and iPod touch, with Apple Pay and many other features.

As promised, the new mobile operating system was announced last week by Apple in the launch of the **iPad Air 2**, **iPad mini 3** and iMac with 5K Retina display, allowing customers to download it free of charge. charge.

However, because in the early days, Apple's server may not be able to keep up with the large amount of downloads from customers, which will slow down the update speed.

One of the brightest features available in iOS 8.1 is Apple Pay, Apple's new contactless payment system that is used to pay for content on iTunes. However, Apple Pay's operation will depend on the device.

For example, iPhone 6 and iPhone 6 Plus have NFC features, which can be used in stores to make payments by placing them near a POS-compatible terminal, while iPad lacks NFC components. makes Apple Pay only support online payment and in-app purchases.

In addition, iOS 8.1 also supports iCloud Photo.

Customers can download iOS 8.1 directly on the device by going to **Settings > General > Software Update** . In addition, customers can also download via iTunes, then select the iOS device to use and install according to the instructions. The update capacity is about 117 MB.

Below is a topic that summarizes all the necessary download links, so you should bookmark it for use when needed.
