Keyboard shortcut in Excel, how to delete lines in Excel with keyboard shortcuts. Normally, when working with Excel if you want to delete a certain line, you will select all the rows then right-click and select Delete. But instead of manipulating the mouse you have t

Normally, when working with Excel if you want to delete a certain line, you will select all the rows then right-click and select Delete. But instead of manipulating the mouse, you can use keyboard shortcuts to quickly delete the line in Excel. So which shortcut keys can delete lines in Excel, let's find out in the article below.

Here's how to delete lines in Excel with keyboard shortcuts, invite you to follow.

Step 1: Select the line to delete.

Select the mouse in the beginning of the box to select all lines.

Step 2: Delete the selected line with the shortcut.

Press **Ctrl + minus key (Ctrl + -)** to delete the lines you have selected, immediately the lines you selected will be deleted.

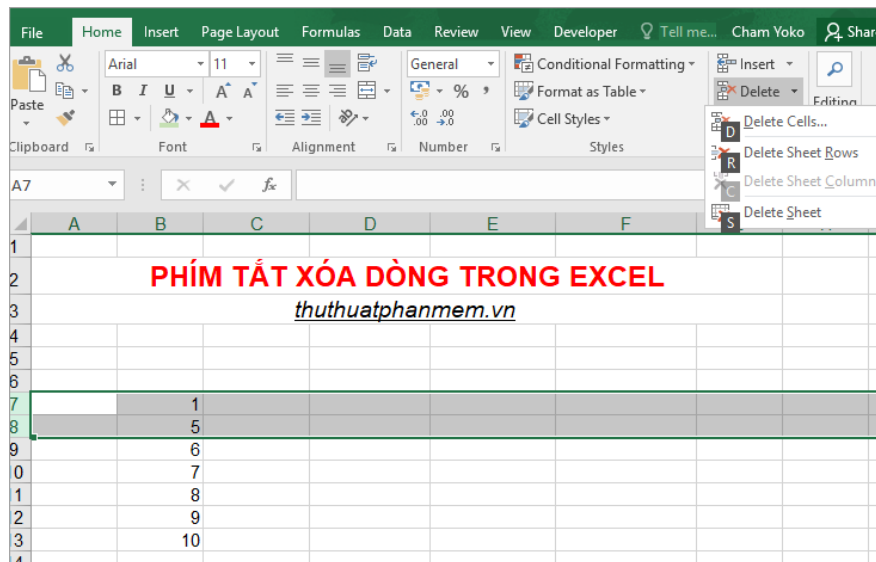

Note: If you want to delete the current row (the row containing the cell you are selecting), then pressing **Ctrl + -** will bring up a small dialog box, select **Entire row** and click **OK** .

Instead of choosing the **Ctrl + -** shortcut , you can use the shortcut **Alt + H** to open the **Home** tab shortcut .

Next select the D key, select the R key on the keyboard. Corresponding to the keyboard shortcut **Alt + H -> D -> R** is you choose **Home -> Delete -> Delete Sheet Rows**.

So the lines you choose will also be deleted.
