

## Laptop for business people

A top-notch laptop for business users must allow Internet access everywhere, be flexible to use Wi-Fi and mobile broadband, and even support 3G networks and must be able to protect communications. sensitive news. Therefore, the minimum number of machines

**A top-notch laptop for business users must allow Internet access everywhere, be flexible to use Wi-Fi and mobile broadband, and even support 3G networks and must be able to protect communications. sensitive news. Therefore, at least these machines must have fingerprint login function, TPM security chip and hard drive password.**

Below are 5 candidates who can meet these criteria.

### Thinkpad X60

This is one of the few 12-inch laptops equipped with the new Core 2 Duo dual-core chip, so the price is "unfriendly".

In addition to portability, users will receive strong configurations on par with the 14, 15-inch mass-market laptops. This Lenovo-IBM laptop has a handy keyboard, fingerprint security function, wireless wide area network connection (WWAN); Low battery consumption.

The X60 costs 38 million VND for the configuration: 2 GHz Core 2 Duo T7200; 80 GB HDD; 1 GB RAM; 12.1" screen; DVD-RW optical drive (plugged in USB port); Windows Vista Business pre-installed and warranty period up to 3 years.

### **HP Compaq nx6320**

Perhaps this is not the most beautiful laptop in the market, but HP has equipped it with the best features. It has all three layers of security: fingerprint, TPM chip and hard drive password for high security with private information.

In addition, with a scratch-resistant case and affordable price, nx6320 is an economical and efficient investment.

HP Compaq nx6320 is priced at 23.3 million VND according to the configuration: Intel Core 2 Duo 2 Ghz CPU, 512 MB RAM, 80 GB hard drive, DVD-RW, 15 inch screen, Bluetooth and 2.8 kg weight.

### **Toshiba Satellite M100**

A combination of powerful dual-core configurations, strict security features and a friendly ConfigFree interface, the Satellite M100 is a worthwhile product.

The M100 is priced at VND 17 million with the Core Duo T2250 (1.73 Ghz) configuration; RAM 512 MB; 14-inch screen, DVD-RW optical drive; Win Vista Home operating system and weighing only 2.26 kg.

### **ThinkPad T60**

The strength of the T60 is its robust casing design thanks to its squirrel cage structure, reasonable layout, good security, removable internal optical drive bay and long battery life.

However, the T60 was complained because of its high price. Even so, ThinkPad T60 is still a bright candidate

because of its thoroughness in networking, reliability in security, long battery life, fast execution even though its budget is not small.

The price of the T60 is up to 31 million with a 2 GHz Core Duo T2500 configuration, 512MB of RAM; DVD-RW optical drive; 14-inch screen, X1400 graphics card, weighing 2.3 kg and warranty period of up to 3 years.

### **Fujitsu LifeBook P7230**

The Fujitsu P7230 is an upgrade of the P7120 model that was praised a lot last year for its ultra-light appearance (12-inch laptop), long battery and rich feature set.

The latest feature of the improved P7230 model is that it replaces the Pentium M chip with the new Centrino Core platform that promises higher performance. The P7230 also has more color options than traditional gray black.

Price of Fujitsu P7230 is 28 million VND with 1.2 GHz Core Solo ULV configuration, 1 GB RAM; 60 GB hard drive; DVD-RW optical drive, 10.6-inch mirror screen, total weight of 1.3 kg are preinstalled with Windows Vista Business operating system.
