

Laptop HP 1000 champion in price range

HP has just updated the 4th cycle for HP 1000 laptop line. The product still maintains outstanding advantages with a solid design, luxurious glossy black piano plastic shell.

It can be said that with a budget of around 9 million, the HP 1000 Laptop series and attractive promotions are currently the best option for those who are considering buying the first computer to study, make a thesis, or design. math .

HP has just updated the 4th cycle for HP 1000 laptop line. The product still maintains outstanding advantages with a solid design, luxurious glossy black piano plastic shell.

HP's *"traditional"* detailed equipment is a solid screen coupling, does not vibrate when it is in the open working state and still ensures lightness in the opening and closing operation.

Pattern sinking HP logo on luxurious, beautiful black piano background.

It uses a 14-inch HD screen with 16x9 aspect ratio with BrightView technology on LED-backlit background to help bright, honest and power-saving images. The screen has a relatively good viewing angle, ensuring that the general team can observe the display image clearly.

Traditional keyboard with key-face design is similar to chiclet, which helps increase accuracy when typing and maintains the required bounce. The spacious touchpad with grain patterns enhances the feeling of finger-surfing for precision in operation. The on and off mouse buttons are used to temporarily turn on and off the touch, extending the projection space to the hand when entering a lot of text. This touchpad also supports handy multi-touch on **Windows 8.1** operating system with Charm bar calls, zoom in, rotate, scroll .

In addition to standard wireless connections such as Wi-Fi b / g / n and Bluetooth 4.0, it is also equipped with VGA and HDMI ports to easily connect to an LCD or projector. Three USB 2.0 ports and a multi-format card reader support data exchange as well as flexible external auxiliary devices. The standard HP MO06 battery is compatible with many other HP notebooks, ensuring availability in replacement parts after the end of the 3 year period.

The machine uses a standard 65W needle tip to provide a good contact area, not falling loose after a period of use, without damaging the plug as the previous small needle pattern. This charger is also shared by HP for more than 90% of its models available in the market.

HP 1000 is equipped with Intel's 3rd generation Intel Core i3-3110M Processor (3 MB Cache, 2.40 GHz) in parallel with Intel HD Graphics 4000 graphics processor with Intel Quick Sync Video 2.0 technology. This technology helps reduce CPU load during video compression and decompression operations while completing tasks faster and saves more power, making the total battery life possible up to 4 hours.

Products are also included with useful software such as:

1. **Cyberlink PowerDVD** to play disc types, video files.
2. **Cyberlink YouCam** creates real-time funny effects for webcams.
3. **HP Support Assistant** : Automatic update of drivers, operating system, hard drive cleaning, warranty warranty.
4. **HP Quick Start** : The familiar Windows 7 Start menu emulator on Windows 8.1.
5. . See more at <http://www.hp.com.vn/support>.

Product configuration reference **HP 1000-1419TU (E4X75PA # UUF)** for **8,900,000 million VND** (VAT included). The product currently has a promotion with a gift package worth **1,000,000 VND** including HP's high-end backpacks and helmets & backup battery packs.

Product code

E4X75PA # UUF

Processor
