

# Laptop price points reduced by millions

In the past two months, there have been a series of laptops with millions of dong discount, in which laptops from Acer, HP and Asus are the strongest heat-reducing products.

**In the past two months, there have been a series of laptops with millions of dong discount, in which laptops from Acer, HP and Asus are the strongest "heat-down" products.**

List of laptop models with a lot of discounts focused on the price range from 8 million to 12 million - if you are planning to buy at this time, please refer to a few samples below:

## 1. Acer E1-571

**(Reduction of about 2 million; price is 8 million VND)**

The **Aspire E1-571** design **does** not focus too much on the appearance with simple design, sturdy structure and rounded corners of the body to give it a slimmer feel. The outstanding strength of this laptop is the high performance of other laptops at the same price range thanks to the powerful Intel Core i3-3110 platform, preinstalled with a handy **Windows 8** operating system.

**Specific specifications:** Intel Core i3 - 3120M 2.5 GHz, 2GB RAM, 500 GB hard drive, 15.6 inch screen, 6 cell battery, discrete Nvidia GeForce 1GB card.

## 2. HP Probook 4440s

**(Reduction of about 1.8 million; price is 9.2 million)**

**HP Probook 4440s** of mid-range laptop line is selling quite well in Vietnam market thanks to its rugged design and high durability, its ability to adapt to harsh weather conditions, good security and attractive price. leads with many configurations.

With a variety of configurable options, durable adaptability to a variety of harsh working conditions with a good security support mechanism, long battery life and always in a cool state when working, HP Probook 4440s deserve the attention of small and medium-sized enterprises, who often have to carry mobile or many users on the same machine.

**Specific specifications:** Intel Core i3 - 3120M 2.50 GHz, 4GB RAM, 500GB hard drive, 14 inch screen, DVD optical drive, HD 720p resolution camera, Windows 8 pre-installed.

## 3. Asus A46C

**(Reduction of about 1.8 million; price is 7.2 million dong)**

This is a laptop model suitable for office users and students - because it meets all three factors: cheap price, beautiful design and good configuration. At the price of 7.2 million dong, **Asus A46C** is covered by smooth, sanded plastic, the screen border is close to the edges of the screen, making it look very delicate and luxurious. In addition, the keyboard part of A46C is quite handy with separate buttons to make typing operations faster and more accurate.

**Specific specifications:** Intel Core i3-2365M Processor chip (2 x 1.40GHz), 2 GB RAM, 500 GB hard drive, 14 inch screen, 4 cell battery, USB 3.0.

#### **4. Dell Vostro 5460**

**(Reduction of about 1.7 million; price is 10.8 million)**

**Vostro 5460** is Dell's laptop line with compact size no less than the current ultrabooks with the body thickness of 1.8 cm, the thickest place is 2.1 cm and weighs 1.54 kg, suitable for users regularly move.

Is a regular laptop model but has a light and light design style ultrabook and equipped with strong configuration, performance enough to meet the needs of both work and entertainment needs. The thickest body is 2.1 cm, the weight of 1.54 kg is suitable for users who often move.

Dell Vostro 5460 uses Intel Hyperbaric heat dissipation technology, air flow is taken through the keyboard surface and ventilation and hot air slots are pushed out on the back to keep the machine cool during use.

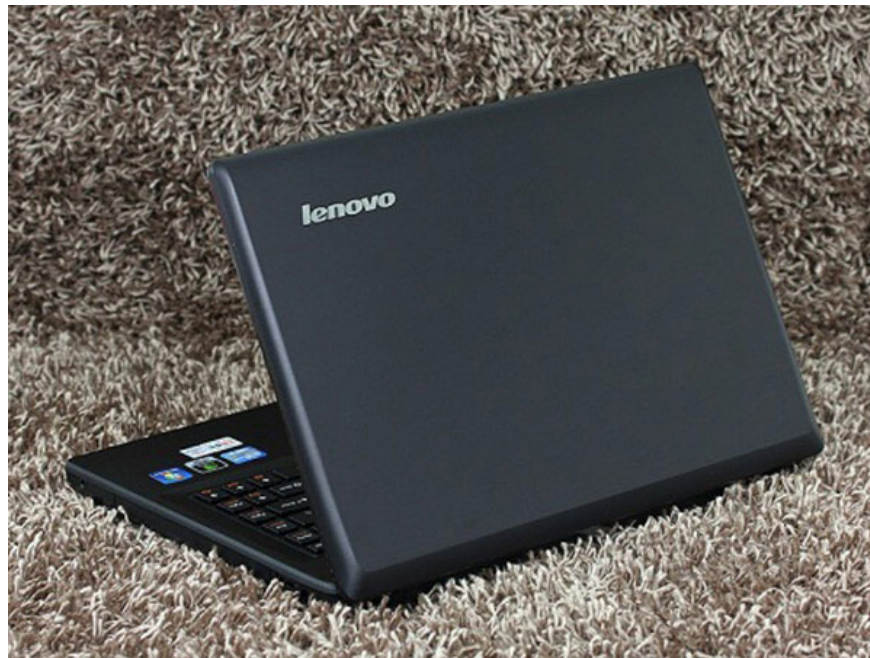

The device is pre-installed with Dell's In-Home Service data backup and backup package to enhance data management and security.

**Specific specifications:** Intel Core i3-3120 Ivy Bridge speed of 2.50 GHz, 4 GB RAM, 500 GB hard drive, integrated HD Graphics 4000 graphics, 14 inch screen, 6 cell battery, weight 1, 54 kg.

## 5. Lenovo G480

**(Reduction of about 1.6 million; the price is VND 9.6 million)**

**Lenovo G480** is a laptop with modern and luxurious design. Although the whole body is machined in plastic, it does not feel cheap because the high quality plastic material is machined with horizontal stripes to look like scratched metal.

**Specific specifications:** Three-generation (Ivy bridge) Core i3 processor with speed of 2.4 GHz, integrated Nvidia GeForce GT610M 1GB discrete graphics card for high graphics processing performance. In addition, the device uses 2GB of RAM and a 500GB hard drive will effectively meet the needs of working and storing data for learning, work and entertainment.
