

## Laptop sold in April 2012

Most notably this month is Dell's ultrabook, XPS 13 on the shelf. There are also other low-cost versions like Inspiron or Pavillion G6.

**Most notably this month is Dell's ultrabook, XPS 13 "on the shelf". There are also other low-cost versions like Inspiron or Pavillion G6.**

When the Core i 3rd Generation Ivy Bridge processor line has not yet launched, the new laptop models are mostly changed only by the second generation Core i3 or i5 version with cheaper price than before. In addition, it is also the time when many models come with video cards but the price is as good as the Dell Inspiron N4050.

Here are 5 laptops that will be sold in April:

### Dell XPS 13

Dell XPS 13.

The XPS 13 is the most notable laptop out of this April "shelf" product with its ultra-thin and light ultrabook design. The product has the thinnest thickness of only 6 mm, weighing 1.2 kg and a 13.3 inch screen with Gorilla Glass bearing glass.

Semi-genuine version in Vietnam market equipped with Intel Core i7-2637M processor, 4 GB RAM memory, SSD hard drive with 256 GB capacity. Intel HD Graphics 3000 graphics chip. It has an additional USB 3.0 port, Mini DisplayPort, HD standard webcam, Waves MaxxAudio speaker system.

Dell XPS 13 pre-installed Windows 7 64-bit operating system and Office Starter 2010, 48 Whr 6-cell battery.

The machine has a reference price of VND 34.5 million excluding VAT.

## **Dell Inspiron N311z**

Dell Inspiron N311z.

Dell Inspiron N311z with the traditional design of Inspiron line at the screen hinge section at the back. It has a 13.3-inch screen, weighs 1.76 kg and 2.2 cm thick, so it is quite compact and suitable for people who have to move.
