How to enter Anime Roulette game code to redeem rewards

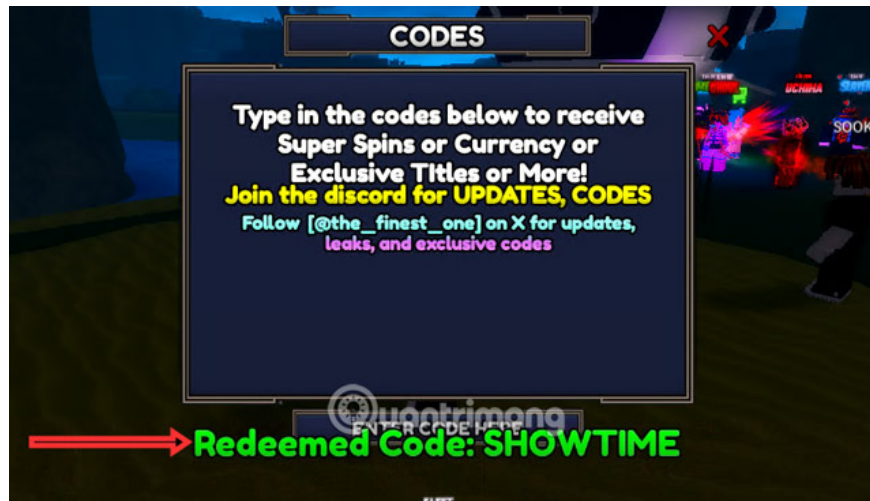

Step 1: To enter the code, go to the game, then select the icon to open the code entry panel as shown below.

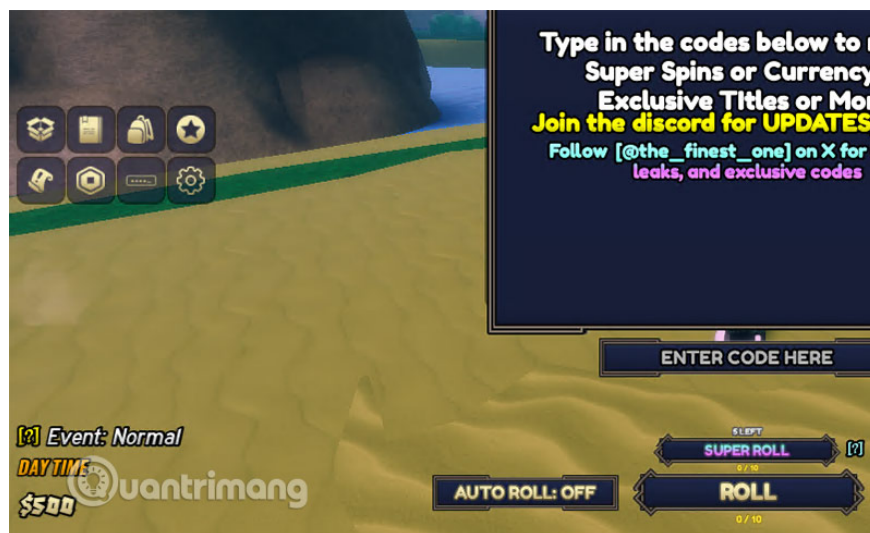

Step 2: Enter all valid game codes into the code entry box. If the code you enter is still valid, gifts will automatically be added to your character.

Step 3: The game code reward notification will let you know which code you have successfully redeemed.

Step 4: If it is an amount, you will see them added to the amount available in the game. Thanks to this money, you will be able to expand your inventory, buy items, use services and more.

If the game code cannot be changed

Some specific reasons why the Anime Roulette code cannot be changed:

1. Invalid code:

1. The code may have incorrect characters entered or errors due to the copying process. When you enter the code yourself and do not copy the code from the code table above, you will have to enter each character in the gift code correctly.
2. The game code may have expired, the game developer released the game code but did not include the duration of the game code. So when the player enters the code, they will know that the code has expired.
3. In some rare cases, the game code will not be available to players on that server, but this only happens if the game has more than 1 server.

2. Network connection error:

1. Unstable or interrupted internet connection is also the reason why you cannot redeem codes for rewards. Or the Anime Roulette server is having problems and is interrupted, which will also prevent you from exchanging codes for rewards.

3. Account error:

1. If you have not logged into your Anime Roulette account, you cannot use the code to redeem rewards.
2. Your Anime Roulette account being locked or restricted is also a reason why you cannot exchange giftcodes for rewards.

4. System error:

1. The Anime Roulette system is experiencing technical problems and will not help you exchange codes for prizes. If you encounter this error, you can only wait for the game developer to fix the error before you can redeem your prize.
2. Device errors prevent players from entering codes, usually this error is also very rare in games.

To fix the error, you can try these errors:

1. Check the code again and enter it correctly.
2. Check your internet connection and ensure it is stable.
3. Log in to your Anime Roulette account and check your information.
4. Update your browser or use another browser.
5. Restart your device or contact Anime Roulette support.
