How to redeem code for reward?

Quick Guide

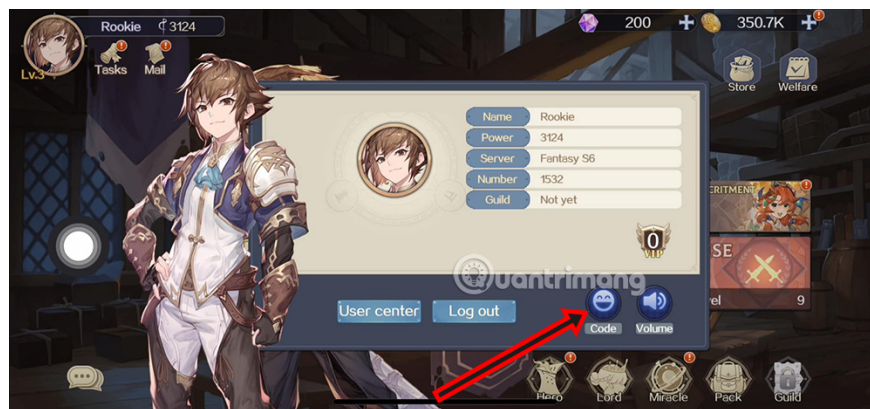

Select Character Avatar > Code > enter code and select Confirm to redeem code for reward.

Specific instructions

Step 1: First select your avatar in the upper left corner of the screen.

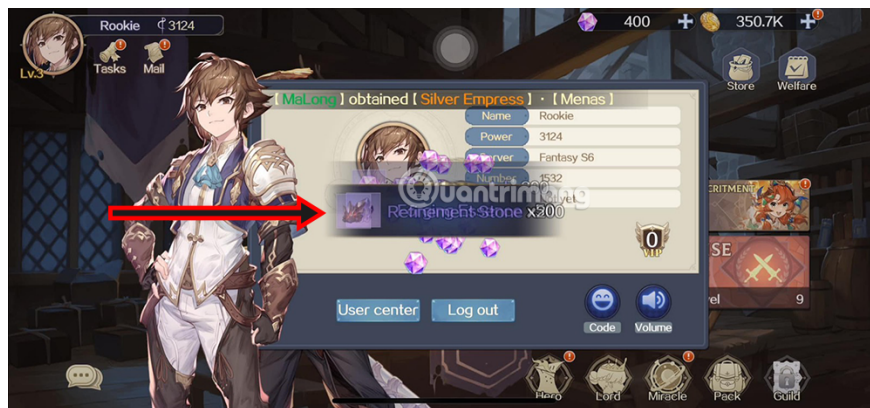

Step 2: Next select Code.

Step 3: Enter the entire giftcode into the code content box (1) and select Confirm (2) to redeem the code for a reward.

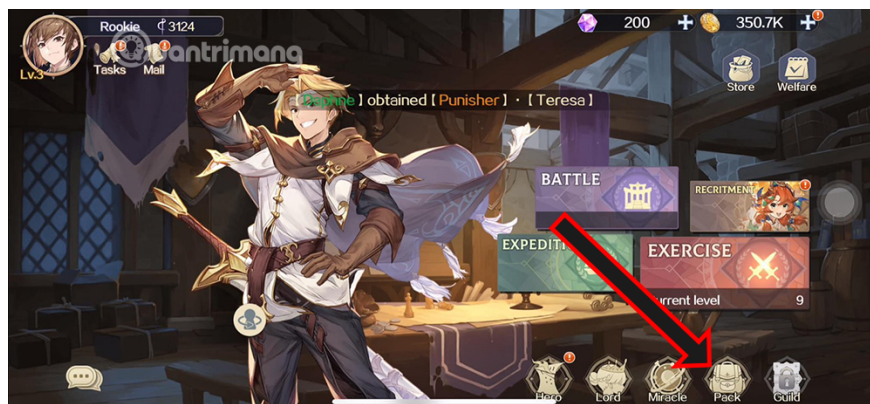

Step 4: If the code you redeemed is still valid and you enter each character correctly, you will definitely see the reward displayed as shown below.

Check the rewards redeemed from the giftcode

Since you don't need to receive the rewards from the giftcode via mail, they are sent directly to your Inventory when you successfully redeem the code for a reward. After redeeming the code, return to the main screen and select Pack to check the received rewards.

For rewards like currency or Purple Gems, they will be added to the amount of currency you already have.

So how to get daily code and redeem for rewards?

Follow this page of TipsMake.com.com, we will update game codes daily for you to redeem rewards. Not only Fantasy of Light codes, you will also receive many giftcodes of many other games such as Blox Fruit codes, Pirate Legend codes, Roblox codes.

Or you can follow the official pages of the game developer, including the homepage, official Fanpage or game player communities. These will be sources of information that not only provide gift codes but also information about maintenance, updating additional game content or opening more servers.

Why can't I change the game code even though I entered it correctly?

Codes are case sensitive, so make sure you enter the correct uppercase and lowercase letters. Game codes also have an expiration date, they only last for a short period of time, usually a few days, but longer, a few weeks or a few months. So if you enter the correct code but it expires, you won't be able to redeem it.
