## How to redeem code for rewards

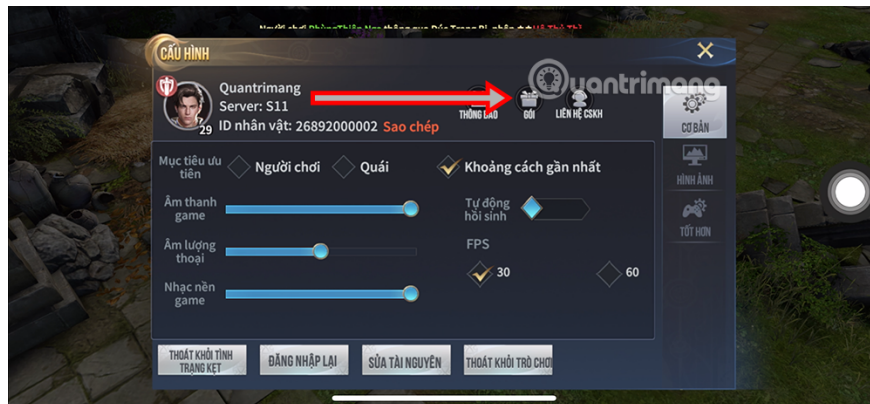

### Step 1: Select Change

**Step 2:** In the Change section, select Settings.

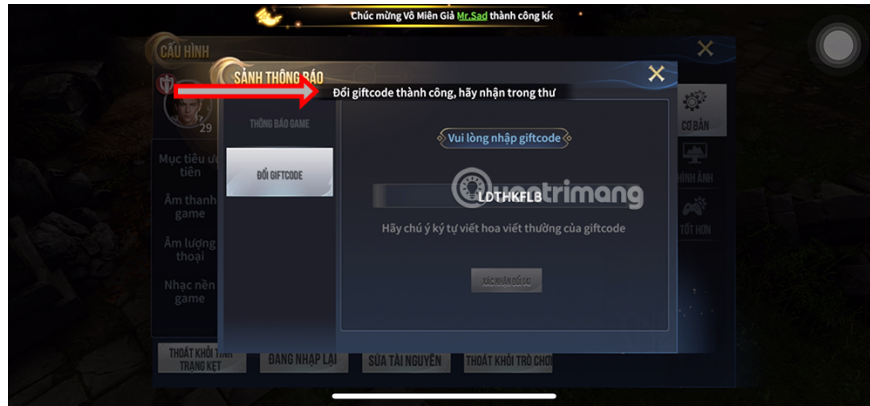

**Step 3:** Select Package.

**Step 4:** Next, select the box containing the code content, enter all the codes that are still valid in the code table above into the box and select Confirm Exchange.

**Step 5:** If the code you redeemed is correct and still valid, you will see the message "Giftcode redemption successful, please receive it in your mail."

## Check the email you received from the giftcode

**Step 1:** To check the messages exchanged from giftcode, select Hao Huu above the chat box.

Select Get Quick below the list of messages to receive all the gifts included in each message. Or check each message and select Get in the lower right corner of the screen to receive the gift attached to that message alone.

Note that each giftcode in the game can only be redeemed once and the game codes will also have a usage time. So please enter a series of redemption codes before the giftcode expires.
