

# Latest Genshin Impact Ghost Location

There are a total of 6 Ghosts in Genshin Impact, each with different attacks and elements. Each Ghost has a different ending effect after defeat. Below is the location of the ghost of Genshin Impact 2.8.

We currently have a total of 6 Ghosts in Genshin Impact, each with different attacks and elements. Each Ghost has a different ending effect after defeat. Below is the location of the ghost of Genshin Impact 2.8.

## Genshin Impact Ghost Location

Currently, the Ghosts in Genshin Impact can only be found in the Watatsumi, Seirai (Teyvat) and Enkanomiya areas. All Ghosts will drop the same item, so it doesn't matter what type of ghost you farm.

## Ghost of Watatsumi Island

The Ghost locations in Watatsumi are not close to each other, they are scattered throughout this area and farming them will take you more time to move. The areas where ghosts often appear are still near the coast, valleys, ravines, so it will take you more time to move to these areas.

## Location of the Genshin Impact ghost on Seirai Island

In Seirai, the placement of ghosts seems to be easier for players when they tend to gather in large numbers in one place. Most of the locations where ghosts appear are on the coast or on the mountainside, so it's not too difficult to reach. However, since they are "clustered 5, 3", it will be difficult for you to defeat them when your level is low.

If you are on Seirai Island preparing to farm Ghost, keep an eye out for the top of Mount Amakumo, where thunder and storm-like storms can occur at any time.

## Ghost location at Enkanomiya

You can only find Ice, Lightning, and Fire-type ghosts at Enkanomiya, however they still drop Heart, Husk, and Nucleus.

## How to defeat the Phantom Genshin Impact

Characters that wield swords are very unlikely to be able to approach Ghost. Ghosts are vulnerable to skills or elemental explosions, but magic-related weapons or ranged weapons are better. Suitable characters that are Diona, Klee, Fischl or Ganyu can deal with this crowd quickly.

Maybe many people do not know, Ghost has 3 elemental attributes: Feng, Shui and Nham. They are immune to these elements and if they take damage from them, they will grow more and more until they explode and die.

## Some notes about the ghost of Genshin Impact

Most of the items dropped from Ghosts in Genshin Impact are added directly to the character that destroys them. In addition, they will not die as soon as they run out of health, but will explode and deal massive damage to your character. So please wait 1 or 2 seconds before picking up the Floating Bead, Mora.
