## Reasons why you can't redeem Lineage2M code

Although gift codes bring many benefits, you cannot always redeem the reward code. Here are some common reasons:

1. **Expired Code:** Gift codes often have an expiration date. For example, codes from the pre-registration period may no longer be valid after the launch date of 5/20/2025.
2. **Previously used code:** Not only in Lineage2M but also in many other games, each code can only be used once for one character. If you have entered the code before, the system will report an error,
3. **Wrong server or character:** When redeeming the code, you need to select the correct server and character you are playing. If you select the wrong one, the reward will not be sent.
4. **Publisher error:** Sometimes VNGGames' code redemption system has problems, especially during peak days like launch day.
