

Launched 'black diamond' Asus RT-N56U WiFi Router

Asus has just introduced a WiFi Router called RT-N56U with ultra-slim design and a glossy black look.

Recently in Europe, Asus has introduced a WiFi Router called RT-N56U with a sleek, ultra-thin and special design that has a glossy black appearance.

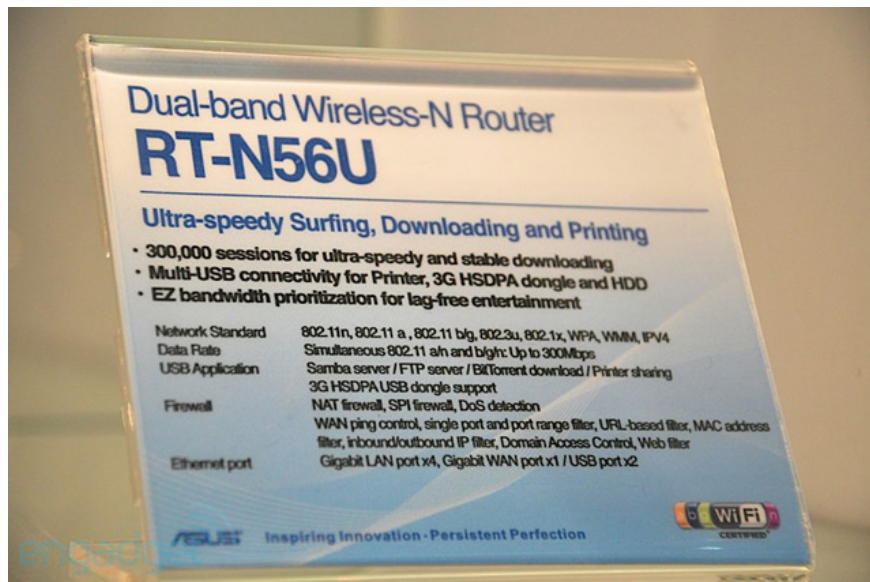

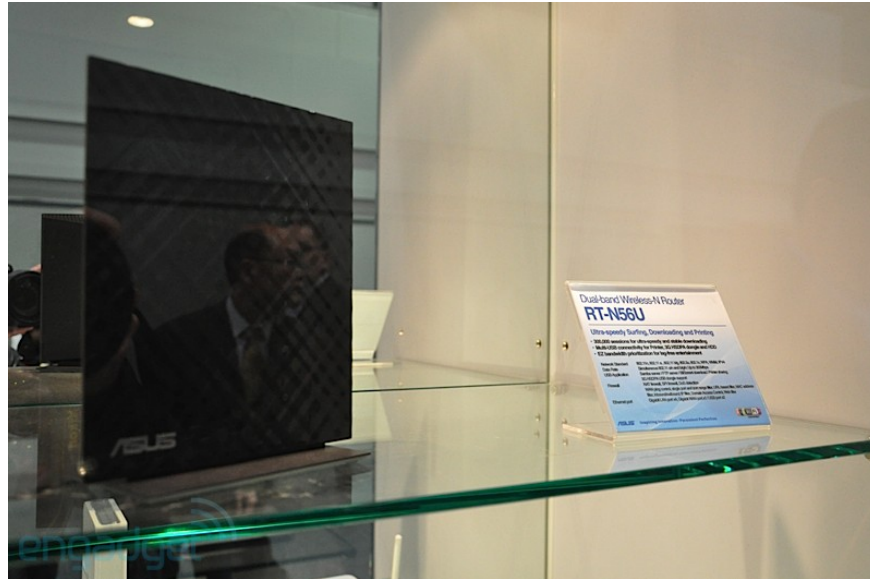

Asus RT-N56U supports two frequency bands of 2.4GHz and 5GHz, allowing devices to access the Internet at speeds of up to 300Mbps.
