Although it is an action and adventure game, wormate does not have intense shooting and chasing scenes like other games.

Instead, the player will control the snake to eat candy, cakes or pieces of corpses that fall from dead snakes. This is to help the snake grow and become bigger quickly.

In terms of gameplay, it is no different from the usual snake hunting game. However, one difference is that there will be many other snakes around you and you need to control your snake to avoid encounters with surrounding snakes.

Meanwhile, you can still find quality candy or items dropped from opponents to grow faster. Your snake will die if it accidentally hits the body of other snakes or hits the border.
