

Lenovo added Z360 to the IdeaPad line in Vietnam

IdeaPad Z360 costs from 14.3 million. The product is equipped with a sleek chiclet keyboard and a metallic case with a pattern

This computer is designed to meet the needs of mobile entertainment with luxurious design.

Lenovo Z360 costs from 14.3 million.

IdeaPad Z360 costs from 14.3 million. The product is equipped with a sleek chiclet keyboard and a metallic case with a pattern. It has a 13-inch HD resolution screen, 16: 9 frame rate, plus a Blu-ray drive (optional) and Dolby Advanced Audio high-end stereo system. The laptop is equipped with a OneKey Theater II button, which allows users to quickly adjust the sound with the click of a button.

Z360 uses Intel Core i-series chip and Nvidia GeForce graphics card.

Lenovo H320 is compact.

In parallel with the launch of the new laptop, Lenovo also brings the compact H320 desktop market, but with an Intel Core i7 processor with Intel's Turbo Boost Technology, it can be overclocked for higher processing capability.

H320 is equipped with many front ports to be able to connect quickly with favorite devices such as MP3 players, smartphone smartphones, headsets and many other devices. Meanwhile, the front optical drive makes reading and writing CD / DVD quick and easy. The H320 has the latest optional Wi-Fi 802.11b / g / n technology, doubling the range of the broadcast and up to 5 times the connection speed compared to the previous wireless technology standard.

In addition, Lenovo H320 also supports Full HD graphics via HDMI communication port, discrete graphics card supports Direct X 11 graphics, Lenovo Eye Distance System helps alert when you sit too close to the screen and memory DDR3 RAM up to 8GB and storage capacity on HDD hard drive up to 1TB

Lenovo H320 has an estimated price of VND 9,450,000 (including 10% VAT), not including a screen.
