

Lenovo IdeaPad Z460 has new colors

Laptops of this entertainment line of Lenovo besides Intel Core i3 processor and optional Blu-ray reader, new two colors added red and blue.

Laptops of this entertainment line of Lenovo besides Intel Core i3 processor and optional Blu-ray reader, new two colors added red and blue.

Lenovo Z460 with new blue and red colors.

IdeaPad Z460 still carries Intel Core i3 processor and 14-inch widescreen, HD resolution. Buyers can opt for a Blu-ray player or not, but they all have Dolby Advanced Audio stereo systems and NVIDIA GeForce discrete graphics cards.

This machine is still built-in features attached to Lenovo's brand such as OneKey Rescue 7.0 key for fast data backup, effective virus scanning; Veriface face detection technology makes it easy and safe to log in to the device, optional for Wi-Fi and Bluetooth connectivity; Longer and more durable battery life thanks to the Lenovo Energy Management 5.0 power management tool kit.

The new IdeaPad Z460 features a metal case with a chiclet keyboard with red and green colors, next to the traditional black. The starting price for the new model is from VND 13.5 million (VAT included).
