

Lenovo introduces new Yoga Slim 7 Pro and Yoga Slim 7 Carbon laptops

Lenovo has introduced two new Lenovo Yoga Slim 7 Pro and Yoga Slim 7 Carbon laptops equipped with AMD processors with strong configuration and attractive prices.

Lenovo has introduced two new Lenovo Yoga Slim 7 Pro and Yoga Slim 7 Carbon laptops equipped with AMD processors. Lenovo Yoga Slim 7 Pro is a powerful configuration laptop and Yoga Slim 7 Carbon is the lightest 14-inch OLED laptop in the world.

Lenovo Yoga Slim 7 Pro

Lenovo Yoga Slim 7 Pro has a 16-inch 2.5K touch screen, 100% sRGB color standard, 120 Hz refresh rate support and Dolby Vision HDR technology.

In terms of configuration, Yoga Slim 7 Pro is equipped with up to AMD Ryzen 7 5800H processor, along with optional discrete graphics card NVIDIA GeForce RTX 3050 and integrated card AMD Radeon Graphics.

The laptop is equipped by Lenovo with up to 16 GB of RAM, up to 1 TB of internal memory SSD PCIe M2. The device has a 75 WHr battery with up to 12.5 hours of use with super fast charging technology. In addition, the device also supports Wi-Fi 6, Bluetooth 5.1 connectivity.

Yoga Slim 7 Pro is 17.4 mm thin and weighs 2.1 kg. The device still retains a full range of connectivity ports, including: 1 HDMI port, 2 USB 3.2 Type-A ports, 1 USB Type-C port, 1 headphone jack and an SD card slot. The machine will run Windows 11 when sold.

Lenovo Yoga Slim 7 Pro will start at \$1,449 (about 32.8 million) and is expected to go on sale in October 2021.

Lenovo Yoga Slim 7 Carbon

Yoga Slim 7 Carbon is the world's lightest 14-inch OLED laptop with a weight of only 1 kg and a thickness of 14.9 mm.

The laptop has a 14-inch OLED screen with QHD + resolution (2,880 x 1,800), 90 Hz refresh rate, with a color standard of up to 100% DCI-P3, 91% AAR. The screen has a maximum brightness of 400 nits, supports Dolby HDR technology and touch options.

Yoga Slim 7 Carbon is equipped with up to AMD Ryzen 7 5800U processor, along with optional discrete graphics card up to NVIDIA GeForce MX450 and integrated graphics card AMD Radeon Graphics.

The laptop is equipped by Lenovo with up to 16 GB of RAM, up to 1 TB of internal memory SSD PCIe M2. The device has a 61 WHr battery with up to 14.5 hours of use with super fast charging technology. In addition, the device also supports Wi-Fi 6, Bluetooth 5.1 connectivity.

Because of its thin and light nature, the device has removed most of the connection ports and is equipped with 2 USB Type-C ports that support DisplayPort and Power Delivery 3.0, 1 USB 3.2 Type-C port and 1 headphone jack. The laptop will run Windows 11 when it goes on sale.

The device will be sold with a starting price of \$ 1,289 and is expected to be sold in October 2021.
